In Council, September 19, 1938, bill read a second time, rule suspended, read a third time and rejected on final passage.

Which was read.

Mr. Garland moved

To reconsider the vote by which the bill was read a second and third times and rejected on final passage.

Which motion prevailed.

And the question recurring, "Shall the bill be read a second and third times and finally passed?"

The motion did not prevail.

Mr. Garland moved

That the bill be recommitted to the Committee on Public Works.

Which motion prevailed.

The Chair presented

No. 1580.

September 22, 1938.

To the Members of Council of the City of Pittsburgh

Gentlemen:—

Replying to your communication of September 20, with reference to Bill No. 1540, and in which you requested the undersigned, with Utility Engineer John H. Smith, to make an investigation of the contract between the City and the South Pittsburgh Water Company, and to determine if it is possible to enter into negotiations for reduced rates, you are advised as follows:

The contract with the water company is dated February 11, 1929, and was authorized by Ordinance No. 2, approved January 17, 1929, and of record in Ordinance Book Volume 40, Page 636. The contract became effective January 1, 1929 and will terminate December 31, 1933, subject however to the following clause—

"With the right in each party hereto to terminate this agreement at the end of any calendar quarter prior to December 31, 1933, upon not less than ninety days' notice, in writing, served upon the other party hereto, fixing the date of such termination.

"It is further understood and agreed that after December 31, 1933, this agreement may be continued in force for another year and so on from year to year, unless terminated sooner in the manner hereinbefore provided."

During the pendency of this agreement the rates have been reduced three times under pressure: first, by the Public Service Commission, later by Mount Lebanon Township, and last by the City, so that now the return to the water company is approximately \$200,000.00 less annually than it was ten years ago.

During that ten year period the business of the company has grown so that the gross revenue has increased approximately \$50,000.00 a year, of which amount a very substantial part is applicable to capital return.

In August of 1935, the City filed a complaint against the water company before the then Public Service Commission, which case is still pending at No. C. 10890, and in September, 1937 the City requested the present Commission to intervene as a party complainant. It has not as yet indicated its decision, but a conference was held on February 3 of this year between the undersigned and Mr. Smith for the City, and Mr. Kelly and Mr. McShay, respectively attorney and accountant, for the Commission. At that time the information they requested was given by your representatives and the Commission has not yet acted.

Attempts by telephone to contact officials of the water company, with a view to negotiations for reduced rates, resulted in a reference of that matter to

Joseph A. Beck, Esquire, solicitor for the water company, and a letter has been addressed to him requesting a conference to that end.

Very truly yours,

JOSEPH A. LANGFITT, JR.,

Special Assistant City Solicitor.

Which was read, received and filed.

Mr. Gallagher moved

That the Special Assistant City Solicitor be instructed to notify the South Pittsburgh Water Company that the City will terminate its agreement with the Water Company on December 31, 1938.

Mr. McArdle arose and said:

Mr. President:—I want to raise a question as to the adequacy of such a procedure, whether a mere motion of Council will be sufficient to terminate this agreement, or whether the notice will have to be in the form of a regular resolution, which took the procedure of reference to committee and passage by Council and concurrence by Mayor, to make it a binding action on the part of the City of Pittsburgh.

Mr. Gallagher arose and said:

Mr. President:—I don't know what the regular procedure is. My motive is to comply with the provisions in the agreement of giving three months' notice. If we notify them that the agreement is terminated by giving the three months' notice, and if they want to hold a conference with us for the purpose of reducing the rates, the door is still open to them to come before Council. There is a rate case pending before the Public Utility Commission against the South Pittsburgh Water Company, and their determination to reduce rates will have no effect on the case pending before the Public Utility Commission. Whatever the procedure to be followed, the City Solicitor should be notified in time to so notify the Water Company.

The Chair said:

It would occur to me that a resolution passed at this meeting would be sufficient notice to the Water Company of the City's determination to terminate this agreement. Mr. Langfitt, will you come forward?

Mr. Jos. A. Langfitt, Jr., Special Assistant City Solicitor, was present.

The Chair:

Mr. Langfitt, are you able to advise us what is required to give sufficient notice to terminate this agreement or contract?

Mr. Langfitt said:

I feel it will have to be terminated in the same manner in which it was consummated, and that is by an ordinance of Council.

Mr. McArdle said:

Have you a copy of the agreement?

Mr. Langfitt:

Yes, sir.

Mr. Wolk said:

Is there provision in the agreement as set forth in your letter? If the agreement is not terminated 90 days before the end of this year, what measures must be taken as far as extending the agreement for another year? Is that automatic, or must you take some specific action?

Mr. Langfitt:

It is automatically extended from year to year. In my opinion it can be terminated quarterly.

Mr. Wolk:

That is the question I wanted to ask. If it is extended from year to year, and say we extend it to April 1st, can it be terminated by a quarterly notice served January 1st?

Mr. Langfitt:

The present contract provides,

"With the right in each party hereto to terminate this agreement at the end of any calendar quarter prior to December 31, 1938, upon not less than 90 days notice, in writing, served upon the other party hereto, fixing the date of such termination.

"It is further understood and agreed that after December 31, 1938, this agreement may be continued in force for another year and so on, from year to year, unless terminated sooner in the manner hereinbefore provided."

Mr. Wolk:

If the agreement is extended for another year, it can be terminated

as of April 1st by giving notice January 1st?

Mr. Langfitt:

Yes, sir.

Mr. Wolk:

What would be the effect of terminating the agreement this year by giving the Water Company notice this month; what would be the effect on those who are furnished water by the Water Company?

Mr. Langfitt:

There would be no change in the style of billing the consumers for water. Instead of the City paying the bills, the consumers would be billed direct by the Water Company, and pay at their scheduled rates.

Mr. Wolk:

In other words, if the Water Company has no further contract with the City, the people who are now receiving this service would continue to pay the Water Company?

Mr. Langfitt:

And at their rates, the scheduled standard rates. The Water Company can shut them off when they don't pay, whereas the City does not.

Mr. Gallagher said:

Mr. President, I would like to ask Mr. Wolk what difference it makes if we notify them of the termination of the agreement now or wait until January 1st?

Mr. Wolk:

I didn't raise that question. The reason I asked this question is that I had a conference with Mr. Langfitt and I wanted to know the answer to these questions because I was a little disturbed of the situation in case the agreement was terminated. I am not saying we should have a continuation of the contract. I have not made up my mind on that yet. But I was concerned about the situation in which these consumers would be left. In case we terminated this agreement this month, we would find ourselves in this situation that the Company would bill these people directly after the first of the year.

Mr. Langfitt:

That is correct.

Mr. Wolk:

That is the only thing that disturbs me. I want to know if we can still terminate the contract as of April 1st or make arrangements with the Water Company or the Public Utility Commission and bring the matter up before them.

Mr. Gallagher:

I am not so much disturbed that they will change their mode of procedure. We have a case pending before the Public Utility Commission and we gave them notice. Mr. Langfitt has asked for a conference and they have not agreed to come to this conference. I feel sure that when the time comes we can sit down in conference and force them to reduce rates; that we will be able to show that they are charging excessive rates and that we have a right to go before the Public Utility Commission with a case for a reduction in rates. I am trying to save the City some money when making up the annual budget. It runs over \$400,000 a year, and I cannot see any reason why we should pay the South Pittsburgh Water Company these high rates. We ought to get the same consideration as shown large industrial users of water.

The Chair said:

We are only considering what are the legal steps to be taken to finally terminate this agreement. When we talk about terminating this agreement, we must do it in a way that will terminate it, and before we do it, we must clarify the point raised by Mr. Wolk and the Law Department, as to whether, if we fail to terminate it in this quarter or any given quarter, or whether we prolong the agreement a full year, three months' notice must be given by the City of its determination to terminate the agreement later.

Mr. Wolk:

I am not disagreeing with Mr. Gallagher. I am only raising these legal questions, and I believe they should be settled before definite action is taken on the subject.

The Chair:

Don't you believe a resolution

passed at this meeting of Council will be sufficient?

Mr. Langfitt said:

I do.

The Chair:

Mr. Gallagher, I would suggest that, if you are satisfied to change this motion and present a resolution, that is the proper thing to do.

Mr. Gallagher:

I am perfectly satisfied to do it in whatever way is proper.

The Chair:

Unless Mr. Langfitt is satisfied this motion is sufficient, we had better adopt the proper resolution or ordinance to carry out Mr. Gallagher's idea.

Mr. Langfitt:

Mr. President, I do not believe the motion as offered by Mr. Gallagher is sufficient.

The Chair:

Will you dictate the proper resolution to the stenographer?

Mr. Langfitt at this time agreed to dictate the required resolution.

The Chair:

If there are no objections, the resolution as dictated by the Special City Solicitor and written by the stenographer will be made a part of the minutes.

Mr. Gallagher said:

I move that the resolution as dictated by the Special City Solicitor for the termination of this contract be adopted.

Mr. McArdle said:

Before you take action, I would like a moment to look at this. Do I understand this motion is intended to meet the requirements of this agreement as to notice by passage of a resolution today? What further action, Mr. Langfitt, after our action then, is required to terminate this agreement?

Mr. Langfitt said:

Merely the serving of a notice upon the Water Company that the agreement is terminated.

Mr. McArdle:

We are talking about how it shall be terminated. What shall be done, assuming this resolution is passed, what follows that, to consummate fully the City's right to terminate this agreement?

Mr. Langfitt:

Merely notifying the Water Company that you have decided to terminate the agreement is sufficient.

Mr. McArdle:

Doesn't it also require the signature of the Mayor?

Mr. Langfitt:

I don't think so.

Mr. McArdle:

Mr. President, I certainly would think that it would be an error to merely pass a resolution notifying the Water Company of the City's determination to terminate this agreement. I am only talking about what we ought to do to make it effective. This is not an agreement between the City Council and the South Pittsburgh Water Company. It is an agreement between the City of Pittsburgh and the Water Company. The City of Pittsburgh is a party to the agreement and the signatures to the agreement are those of the Mayor and the Director of the Department of Public Works on authority of legal legislative action on the part of the City by which the City legally speaks.

Mr. Langfitt:

That is right.

Mr. McArdle:

We propose to undo that, to take advantage of one of the provisions of this agreement, by the mere action of Council and not by the regular procedure by which Council acts in legislative proceedings. I want to make clear, in order to give legal notice this agreement requires, that there would have to be either an ordinance or resolution introduced in Council today or Monday or whenever it was introduced, to go to the committee for consideration and be reported back and acted upon and signed by the Mayor, or passed over his veto, in order to conform to the provisions of the original agreement ordinance that proper legal notice must be

given to this Company of the City's determination to terminate the contract. If we propose to follow out the legal processes of law in this case, I certainly don't think we ought to get it into such shape that the City will be held liable because of some technical error.

Mr. Langfitt:

If we do nothing, the agreement will terminate.

Mr. Wolk said:

That is the only thing I wanted to bring out. One paragraph of the agreement says that it shall terminate December 31, 1938, with the right in either party to terminate this contract at the end of any calendar quarter upon 90 days' notice, in writing. There is another paragraph. "It is further understood and agreed that after December 31, 1938, this agreement may be continued in force for another year and so on, from year to year, unless terminated sooner in the manner hereinbefore provided." Inasmuch as the word "may" is in that contract, does it terminate the contract?

Mr. Langfitt:

That is a doubtful question.

Mr. Gallagher said:

If we don't take any action at all, as the Special Assistant City Solicitor informs us, the contract is terminated on December 31, 1938.

Mr. Wolk:

The question I raise is this: one paragraph provides for the termination of the contract December 31, 1938. If we do nothing on this agreement, the contract would be ended December 31, 1938. Take this further paragraph, "It is further understood and agreed that after December 31, 1938, this agreement may be continued in force for another year and so on, from year to year, unless terminated sooner in the manner hereinbefore provided." Unless terminated, etc., etc. The question I raise is, how do you extend this agreement for another year?

Mr. Langfitt:

By mutual consent.

Mr. Wolk:

By mutual consent. Does it re-

quire mutual consent? Does the City on its own motion extend the contract by merely notifying the Company of its intent so to do?

Mr. Anderson said:

Mr. President, what effect will it have on the present contract if we just automatically allow it to terminate?

The Chair said:

It will increase the rates of the consumers of the Water Company within the City. They will have to pay the same rates as other consumers of the Water Company.

Mr. Anderson:

If we take other action by ceasing to participate in this agreement any further than this year, what position would we be in with the Public Utility Commission about making a new agreement at a lower rate or a new rate?

Mr. Langfitt said:

Any contract we make would have to have the approval of the Commission.

Mr. Anderson:

I think the Law Department should prepare and submit the proper legislation to Council so that we can have a discussion on it. I think that is the proper question before the Council. Council should look into this as it is an important question.

The Chair said:

If we do anything we must do it before the end of this month. We are going to be here on Wednesday for hearings. If the Law Department, to accomplish this, will introduce the proper legislation Monday, I will call a special meeting of Council for Wednesday.

Mr. Wolk said:

May I suggest further that we have a written opinion on this question, particularly the question of the termination of this contract, or rather the extension of the contract for another year, the manner in which it is extended, and the question, if it is extended, whether it can be terminated within three months.

Mr. McArdle said:

I wanted to ask Mr. Langfitt another question. The right to terminate this agreement from the inception of the agreement, didn't the City have the right to terminate it at any time provided it gave ninety days' notice of its intention so to do?

Mr. Langfitt said:

That is correct.

Mr. McArdle:

Doesn't the agreement further provide if it ran the life of the agreement, which is ten years, that it would go on from year to year subject to that same right of notice to cancel?

Mr. Langfitt:

No, I cannot say it is correct. It is the intention but the wording does not so state.

Mr. McArdle:

I am reading from the language of the ordinance. Whatever it said in the original agreement is also said with respect to this as this is based upon the provisions of the ordinance, unless terminated sooner in the manner hereinbefore provided.

Mr. Langfitt:

The word "may", I would be of the opinion that there would have to be definite action taken.

Mr. McArdle:

In your case, in order to terminate this agreement, all we need to do is to take no action?

Mr. Langfitt:

That is right.

Mr. McArdle:

Then the talk of urgency in serving this notice upon the Water Company is erroneous?

Mr. Langfitt:

That is correct.

Mr. McArdle:

Another question: with respect to your further consideration of whatever report and recommendation you make to us, that this agreement provides two things. It provides (1) that the South Pittsburgh Water Company is to furnish the City with hydrant service, and then it provides for the right

of the City to purchase water wholesale and bill the users at the City rates. Now, I think whatever action is taken we ought to have in mind the preservation of that hydrant service. We ought not to abandon that because the other takes care of itself. We want to know whether the hydrant service is taken care of. The Commission may have the right under its power to force them after a reasonable time to continue that service. We ought not to pass the question up without knowing what the consequence will be before acting on it.

The **Chair** said:

Mr. McArdle and Mr. Langfitt, granting that the conclusion you have reached, that no action is necessary, don't you think it would be the prudent thing, in spite of their automatic termination, to give them a notice?

Mr. **Gallagher** said:

That was my purpose in offering the motion, that the Water Company be notified of our intention to terminate the agreement.

Mr. **Anderson** said:

What effect will that have on the price of water? If we allow this agreement to expire without a new one, what position will we be in with respect to the purchase of water for those citizens living in the City?

Mr. **Garland** said:

If you give them notice, they will come in and plead with Council for a continuation of the contract.

The **Chair** said:

The real answer to Mr. Anderson's question is that the dealings would henceforth be between the users and the South Pittsburgh Water Company, and they would be affected by the rates of the South Pittsburgh Water Company.

Mr. **Anderson** said:

That is the big question in this whole argument. Can this Council allow this agreement to expire and have the people, who are citizens of the City of Pittsburgh, who come under our tax rate, pay a higher rate for water than those who are benefited by the rate that is set by the Council? I don't think we want that. I for one don't. While

I am on my feet, I would like to ask that the Law Department supply Council immediately the rates that are charged by the City, the Borough of Homestead and any other boroughs we supply water to.

Mr. **Langfitt** said:

I have the rates here.

Mr. **Anderson**:

I think we can make some comparison if we take some action on this agreement to show what the city does in selling water to outsiders. My recollection of the agreement that the City has with Homestead is that the rate for water furnished this Borough is very low. It is lower than the South Pittsburgh Water Company charges us. It would be an argument to show the Public Utility Commission and arrive at some rate, a fair rate, to supply us water for the citizens whom they supply. I would not for a moment, Mr. President, agree to allow this agreement to run out and allow the individual who is receiving water from this very company to be charged a rate that is higher than the city rate. Surely they would have no protection at all if we do that, and I am fearful that that is the position we would put these people in if this agreement is terminated. I as one member of Council do not care to do that. So many people get their water from this source.

Mr. **Gallagher** said:

It is not my purpose to force these consumers (who are residents of Pittsburgh) to pay the same rates as outside consumers. I know we are paying the difference between the rates collected by the South Pittsburgh Water Company from outside consumers and those living within the City. I know when we were before the old Public Service Commission, a reduction of \$90,000.00 was made in water rates by the South Pittsburgh Water Company, and the question was left open for the City to return to the Commission for still further reductions. From information I have received, the City of Pittsburgh is paying the South Pittsburgh Water Company excessive rates. That Company is just a subsidiary of the American Water Works Corporation of New York. The large profits from the South

Pittsburgh Water Company go to the owners of the American Waterworks Corporation. I am trying to save the taxpayers of Pittsburgh some money. I don't want to raise the rates of the 19,000 or 20,000 consumers of this Water Company.

Mr. McArdle said:

Just what Mr. Gallagher is trying to do will result if this agreement is terminated. The only thing that saves the consumers of the Company in Pittsburgh is this agreement. The minute we terminate this agreement they will be assessed the higher rate, or the Company rate. I want to ask Mr. Langfitt another question, as to whether the existence of this agreement, its continuation during the life of this contract, is a substantial barrier against a further reduction of those rates by the Public Utility Commission?

Mr. Langfitt said:

Not in any respect.

Mr. McArdle:

Another thing, we must not lose sight of, in our present position as a very substantial contributor to meeting these costs by assuming this difference in these rates, I think we have a stronger urge to battle for a readjustment of the rates, and certainly the City of Pittsburgh ought to be in a little better position than the scattered territory in order to get relief—assuming we didn't get into the picture at all.

Mr. Langfitt:

That is the reason why we asked the Public Service Commission to intervene to avoid the expense of very high-priced engineers, accountants, etc.

Mr. McArdle:

Let me ask another question. It has been injected into our discussions here many times for many years. The question: has the Law Department really reached a definite decision as to whether the City does have the right under whatever the present state of facts are, to go into this territory within the City limits and furnish water, wholly independent of the South Pittsburgh Water Company, or any other water company?

Mr. Langfitt:

I cannot give you that opinion right now. We have a right to take over the plant.

Mr. McArdle:

I am thinking more about whether we have the right to go into any of this territory and lay any of our own lines and serve our own territory with water.

Mr. Garland said:

It is a matter of public policy to lay parallel lines.

Mr. Langfitt:

I would like to study that a little further. Take their lines—

Mr. McArdle said:

Take nothing. Merely to go in and serve these people with our own supply.

Mr. Anderson said:

Would you agree that that condition may confront us if we go through with this proposition. It will be necessary for the individual to make an agreement. The Public Utility Commission is on record now for a reduction in utility rates, including water service; and in fixing a new rate to be charged by the South Pittsburgh Water Company, they would arrive at a rate that is both fair and equitable to the consumer as well as the Company. And I am sure that it would be no higher than the rate we charge the people of Pittsburgh. We are facing that situation by taking action on this in this way. Therefore, I think we ought not to take action on this agreement. The Law Department ought to look into that question and bring it back to Council, even if we must serve notice by the end of this month.

Mr. Gallagher:

As far as the Water Company wanting to make agreements with individuals, these consumers are delinquent in their city water bills, some of them not paying at all.

The Chair said:

The Law Department advises that no action is necessary; that the agreement is automatically terminated on December 31, 1938. Within this three

months' period, probably some conclusion can be reached whereby the City's rights will be conserved. I think that is all Mr. Gallagher has in mind.

Mr. Anderson said:

If you allow this agreement to go by the board, is it the opinion of the Law Department that we can go in and make the same agreement, or the individuals will have to make agreements?

The Chair said:

It appears that as long as the Water Company is furnishing water, the Water Company will be in here for a new agreement.

Mr. Wolk said:

Mr. President, I thoroughly agree with the Chair, if I thought that this matter could be adjusted in the three months' period. In other words, the rates could be adjusted by the Public Utility Commission. That is the reason why I asked these legal questions. Are we going to put ourselves in the position of forcing these residents in these districts served by the South Pittsburgh Water Company to do business direct with the South Pittsburgh Water Company instead of through the City of Pittsburgh? That is the main point I have in mind in having these legal questions discussed here. Therefore, I would like to be absolutely certain that if the agreement is extended for another year, or can be extended, and our right to terminate upon ninety days' notice exists, then it would guide me in making a decision in this matter. I am concerned, like Mr. Anderson, of the conditions that will arise after the first of the year. I don't want to be criticized by the people in this district for providing

water service for the rest of the citizens of Pittsburgh at a lower rate than we are able to furnish it to them. That is my only reason for raising these questions. I think it is up to the Law Department to advise us definitely, and if we want to take action before the first of the month, we can do so. We ought to be advised of our legal position, so that there will be no question of terminating this contract this month, if it is the wish of Council that it be terminated.

Mr. Garland moved

That the Department of Law prepare the necessary resolution or ordinance, which in their judgment is necessary, for presentation to Council on Monday, that it be considered in Committee on Tuesday, and passed before the 30th day of September, 1938, so that the three months' notice may be given the South Pittsburgh Water Company, provided it is the wish of a majority of Council to terminate the agreement.

The Chair said:

There is a previous motion before the body. Will Mr. Gallagher withdraw his motion?

Mr. Gallagher said:

I will withdraw my motion, Mr. President.

The Chair said:

The question is on the motion of Mr. Garland, that the Department of Law be requested to introduce in Council on Monday next the necessary legislation required to terminate this contract at the end of the year.

Which motion prevailed.

And there being no further business before the meeting, the Chair declared

Council adjourned.

Mr. Evans also presented

No. 1711.

Pittsburgh, Pa., October 6, 1938.

To the Council

Gentlemen:

Bill No. 1639—An Ordinance authorizing the payment of \$1,236.00 to the Power Piping Co. under the Wallace Act, has been referred to this office for approval as to regularity.

Contract No. 6689 was awarded to the Power Piping Co. for installation of sprinkler systems in the various buildings at the City Home and Hospital at Mayview. The contract price provided for a certain number of sprinkler heads as shown on the plans, to be installed, on which an estimated price was based. Further, the contract specifically provided for additional sprinkler heads, designated as Item 4, which reads "Unit price for additional sprinkler heads that may be necessary—\$6.00 each." "Unit price to be deducted for sprinkler heads that may be eliminated—\$6.00."

Item 4 of the specifications provides also that the contractor shall state in his proposal a unit price per sprinkler head for the installation of more or less sprinkler heads than shown on the drawings.

In view of the terms of the contract and that there are sufficient funds in the contract, we are of the opinion that this ordinance is unnecessary and will pay the estimate upon presentation by the Department.

Very truly yours,

JAMES F. KERR
City Controller.

Which was read, received and filed.

President and Members,
City Council,
Pittsburgh, Pa.
Gentlemen:

In re: Bill No. 1679

At the meeting of the Finance Committee held October 4, 1938, the above bill was affirmed with instructions that the Budget Controller furnish proper code account in connection with the above bill.

I have inserted Code Account No. 1058, Refunding Expense, Department of City Controller, and since there is no further use for the balance remaining in this account in the sum of \$29,311.00 for the purpose for which it was appropriated, and since the Controller is agreeable

to this transfer, the above code account to which this fund can be properly chargeable is hereby recommended.

Respectfully yours,

RICHARD NEFF,
Budget Controller.

Pittsburgh, Pa., October 17, 1938

To the Honorable
The President and
Members of Council,
City of Pittsburgh
Gentlemen:—

Pursuant to the terms and provisions of Section 13 of Act of May 31, 1911, relating to appropriations, we, the undersigned, the Mayor and Controller of the City of Pittsburgh, do hereby certify the existence of an emergency in said City arising out of the failure of the City of Pittsburgh to obtain funds for its immediate requirements to meet its maturing obligations and requiring the negotiation of an emergency loan or loans in an amount in the aggregate sum not to exceed \$750,000.00 to meet said obligations, which loan or loans unless paid within the year in which they are created, shall be included by the City Controller in his estimate of liabilities which must be met out of the receipts of the ensuing year before ordinary appropriations may be made therefrom. We request the passage of this Ordinance today.

Cornelius D. Scully,
Mayor.

James P. Kerr,
City Controller.

Which was read, received and filed.

Also

No. 1749. An Ordinance authorizing the Mayor and the City Controller to negotiate and make on behalf of the City of Pittsburgh an emergency loan in an amount not to exceed \$750,000.00, which shall be payable out of the income of the City of Pittsburgh for the year 1938, and if not so paid shall be included in the estimate of liabilities of the City to be met out of receipts for the year 1939 before ordinary appropriations may be made therefrom.

Which was read.

No. 1798.

October 24, 1938

President and Members,
City Council,
City of Pittsburgh.

In Re: Bill No. 1718.

Gentlemen:

The above bill is "An Ordinance providing for contracts for rental of construction equipment and motor trucks required for use on City improvements authorized to be done in the Department of Public Works."

This is an annual authorization for contracts for the rental of equipment and trucks used for work in connection with the W. P. A. program and this only supplements to a comparatively small degree, other trucks and equipment which is furnished by the W. P. A.

An ordinance of this type has been enacted annually since 1930 when the City first became engaged in unemployment relief activities in order that contracts may be entered into for neces-

sary equipment and trucks which may be required as a part of the City's contribution to unemployment relief projects of a construction nature.

All ordinances authorizing applications to the Federal Government for W. P. A. projects, provide that the department may "rent or purchase trucks, plant motor trucks and equipment as may be necessary for the proper performance of such work". The cost of which is made payable from funds provided or to be provided for the various projects.

Respectfully yours,

Richard Neff,

Budget Controller.

Which was read, received and filed.

Bill No. 1747.

Pittsburgh, Pa.,
October 17, 1938.

Council of the City of Pittsburgh.

Gentlemen:

Your honorable body has requested this Department to advise you as to whether it is compulsory to have printed in the Municipal Record a list of all voting precincts, showing the votes cast in every precinct, district and ward in connection with the election returns on a People's Bond Issue.

We find that for some considerable

period of time it has been the custom to print in the Municipal Record the complete election returns of a bond issue, giving detailed returns on the votes cast. We find no legal requirement for such procedure. We feel that no useful purpose is served by printing fifty-three pages of precinct tabulations.

The Act of April 20, 1874, P. L. 65, as amended by the Act of May 8, 1929, P. L. 1661, provides in Section 3 that the Clerk of the Court of Quarter Sessions shall make a return of the election, duly certified as required by law, together with a certified copy of the Ordinance and the advertisement, and that said "Clerk shall make a record of the same and furnish a certified copy thereof under seal, showing the result to the corporate authorities of such municipality, and the same shall be placed of record upon the minutes thereof."

It is our opinion, concurred in by bond counsel, that it is necessary for Council to note that they have received a certified copy of the election results in the proceedings at No.—Quarter Sessions Court, showing the result to be as follows:—. Council should then order the certified copy filed. Such procedure is adequate compliance with the requirements of the law.

Respectfully yours,

Anne X. Alpern,
First Assistant City
Solicitor.

In Finance Committee, October 18, 1938, returned to Council to become part of the record.

Which was read received and filed and ordered printed in full in the record.

MOTIONS AND RESOLUTIONS

Mr. Evans, at this time, obtained leave and presented

No. 1802. An Ordinance amending Sections 101 and 103, Department of Public Works of Ordinance No. 519, approved January 3, 1938, entitled, "An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh and the rate of compensation thereof".

Which was read and referred to the Committee on Finance.

Mr. McArdle moved

That the Department of Public Works furnish a report to Council showing the amount and nature of the uncompleted work under the Department's existing program for the development and improvement of Olympia Park, which report shall indicate the time at which said program is expected to be completed under the Department's present arrangement.

Which motion prevailed.

The Chair presented

No. 1803. Whereas, The Government of Great Britain, by a solemn declaration of policy, committed itself to the establishment of a Jewish Homeland in Palestine; and

Whereas, A mandate over Palestine was granted to Great Britain on the express condition that a Jewish Homeland would be established, and for that purpose the Government of Great Britain pledged itself to facilitate Jewish immigration into Palestine; and

Whereas, The United States assented to the British mandate over Palestine only on the covenant by Great Britain that a Jewish Homeland would be established and Jewish immigration into Palestine facilitated, as stipulated in the mandate; and

Whereas, In the American-British-Palestine-Mandate Convention by which the United States assented to the British Mandate over Palestine, it was provided:—"Nothing contained in the present convention shall be affected by any modification which may be made in the terms of the mandate, as recited above, unless such modification shall have been assented to by the United States"; and

Whereas, Relying on the declaration of the Government of Great Britain

and on the terms of the solemn covenant of that government with the Government of the United States, citizens of the United States and of other nations have emigrated to Palestine and other citizens of the United States have spent millions of dollars in Palestine for the development of its agricultural and industrial resources and for the establishment thereof a Jewish Homeland; and

Whereas, Palestine today is one of the few havens of refuge for Jews being driven from their homes in many countries; and

Whereas, In violation of the terms of its mandate, of its covenant with the United States and of its declaration to the world and despite the present desperate condition of Jews in most of Europe, the Government of Great Britain has indicated an intention to abandon its obligation by restricting immigration into Palestine; and

Whereas, Restriction of immigration into Palestine will destroy all that has been done by citizens of Pittsburgh and of the rest of the United States for the establishment of a Jewish Homeland in Palestine and will visit cruel calamity on thousands of Jews bound

by ties of blood, race and religion to citizens of Pittsburgh and of the rest of the United States; Therefore be it

Resolved, That the Council of the City of Pittsburgh memorialize His Excellency, the President of the United States, and the Secretary of State of the United States respectfully requesting that they make representations to the Government of Great Britain that the Government of the United States does not desire and will not assent to modification of the American-British-Palestine-Mandate Convention; that it confidently expects the Government of Great Britain to discharge its obligations to promote the establishment of a Jewish Homeland and to that end to facilitate rather than restrict, immigration into Palestine.

Which was read.

Mr. **Weir** moved

The adoption of the resolution.
Which motion prevailed.

Mr. **Weir** moved

That the Minutes of Council of Monday, October 17, 1938, be approved.

Which motion prevailed.

And upon motion of Mr. **Wolk**
Council adjourned.

Which motion prevailed.

And the bill was read a second time.

The Chair:

Gentlemen, Bill No. 1883 was returned to Council with an affirmative recommendation with the suggestion that before it was finally passed by Council, the Mayor would submit a definite and conclusive report from the Trustees of the University of Pittsburgh. Such a report not having been received, I would suggest that the bill be laid over.

Mr. Anderson arose and said:

Mr. President,—Perhaps the Mayor has the report ready. If the

Mayor has the information we desire and will submit it, we can pass the bill.

Mr. Evans arose and said:

Mr. President, I understand the Mayor was in conference with the officers of the University of Pittsburgh this morning. I suggest that the Mayor be invited to appear before Council and make a personal report.

At this time, Honorable Cornelius D. Scully, Mayor, appeared.

The Chair said:

Mayor Scully, when Bill No. 1883 was before the Committee on Finance last week and ordered returned to Council with an affirmative recommendation, you suggested that we withhold final action on the ordinance until we heard from the University. Are you ready to submit your report?

Mayor Scully said:

Mr. President and Members of Council:—The negotiations with the University are in this condition. The oral understanding which Council had with the University is being reduced to writing. Mr. Arensberg, representing the University, and Miss Alpern, representing the City Law Department, are preparing the written instrument.

The University has entered into agreement for the purchase of two of the properties. They have a price on the third property but, there are a number of heirs involved and final negotiations have not been consummated. It is doubtful whether they can, in the period we are limited to, get a clear title to the property. They have consummated the purchase of the other two properties at the prices agreed upon by Council. It is still by no means clear in my mind that they will have their deeds delivered within our period. Therefore, while the condemnation might be worked out with respect to two of these properties, it seems wise, in my judgment, to pass the ordinance, so that we will be sure that we will have a title to support our application.

I have come to an agreement for 450 feet in depth on Darragh street and the road around the Stadium. This amounts to 50 feet. you will remember, more than the City had contemplated acquiring. This plot goes back to Allequippa street. There is plenty of room on which to build the hospital, placing the build-

ing on any part which may be decided, allowing for slopes, etc.

This will presumably be in writing this afternoon and will become a formal agreement probably this week. I don't know whether you agree with this or not.

The Chair:

Mr. Mayor, This will require legislation—to authorize the agreement.

Mayor Scully:

I believe you already empowered the Mayor and the Director of the Department of Public Health to enter into this agreement. You want a formal understanding. We will have it available this week. If you think it wise to condemn land belonging to the University they will not object to that proceeding.

Mr. Anderson:

Do I understand the Mayor's position now is that he wants the ordinance passed today; will it cause any delay if it is not passed today?

Mayor Scully:

The safer thing to do is to pass the ordinance. If there is any delay in the execution of the deeds, the City will be safeguarded.

Mr. McArdle:

Mr. President, this does not hinge upon the condemnation of the property. It hinges upon the matter of the University being bound by an agreement to furnish us certain property regardless of how they acquire it. In order to help them get it, the question of condemnation enters into it, and this is a step in advance. The question arises here if, whether this condemnation legislation were passed in advance of that agreement, we would have any binding instrument from the University to go through with their part of the program. While we are not raising any doubts, we are quite clear on one point, and that is, that there can be no agreement between the City and the University respecting the acquisition of the property until legislation is passed authorizing such an agreement.

Mayor Scully:

It is quite obvious that we have

nothing binding on the University until the agreement has been signed by the University and ourselves. However, the City will have taken no irrevocable steps by passing the ordinance.

Mr. McArdle:

I agree with that.

Mayor Scully:

We can discontinue our proceeding.

Mr. McArdle:

Not discontinuing it, but taking a week before you actually execute it and taking the steps to institute condemnation proceedings, and in the meantime the papers may be in form.

Mayor Scully:

Everything will be in form to submit to Council this week.

Mr. Wolk:

Will there be any harm to delay this until next Monday and in the meantime get the agreement and submit it to Council?

Mayor Scully:

I offer this suggestion, working out in your own mind, that before the City can have its agreement with the Public Works Administration approved, it must have title to the site on which it proposes to locate its hospital. We have approximately until the 29th or thereabouts as the last day before which we must begin to advertise for a contract for excavation, etc. Therefore, since we must begin work on or before the first day of January, we have until January 1st—40 days—within which to acquire title to the property and start our advertising and get the contract awarded. We are working on a very narrow margin. If you are asking me, I think it would be much more intelligent to take this step, which is not an irrevocable step, because the Law Department has the condemnation papers ready, I am informed, and I think you can go ahead.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

Mr. Evans also presented
No. 1986.

November 23, 1938.

President and Members,
City Council,
City of Pittsburgh.
Gentlemen:

In Re: Bill No. 1925.

The above bill is "A Resolution transferring the sum of \$4761.00 from Code Account 1239 to Code Accounts 1229, 1231 and 1237 in the Department of Public Health" and referred to this office for report.

The transfer of \$3000.00 recommended in the above bill is for the purchase of coal and food-stuffs for the Tuberculosis Hospital, since the funds remaining in that Supply Account is estimated insufficient for the balance of this year.

After checking the requirements for the department for the balance of the year, the chief clerk has agreed that \$2000.00 will be sufficient, and I, therefore, recommend that the bill before Council be amended to read:

"Code Account 1231, Supplies, \$2000.00".

That the total transfer be amended to read \$3761.00.

Respectfully yours,

Richard Neff,

Budget Controller.

Which was read, received and filed.

Mr. McArdle moved

To amend the resolution by striking out after the words "1231, Supplies, Tuberculosis Hospital" the amount "\$3000.00", and by inserting in lieu thereof the amount "\$2000.00", and by changing the amount in two places "\$4761.00" and by inserting in lieu thereof the amount "\$3761.00".

Which motion prevailed.

And the resolution, as read a second time and amended, was laid over for reprinting.

Also

Bill No. 1813. An Ordinance entitled, "An Ordinance authorizing and directing an increase of the indebtedness

of the City of Pittsburgh in the sum of Seven Hundred Thousand (\$700,000.00) Dollars, and providing for the issue and sale of bonds of said City in said amount to provide funds for the following purposes, viz: Providing food, clothing, fuel, shelter, shoes, shoe repairs, light, oil, oil lamps, electricity, heat, drugs, compounding of prescriptions, eye glasses, cod liver oil, orthopedic appliances, hospitalization for acute illness, carfare to provide transportation for ambulatory cases attending clinics, stoves, stove parts, mattresses, household furniture, repairs to houses, dentures, repairs to dentures, burials, and otherwise assisting residents if the City of Pittsburgh who are without adequate means of support, and providing for the redemption of said bonds and the payment of interest thereon".

In Finance Committee, November 15, 1938, bill amended in Sections 1, 2 and 6 by striking out and by inserting as shown in red, and in the title by striking out the amount "\$700,000.00" and by inserting in lieu thereof the amount "\$300,000.00".

In Council, November 21, 1938, bill read and recommitted to the Committee on Finance.

In Finance Committee, November 22, 1938, ordered returned to Council with an affirmative recommendation.

Which was read.

The Chair stated

That an ordinance had been presented at this meeting authorizing the issue of \$300,000.00 short-term notes instead of bonds and that this ordinance would be unnecessary.

Mr. McArdle moved

That the bill lay on the table.
Which motion prevailed.

Also

Bill No. 1916. An Ordinance entitled, "An Ordinance appropriating the sum of Six thousand (\$6,000.00) Dollars from Bond Fund 129, certain sums amounting in the aggregate to Seventeen thousand (\$17,000.00) Dollars, from Bond Fund 131, and certain sums amounting in the aggregate to Seven thousand (\$7,000.00) Dollars from Bond Fund 132, a total sum of Thirty thousand (\$30,000.00) Dollars for the payment of the City's share of the cost of Unemployment Relief Projects, to be carried out by the Department of Pub-

lic Works in conjunction with the Federal Works Progress Administration".
Which was read.

Mr. Evans moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Evans also presented
No. 1987.

November 23, 1938.
President and Members,
City Council,
City of Pittsburgh.
Gentlemen:

In re: Bill No. 1916

The above bill is "An Ordinance appropriating \$30,000.00 from various bond funds for unemployment relief projects in conjunction with W. P. A.," and referred to this office for report as to the need for the \$10,000.00 request for the Bureau of Parks.

The sum of \$10,000.00 requested by this ordinance for the Bureau of Parks which is part of a total appropriation of \$30,000.00, is hereby requested to provide additional funds in order to keep the existing W. P. A., park projects operating until the balance of this year.

The park projects include the following:

Repairs to Phipps Conservatory.

Repairs to roads and construction of new sewers in Highland Park.

REPORTS OF COMMITTEES

Mr. Evans (for Mr. Demmler) presented

No. 1994. Report of the Com-

mittee on Finance for November 29, 1938, transmitting sundry ordinances to Council.

Which was read, received and filed.

Mr. Evans moved

In order that the Committee reports may be considered at this meeting, that Rule 8 be suspended, providing for the mailing of printed copies of all ordinances and resolutions to each member of Council at least forty-eight hours previous to the final consideration of such papers by Council.

Which motion prevailed.

Mr. Evans also presented with an affirmative recommendation.

Bill No. 1957. An Ordinance entitled, "An Ordinance providing for a contract or contracts to be carried out as a Federal Emergency Administration of Public Works project for excavation and piling work for the Municipal Incineration Plant on City-owned property at 29th Street and the Allegheny River, and providing for the payment of the cost thereof".

Which was read.

Mr. Evans moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Evans also presented.

No. 1995.

Pittsburgh, Pa.,

November 30, 1938.

Subject: Municipal Incineration Plant
Estimates of Cost

President and members of Council,
City of Pittsburgh.

Gentlemen:

In connection with Bill No. 1957, an Ordinance providing for a con-

tract or contracts for excavation and piling for the Municipal Incineration Plant to be constructed on City owned property at 29th Street and the Allegheny River, which was affirmed at Committee meeting held November 29th, 1938, this Department estimates that the whole cost for acquisition of land and for construction and equipment of said Municipal Incineration Plant will not exceed the sum of \$980,000.00.

This sum includes acquisition of land for a roadway and sidewalk leading from the northerly end of the property to 30th Street; the construction of a garage for housing collection and disposal equipment and engineering and other necessary expenses. The sum of \$200,000.00 included in the above amount is for the construction of the garage, which, of course, will have to be submitted for appropriate action by your honorable body before any commitments will be made in connection therewith. However, it can be here stated that the construction of such garage for the housing of the rolling stock adjacent to the Incineration Plant will be advantageous to the City, regardless of the method by which collections are to be made; that is by contract or by City operation, and this applies also to the rolling stock for disposal of ash from the Incineration Plant.

The construction of the garage will be made the subject of a report that will be submitted for your consideration in the near future.

Yours very truly,

F. M. Roessing,
Director.

December 5, 1938

President and Members of City Council Gentlemen:

I hereby submit budget estimates and recommendations for 1939.

Every budget, whether that of a municipality or that of a private corporation, is of necessity a study in probabilities.

The budget which this letter presents to your honorable body is no exception. Important factors are at the present time undetermined and undeterminable.

One of these factors is the extent of cash deficit to be incurred in 1938. Another is the degree to which 1939 revenues will coincide with estimates. There are others which will be discussed later in this message.

As to the extent of the cash deficit for 1938, it depends *first* on revenues chiefly tax collections, received in the remaining weeks of this year, and *second*, on the amount of unexpended balances remaining in the various code accounts in the 1938 budget.

In estimating the deficit to be incurred, we are unable to determine or state whether 1938 experience will follow 1937 experience or not. Your body will remember that last year, in the face of predictions that we would encounter a cash deficit of \$825,000, we actually ended the year with a cash surplus of \$1,555,888.

No one expects that we may do as well again.

There is reason to believe, however.

that the cash deficit for 1938 will not exceed \$1,000,000, which figure allows for the payment of the \$750,000 note heretofore issued to meet cash requirements.

This message is written on the basis of a treasury statement prepared to show city income as of the close of business November 30. We have, as of that date, collected approximately 84 per cent of the 1938 tax levy and apparently will exceed the budget estimate. Current meter and flat water receipts are substantially in accordance with estimates as are miscellaneous receipts, providing certain payments due from the Commonwealth are made before December 31.

Thus it is evident that the revenues actually accruing within the current year, 1938, have approached expectations.

The drop in receipts this year has come in the failure of returns from that reservoir of delinquency which has heretofore been accumulated and which it has been our practice to apply to current annual income.

The payment of prior year delinquent taxes was estimated for 1938 budgetary purposes at \$3,997,003, which was more than \$100,000 less than the amount actually collected in 1937.

As of the close of November 30, we had received from this source \$1,656,569. With the application of the abatement act, passed late in the year at the special session of the Legislature, collections of delinquent taxes may be expected to increase in December but it is evident that the major portion of the 1938 deficit will be attributable to our failure to collect delinquent taxes in 1938 in the same amount that we did in 1937.

I call to your mind a paragraph from my budget letter of last year. At that time, I said:

"For some years past it has been the practice to rely upon collection of the reserve of delinquent taxes to make up the difference between the amount appropriated by council and the operating revenue applicable to that particular year—a practice perfectly sound as long as the reserve of delinquent taxes presents readily realizable cash, but which practice cannot be counted upon to meet discrepancies between income

and appropriation when we have reached that portion of the delinquent tax reserve which is not readily collectible."

I am of the opinion that today we are approaching that position. We have been living on our fat. We are in the process of rendering out the lard and soon we shall have nothing left save the "cracklin's."

And on "cracklin's," the great city of Pittsburgh, with its manifold and mandatory services, cannot operate.

As previously stated, the estimation of this year's deficit depends upon an approximation of revenues to be collected from November 30 to the close of the year and upon an approximation of unexpended balances in the various code accounts.

As of November 30, the city had collected \$21,137,792.92. We began the year with a cash surplus of \$1,555,888. The appropriation for the year was \$25,125,036. If we add the first two figures and subtract their sum from the third, we see that the city would have a deficit of \$2,429,356 should we receive not one single cent in the remainder of this year.

It is a fair assumption, however, that in the remaining days of December, we will receive additional revenues of \$1,500,000. Judging by past experience, the full effect of the recently enacted abatement act will not be really felt until the last day of December. From past experience likewise, we may also expect that at least \$250,000 will be found unexpended in the various departments at the close of the year.

These two items should then reduce the probable deficit to \$679,356. Let me emphasize again that this figure is the result of the weighing of probabilities and by no means guaranteed against either favorable or adverse error. It must do, however, for the purposes of this discussion.

The 1938 deficit and its causes cannot be divorced from the budget of 1939. The relationship will be further discussed in this message.

1939 EXPENDITURES

The departmental estimates for the coming year are transmitted with this message. They total \$24,835,997.86.

This operating figure represents a decrease of \$287,038.14 from the appropri-

ations of 1938 despite a sizable increase in fixed charges. This reduction may be further increased in moderate amount through the reduction of certain departmental estimates which were not effected previously to the printing of the budget.

For the purpose of this operating budget for 1939, I do not consider the redemption of the short term \$750,000 current expense note of 1938. That item properly belongs in the discussion of the 1938 deficit.

The budget recommends very few salary increases. It is planned to maintain and to increase vital services which I am confident the people of this city wish maintained and improved.

There has been an earnest effort to make sure that any services which can be shifted to other agencies of government than the city or to private philanthropy are so shifted.

Increases in the following departments are either non-existent or so slight as not to necessitate detailed discussion: Police Magistrates, Traffic Court, Morals Court, Treasurer, Collector of Delinquent Taxes, Assessors, Civil Service Commission, Board of Adjustment, and the Board of Water Assessors.

Reduction in appropriations are requested in the budgets of the following departments:

CITY CLERK: The reduction here is due to the elimination of the \$40,000 loan made to the Pittsburgh Housing Authority last year. If I may be permitted to intrude into council's own department, I wish to call to your attention that an \$8,000 saving may be cut from the estimate of \$20,000 made for newspaper advertising for 1939.

The 1937 legislature made it possible for us to advertise ordinances by title only. As a result, only \$5,338.19 was spent in the first six months of 1938. From this it would appear that the item may be reduced from \$20,000 to \$12,000 in safety.

CITY CONTROLLER: The reduction in this appropriation is due to the elimination of \$125,000 item set up last year for re-funding expenses.

CARNEGIE LIBRARY—NORTH SIDE AND WOODS RUN: The reduction in this estimate is due to the transfer of those functions relating to the care of the

buildings to the Department of Lands and Buildings.

PENNSYLVANIA ASSOCIATION FOR THE BLIND: A reduction in appropriation of \$10,000 is recommended. I have the deepest sympathy for the afflicted persons whom this institution aids and the highest respect for the management and the operation of the institution, but I do not consider it to be a proper city function. The relief of the blind is properly the duty of Federal and State social security programs, and if these programs are to be supplemented, it is the duty of the Community Fund or some similar private charity. The 20 per cent cut recommended this year is a preliminary step toward the elimination of this annual appropriation.

SOHO BATHS AND NURSERY: A cut in the appropriation for this institution is recommended with the same basis as that set forth immediately above. I believe in day nurseries and a case might well be made for the general provision by municipal appropriation. But until we are prepared to do so in our general program, I believe this should be a matter of private charity.

DEPARTMENT OF WELFARE: The department of welfare budget as presented contemplates a reduction of more than \$230,000. This is predicated, of course upon the assumption that the treatment of mental patients at Mayview Home and Hospital will be assumed by the state in accordance with law.

We trust that the incoming state administration will look upon this statute as a brand to be saved from the burning and will deal with the city administration in a fair and non-partisan spirit.

The departmental estimates are based upon the transfer of the mental department at Mayview on the last day allowed by law, May 31. If the transfer can be arranged before that time, it will mean a corresponding saving will be made.

The whole Mayview situation is dependent upon the attitude of the incoming State administration.

The following appropriations are eliminated in these recommendations:

LAWRENCEVILLE NEIGHBORHOOD HOUSE: The annual bequest of \$13,000 to this institution is not recommended in the absence of information leading us to

believe that it is a proper municipal activity and serves a general community purpose.

WOODS RUN SETTLEMENT: The annual \$1,000 grant to this institution is not recommended.

TRI-STATE AUTHORITY: This agency has done a very real service to the community in its campaign for flood control. Today, however, in view of the assumption of the entire burden of flood control by the Federal government, and the actual construction program started on flood dams, it may be fairly assumed that success has been achieved in this endeavor. I have asked officials of the Authority whether they do not consider that their purpose has been fulfilled but they state that this year's appropriation is needed, but probably should be the last. Council should give their contention full consideration.

ART COMMISSIONS: No appropriation is recommended for this commission in 1939. It is proposed to handle the work of the commission in conjunction with the office of the mayor.

NATIONAL GUARD: The printed estimates contain requests for appropriations of \$13,000 to various units of the National Guard. Might I request your body to look carefully into the basis of these appropriations, which seem to me to be far out of the field of city activity? The maintenance of the armed forces is properly the responsibility of the Federal and State governments, not of the municipality.

This department is newly created and with this budget begins its first full fiscal year:

LANDS AND BUILDINGS: The budget of this year includes the original functions voted to it (the former bureau of city property of the works department and the maintenance of safety buildings) and three additional functions: the maintenance of the North Side and Woods Run library buildings; the general operation of the city stables; and the maintenance of the Crawford and Sue Murray bath houses together with certain plumbing work presently done through the bureau of recreation. We have asked the department of lands and buildings to present to council, at council's pleasure, such detailed information as will show the saving to the city since its creation and operation.

The following departments show important increases:

SAFETY: The increase asked in the department of public safety is a little more than \$14,000. The department budget as submitted to you, provides for the employment of 75 additional policemen and the equivalent of 25 more additional policemen; the employment of 30 additional firemen; the employment of more repairmen at the safety garage and hence the better upkeep of motorized equipment; and the physical examination, by physicians not in the employ of the city, of the entire personnel of the police force.

There is a genuine need and a genuine popular demand for more policemen particularly for assignment in the residential areas. I believe this demand should be met and this budget so recommends.

There is a genuine administrative need to see that no policemen are diverted from police duties and assigned to work which clerically or otherwise trained persons could do more efficiently and at a lesser salary cost to the City.

We currently have seven police officers assigned to duty as magistrates' clerks. As seven year police, these men receive \$192.50 per month. This budget recommends that these men be returned to active police duty and that trained stenographers at a salary of \$150 replace them. These new magistrates' clerks could also replace other policemen currently employed in the records division of the police bureau, since the recording of magistrates' hearings would not require a full day. The same principle is applied in the case of the police property custodian and at even a greater saving, in the provision for three special traffic court summons officers. Adoption of these recommendations will be the equivalent of at least 11 additional police.

The budget also calls for the elimination of the rank of precinct detective and the restoration of these 15 men to district police duty. I am informed by the superintendent of police that this rank was originally created with the intention of providing each ward chairman of the party then in power with his private police officer and racket controller; with the change in party control in Pittsburgh government, it has outlived its usefulness. The city will

gain 15 additional patrolmen at no additional cost through this transfer of personnel.

I have said that there is a need and a demand for more police. There is also a need and a demand for better police. One way to increase a police force 100 per cent is to make each man 100 per cent more efficient. In order to make sure that the taxpayers of Pittsburgh are not paying top police salaries to men physically unfit to serve them properly, there should be a complete physical overhauling of the entire police force. In order to make sure that no accusations of political or departmental manipulation of the examinations can be made, I think it advisable that the examinations should be made by trained life insurance physicians not in the employ of the city. The budget asks \$25,000 for this purpose and I believe it will be money well spent.

The provision for 30 additional firemen is a reduction of 100 from the departmental request which was for 130 additional men. It is my opinion that they are very definitely needed, especially since the city resumed the practice, bound upon it by statute, of providing full pass days and vacations in this bureau.

These budget estimates make only a nominal allowance for the purchase of new fire equipment. I am of the opinion that we should, in this coming year, modernize a considerable portion of our fire-fighting equipment through a bond-financed purchase, and then in succeeding years, keep the equipment up-to-date on a pay-as-you-go basis. A separate communication will follow shortly to your body outlining this proposition in detail.

SUPPLIES: The increase requested in the supplies department totals \$15,209. Of this more than \$10,000 is accounted for in positions created by ordinance of council in 1938. The supplies department's duties are considerably increased by the purchase of materials used for WPA projects. It is important for the proper functioning of city business that supplies orders be filled with all celerity and promptness consonant with legality.

PUBLIC HEALTH: The net increase in this department is not large. That part of it which is traceable to salary increases may be eliminated by your

body. I call your attention to the fact that the budget includes provision for 11 assistants to nurses in the bureau of child welfare. This item is carried solely because your body restored them to the budget for 1938. The department is still of the opinion that the city would be better served and a considerable sum of money saved if these untrained workers were replaced with a much smaller number of trained field nurses, either at once or as vacancies occur.

CARNEGIE LIBRARY OF PITTSBURGH: The increase in this department is chiefly set up to provide salary increases for the present members of the library staff making less than \$2,200 annually. These college trained workers, whose basic wage is very low, did not receive benefits from the restoration of wage cuts to city employes, initiated by council in 1937 at a cost of \$1,250,000 annually to the city. I am of the opinion that, with all due regard for the financial situation of the city, these wages are decidedly sub-standard and should be raised. A small portion of the increase requested is set up to stock a municipal reference library which the library management proposes to operate in the City-County building.

PLANNING COMMISSIONS: The increase requested here is large in comparison to the total budget of the department but relatively small in comparison with the expenditures of the city as a whole. I believe that an efficient planning commission is the finest asset a city can have and that it is false economy in any way to hamper the activities of the city planners. This is one department where we should demand, receive, and pay for perfection. Bad planning is unbelievably costly.

LAW: The increase in this department is occasioned by the addition of the \$15,000 sum set up by council for the city's legal protection in the reorganization proceedings of the Pittsburgh Railways Company and by an increase in the amounts needed for court proceedings. It has been the custom to appropriate a sum for the later purpose each year with foreknowledge that it would be insufficient and to make it up through a deficit appropriation late in the year. I believe this practice should be abandoned.

MAYOR'S OFFICE: The increase in this

office is occasioned by the need for additional equipment and supplies; salary increases of \$900 and \$200 asked for two assistant secretaries; and a new publications account. The secretary receiving the \$900 increase will assume without pay the position of secretary to the art commission, all appropriations for which this budget recommends be terminated. This will effect a saving of \$1,390.

The new "publications" account is set up to underwrite, in conjunction with other agencies the publication of *The Pittsburgh Guide*, written by the WPA Writers Project. This is a work of great accuracy and interest, whose publication and distribution throughout the country should do much to help this city and to make it more attractive to visitors. The sum will also provide for the printing of an annual report of the departments of the city, a municipal function which has long been neglected, and which is owed to interested citizens.

DEPARTMENT OF PUBLIC WORKS: The Department of Public Works represents the principal increase in these budget estimates. The increase will be found to be chiefly taken up in two bureaus, those of Highways and Sewers and Parks.

The amount estimated for the collection and disposal of garbage is substantially that estimated last year, despite the fact that a deficit has in two successive years been encountered in this fund. This figure is arbitrary because of the uncertainty as to when the municipal incinerator will come into operation.

The engineers in charge of this work estimate that the project will be finished in August of 1939; allowing for optimism on their part, we may judge that it will be finished in October. Our disposal plans then will be radically altered, with an expected saving to the city.

You will note that the budget estimates call for an increase in the inspection force and a change in its supervision. We believe that the additional expenditure here called for will pay dividends. Aggressive inspection will certainly cut the city's garbage disposal bills. No provision is herein made for the expected change-over to municipal garbage collection.

Council will remember that the city must plan ahead for this function and the consequent investment in equipment.

The plan for use of a 600 ton capacity incinerator makes segregation of non-combustibles absolutely necessary and this requires consideration of the question of municipal ash collection. These questions have been raised with your body by Director Roessing and you are already familiar with them.

The budget recommends the elimination of the Bureau of Deeds Registry which duplicates a county function. To eliminate this duplication and in the interests of the taxpayers of both city and county, I believe that a consultation should be had by both governmental agencies as to the proper maintenance of this service.

The increase in the Bureau of Engineering is small in view of the very great demands made upon this bureau by the city works program, the county-aid projects, the state-aided Bigelow boulevard program, the Federal Housing Program and so on. The estimates have been sharply decreased by a general shift of such work as bridge painting, street sign repair, fence construction and other light construction work to the Works Progress Administration.

This same policy has been applied to the Highways and Sewers Bureau in such branches of its activities as boardwalks and steps and cement walks.

However, Highways and Sewers estimates as presented to the Mayor called for substantial increases in labor time and materials. These have been increased in this budget to the provision of 260 days' labor time per year per man from the present 240. This increase should mean that Pittsburgh will have cleaner and smoother streets next year. The splendid work accomplished in 1938 by the asphalt plant division is evident to every observer of Pittsburgh streets. A 10 per cent increase in labor time and an equivalent increase in materials has been allowed this division.

Through the application of increased efficiency methods in the Bureau of Highways and Sewers, together with the increase in labor time, Pittsburgh in 1939 will be able to show its citizens streets that will be at least 25 per cent cleaner and better repaired.

The increase in the Bureau of Water

is chiefly caused by wage increases granted in 1938.

I call your attention to the estimates of the Bureau of Parks. Pittsburgh is acquiring very real assets through the improvements made in its parks by the Works Progress Administration. Any doubters should inspect the reconstruction at the conservatory in Schenley Park. No large city should allow its parks to fall below the standards this nation has come to accept and we should furnish to this bureau the funds needful for their proper maintenance and improvement.

The Bureau of Recreation budget is smaller than that provided in 1938. This is an apparent decrease rather than a real cut, however, because of the transfer to the Department of Lands and Buildings of approximately \$25,000. The net increase is thus \$23,000, a not exorbitant amount.

What I have said for parks applies to recreation. With the completion of our bond issue program, Pittsburgh's municipal recreational facilities will at last begin to assume their proper place in the life of this community.

The present budget estimates present a plan for the reorganization of the bureau's personnel which will greatly increase the efficiency of the bureau and increase the usefulness of the facilities which we provide. This plan was perfected after investigation and consultation with the recreational committee of the Council of Organizations, the City Planning Commission and the present superintendent of the bureau.

Its principal purpose is to make sure that the children and adults of this community actually secure the maximum of service at the minimum of cost from the city's recreation bureau. I hope that your honorable body will, after due consideration, see its way clear toward the adoption of this plan.

You will note that I have included in this budget recommendations for an appropriation of \$10,000 to the Commission for Industrial Expansion, and \$5,000 to the Convention and Tourist Bureau as was done last year. The activities of both of these bodies and their value to the City, have, I am sure, justified these appropriations.

However in this connection there is a matter which I would like to sub-

mit to you. There is extant among the ordinances, one creating a Pittsburgh Development Commission.

I would like to submit to you the wisdom of reconstituting that commission with an unpaid secretary and appoint to it representatives of the City, and these two other bodies. The combined appropriations now made to the Commission for Industrial Expansion and to the Pittsburgh Convention and Tourist Bureau, would then be made to this newly constituted municipal commission which would bring these appropriations more clearly and distinctly within the purview of city functioning.

For many years the City and County made an appropriation to the Carnegie Museum and I have been requested by the trustees of the Carnegie Museum to ask the City to make an appropriation of \$15,000 to further the activities of the Museum. I am submitting herewith, in support of their request, a letter of Director Avinoff showing the value of the same to the community as indicated by the attendance chart, and an accompanying statement of municipal support of public museums.

I am of the opinion that if a way can be found to do this, the support should be tendered.

1939 INCOME

In the days precedent to the French Revolution, a dying king of France who had in his lifetime chosen the easiest way out of his country's financial difficulties said:

"After me, the deluge."

This administration could, if it so wished assume that attitude and coast on annual deficits for the next three years. That would be easy on the mayor and easy on the council, but it would be hard on Pittsburgh. Those taxpayers who would be quickest to protest new levies would in the end suffer most from such a policy. And it would ill become those who are loudest in their praise for balanced budgets on a national scale to protest the balancing of the budget of their local government.

For my part, I do not propose that my administration of this city will be a deficit-piling administration. I do propose that this administration shall set Pittsburgh upon the first steps of a pay-as-you-go fiscal policy.

The first section of this budget message made it clear that Pittsburgh this year will encounter a cash deficit of undetermined size; that Pittsburgh has been living on an asset comprised of a reservoir of tax delinquency which cannot last forever; and that because of the shrinkage of this reservoir, even a cash surplus from 1937 of \$1,555,888, has apparently proved unable to tide us over 1938 without a deficit.

The second section of this budget message dealt with anticipated expenditures in 1939. It set them at a figure considerably lower than 1938. Let us refresh our minds as to the purposes of those expenditures.

There is, first of all, a fixed item of \$6,859,417.30 for interest, sinking fund, and state loan tax. This is irreducible and not susceptible to decrease except through default of city obligations. I am sure that no one wishes the city to default and to thus destroy its credit standing. It is 28 per cent of the total anticipated expenditure for 1939.

There is an item of \$207,594.50 for the operation of Leech Farm tuberculosis hospital, and an item of \$112,524.00 for the operation of the municipal hospital for contagious diseases. I consider, and so will every person, these hospitals just as much fixed charges as our financial obligations. The operation of the Mayview Home and Hospital falls in the same category. It is set up at \$890,762.00, and I invite any taxpayer who doubts that the institution is being operated economically and frugally to inspect it at any time.

The bureau of police appropriation is \$2,703,449.00. The bureau of fire appropriation is \$2,076,489.48. There is a public demand for the strengthening of these services through the provision of additional man power and through the general increase of efficiency. This budget message has previously pointed out the means for securing these aims.

The city must see that garbage and rubbish are collected and disposed of. This costs \$1,130,000 in 1939's budget. The city must keep its streets clean and repaired. This costs \$1,134,294.74. The city must supply water to its citizens. This will cost \$1,336,096.88, not including the upwards of \$500,000 we must pay the South Pittsburgh Water Company for the services it provides

in the South Hills Section. Pension fund payments and workmen's compensation are fixed by statute. These items total \$1,289,660 in the estimates.

All of these services are irreducibly a municipal function. If we should cripple any one of them, we would cease to be a functioning municipality.

And, together with the fixed debt charges, they make up 73.3 per cent of the 1939 budget estimates.

The only real dent one could propose in any item of this bracket is a cut in the wages of policemen, firemen, or day laborers. The people of this city have several times shown by referendum that this is not the way in which they want their municipal finance problems solved.

We have thus 73.3 per cent of the city's expenditures fixed and unchangeable for all practical purposes. What comprises the remainder of the city's budget? Parks and recreation, for one thing; street lighting at rates fixed by Public Utilities Commission, for another. The assessment of properties, the collection of taxes, the audit of the city's finances, all of which are the necessary overhead of government. There are also the engineering expenses incurred in the works department; the expenses of city planning and zoning; the operation of the civil service system; the maintenance of the city's physical properties and plant; the expenses of the fire alarm system, the traffic planning system, and enforcement of the laws relative to building construction.

As to the maintenance of the city's physical properties and plant, may I point out that this administration inherited a faulty and, in part, a non-existent bookkeeping system for this municipality. This condition we expect to remedy, but as an illustration, setting an arbitrary value of \$20,000,000.00 upon the city's physical properties, a normal maintenance and depreciation charge of 2 per cent would amount to \$400,000 a year.

Further than that, there is the protection of the health of Pittsburgh through the inspection of foods and the enforcement of sanitary codes; the enforcement of contagious disease quarantines and the prevention of such diseases as diphtheria and the alleviation of such diseases as pneumonia.

The upkeep of our great library system, a keystone of popular education and hence popular government, is likewise included.

All these services and many more must be provided from that 26.7 per cent of revenues which is left when the fixed and semi-fixed charges upon this municipality are abstracted.

Can we afford to do without these things? I do not think so.

In the final analysis, a city is a group of people come together in a restricted area for the purpose of trade and residence. If the particular area selected does not provide advantages of trade and residence, the city does not grow and the lands in and about it remain valued not as residence land, but farm land or waste land.

Pittsburgh, and real property in Pittsburgh, has value only as Pittsburgh is a good place in which to work, in which to live, and in which to do business, and people, for those purposes, therein congregate.

To guarantee Pittsburgh's continued growth it must be a safe city, a healthy city, and a city whose municipal services and appearance are such that it attracts customers and permanent residents. This means, in my belief, that drastic cuts in municipal services in Pittsburgh will be reflected in drastic cuts in values and rentals in Pittsburgh.

I believe that the good health of this city is a municipal asset; I believe that parks and playgrounds in Pittsburgh are a municipal asset; I believe that safe streets and quick flow of traffic in Pittsburgh are municipal assets. I believe that any move to handicap these achievements is a move toward municipal self-destruction.

By the same token, I am convinced that the people of Pittsburgh deserve full service from their government in return for the revenues they supply to it. We have cooperated with the Pennsylvania Economy League in the past and we intend to cooperate just as fully in the future in a joint effort to make every dollar paid in taxes come back to the citizens of Pittsburgh as a full dollar's worth of service. The Economy League is now working with us through the Council of Organizations and we will have the benefit of its advice throughout the coming year.

With these considerations in mind,

I do not see how we may continue a deficit-breeding policy, or how we may cut in great amounts the services we now provide.

The budget estimates which I submit are, in a substantial amount, less than last year's appropriation. Council may possibly, in its extended hearings, find other places where some cuts may be made without detriment to service.

But I am convinced that the budget estimates are basically sound and financially inescapable, and that we must meet the problem with which we are confronted.

We must find additional revenues in 1939 to take the place of the reservoir of tax delinquency upon which we have been drawing.

To show the comparative taxes paid by small homeowners in Pittsburgh as compared to the taxes paid in other large municipalities, I include the following table, supplied me by Mr. J. C. Slippy, and verified by him and by my staff in the reports of the Detroit Municipal Research Bureau.

These are of interest, I believe, because they show that the tax rate on a small home in Pittsburgh is a great deal less than it is in most cities of our population range.

I call to your attention, also, these

facts, which are available to anyone interested in this city's finances.

City taxes in 1930 were levied on the basis of 26.00 mills on lands and 13.0 on buildings. In 1933 they were cut to 20.6 on lands and 10.3 on buildings. Since 1933, our assessment rolls have been reduced more than \$100,000,000. Our levy, at the rate of 20.6 and 10.3 has declined from \$18,519,800 in 1933 to \$17,011,200 in 1938. This reduction has produced an unseen tax cut of more than two mills.

In view of the circumstances confronting the city and as the only way open to sound municipal finance at this time, I respectfully recommend to your body that the millage for 1939 be set at the rate of 22.6 on land and 11.3 on buildings.

I further recommend that the rates of assessment of flat water sales be increased at the rate of 50 per cent. I believe this step will yield revenue which the city needs and to which it is entitled. It will speed the adoption of metered sales throughout the city, as well.

I wish to point out that a survey conducted by the board of water assessors shows that this increase is not, as is often alleged, an especially heavy addition to the burdens of the small home owner.

Numerous downtown buildings are on a flat rate, for example. A survey of four sample Pittsburgh residential wards showed that in approximately two-thirds of buildings supplied by flat water service, the burden of an increase would not fall on the small individual home owners.

The estimated revenues presented for 1939 are as follows. They are adjusted to actual 1938 experience.

Tax levy on land and buildings of 22.6 and 11.3 90 per cent col.	\$16,739,820
Prior Year Delinquent Taxes on lands and buildings ..	2,250,000
Sale of Metered Water, current	2,058,476
Sale of Metered Water, current delinquent	158,640
Sale of Flat Water, current..	1,060,000
Meter Water, Prior Delinquent	300,000
Flat Water, Prior Delinquent	200,000
Penalties and Interest	300,000

Miscellaneous Revenues . . . 2,200,000

Total 1939 Revenues . . . \$25,266,936

On the basis of this estimate of income, and of the foregoing estimate of expenditures, current revenues in 1939 will exceed current expenditures in that year by the amount of \$430,938 plus any unexpended amount in the 1939 appropriations.

Should this year's deficit fall in the range which we expect, not less than \$500,000 and not more than \$1,000,000, in 1939 revenues would suffice to pay off its major portion. If the deficit should be the amount of the \$750,000 current expense note, that obligation would be very nearly covered in the 1939 surplus. Let me point out again that although this point is carried in the printed estimates, I have not considered it for operating budget purposes in 1939.

I believe that we have a fair basis for estimating collections for 1939 at 90 per cent of levy since the percentage of collections has been increasing steadily over a considerable period of years.

Delinquent taxes are set at a figure more than \$800,000 below that estimated for 1938 and I believe this estimate to be a conservative figure. It is hoped that the collection of delinquent taxes may be speeded in 1939 in cooperation with the county and the school board and it is believed that the card index system perfected by the WPA under the direction of C. C. Stotler will be of material assistance.

Other revenues are estimated on a more conservative basis, either identical with this year or less than the estimates of this year.

I am of the opinion that council in its consideration of the budget for 1939 should look carefully into the matter of miscellaneous revenues, particularly the possibility of obtaining municipal revenues through the enacting of a charge upon the users of the sub-surface of our streets.

We must also look ahead to succeeding years and seek through the action of the state legislature additional sources of revenue or savings to local taxpayers. I am hopeful that it may be possible to press, through non-partisan action in the 1939 legislative session, for a bill which will give the city a fair

share of the gasoline tax, now rebated only to the county. If we obtained our share of this revenue in proportion to population, we should get an annual return from the state of more than \$425,000.

If Mayview is successfully transferred to the state, it will mean a larger saving to the city in 1940 than that expected in 1939.

I have no hopes that the 1939 session will enact legislation removing the exemption of public utility real estate from local taxation. I have very real fears that the same session will witness an attempt to shift all or part of the relief burden to the local municipalities. This we must undertake to resist with every weapon at our command.

The budget which I have presented will, I hope, maintain the enviable financial probity of this city and its reputation for sound financial practice in 1939, and prevent any deprivation of necessary services.

I have said that I hope to press forward a pay-as-you-go status for Pittsburgh.

In this, our first step is to meet current expenditures from current revenues. This budget takes that step.

Our second step is to absorb our cash deficit as quickly as possible and without the conversion of a short-term obligation into a long-term one. This budget meets that requirement in whole or in part in 1939, and, in any event, it prepares the way to meet it completely in 1940.

And if we are very fortunate and have over estimated the amount of the 1938 cash deficit, then, on the basis of this budget, we may begin to meet the third and final step of pay-as-you-go: the assumption of a responsibility to pay for long-term improvements from current revenues.

Respectfully submitted,

Cornelius D. Scully,
Mayor.

Bill No. 1940. Resolution approving and confirming the appointment by the Mayor of William Alvah Stewart as City Solicitor.

In Council, November 28, 1938, read and laid on the table for the present.

Which was read.

Mr. Wolk moved

The adoption of the resolution.

Mr. McArdle arose and said:

Mr. President:—I propose voting No on the motion to adopt the resolution before the body. I do so with more or less regret. My chief reason for doing so is my firm conviction that the City Solicitorship is an office of more than usual importance at the present time. And that it is always an office of outstanding importance in the municipal government of the City of Pittsburgh.

I refer to the present time as being of unusual importance, because I think the experience of the last few months indicates that he whosoever shall hold the office of City Solicitor from now on shall be a man not only possessed of the knowledge of the law and endowed with the virtue of honesty, both of which are not extraordinary attributes, but that he shall be possessed of more than ordinary courage, of which not too many men in any line of endeavor or any profession are endowed with.

I hold to the view that the City Solicitor, while nominated by the Mayor of the city and appointed subject to the consent and advice of the Council, as I believe the law reads, is primarily the legal advisor of the whole government of the City of Pittsburgh with the exception now of that of the Controller's office, which recently an Act of the Legislature has provided for a special solicitor for that one particular office.

Speaking of Mr. Stewart personally, on the first two counts I mentioned, I would not know of any reason why I should not support his nomination, but further what I know of his record as an Assistant City Solicitor and of the impressions that I have of him, which are not claimed to be based on any intimate acquaintance. I am not convinced that he is possessed of the necessary qualifications to administer this office in the way that I believe it is fundamentally necessary that it should be administered for the benefit of the citizens of the City of Pittsburgh.

I might be mistaken in my views of Mr. Stewart's ability to meet these qualifications, but whether I am or not. I am going to err insofar as my judgment permits me, on the side of safety; and I do not propose to support anybody who may be nominated for that

office unless I am convinced that, once named by the Mayor, he is going to measure up to what he knows, if he is a good-enough lawyer, to be his duty and he is going to do it whether it pleases the Council, the Mayor or any department head, and he is going to stand upon his professional and ethical position and do a good job for the citizens of Pittsburgh. I do not need to mention any City Solicitor, but I am basing my action today of what I know to be the conditions of that office within the past year and which were of great revelation, and having received the benefits of those revelations. I believe it is my duty, regardless of the person who may be nominated, to vote for the man who will properly safeguard the interests of the citizens of Pittsburgh, and, insofar as I am able to do so, safeguard the good name of the City of Pittsburgh.

We have not been having the kind of service in that office that is to the best interests of the taxpayers of Pittsburgh, and for that reason and the other reasons stated previously, I purpose withholding my support of this motion to adopt the resolution confirming the appointment of Mr. Stewart as City Solicitor.

Mr. Weir arose and said:

Mr. President:—My reason for seconding the motion to adopt the resolution for the confirmation of the appointment by the Mayor of Mr. Stewart, is because I investigated and as far as I was able to find out, Mr. Stewart is an able and respected lawyer practicing before the Allegheny County Bar.

He has ability and as far as courage and the other qualifications and the assurance of what the man will be, only God knows beforehand what that man will be.

The Chair said:

Are there any further remarks? If not, may I have the unanimous consent of the Council to make a few remarks?

And there being no objections, the Chair continued:—

I propose to vote No on this resolution, I did propose to make a lengthy speech giving my reasons for doing this. I have given these reasons. I think, to all the members of Council with the possible exception of one, and

His Honor, the Mayor.

I realize more day by day that no one is so deaf as he who deliberately refuses to hear.

I again see no reason for further wasting my sweetness on the desert air.

My reasons for voting No on the confirmation of Mr. Stewart have nothing to do with the professional ability or personal integrity of the gentleman, for both of which I have the highest respect.

They are deeper seated than that. I agree with Mr. McArdle, but will phrase it in a different way. I think we should insist upon a City Solicitor whom we know will be counsel for this great municipal corporation of Pittsburgh and not private counsel of any officer in it. I fear that is what Mr. Stewart will be.

As I read the statute, the Mayor is required to appoint department heads with the advice and consent of the Council. The Mayor has persisted in this nomination after he knows it is against the advice of many members of Council, if not of the majority.

Since he has seen fit to ignore the advice of Council, I shall withhold my consent and vote No. My voting No has nothing to do with any questions as to the professional ability or the personal integrity of Mr. Stewart, for both of which I have the greatest respect.

Are there any other remarks?

Mr. Wolk arose and said:

Mr. President:—I merely want to make this statement, that I agree, generally speaking, with Mr. McArdle as to the qualifications for the man to be appointed to this important office.

Human beings can err, and as Mr. McArdle says, maybe he is in error and maybe I am in error in voting for Mr. Stewart.

But as a member of Council, all I can do is use my best judgment as to whether I believe that this man will fulfill all the requirements that Mr. McArdle sets forth as necessary.

I feel, as has been stated by both Mr. McArdle and Mr. O'Toole, that the man is honest; that he is qualified to occupy that position.

I may be wrong, but I believe he will have the courage to occupy that position in the way it should be and in the way I expect it to be.

So I say, while we may disagree, it is merely a matter of opinion as to how courageously this man will occupy this office. I hope he will. At this moment I feel confident he will and I hope my confidence is correct.

And the question recurring on the adoption of the resolution, the ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Evans	Weir
Gallagher	Wolk

Noes:—Messrs.

McArdle	O'Toole (Pres't)
---------	------------------

Ayes 5. Noes 2.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

CITY OF PITTSBURGH

Office of the Mayor

February 5, 1938

President and Members of
The City Council
City of Pittsburgh

Gentlemen:

The authority to create a commission for the purpose of establishing a park at the Point as a proper historical memorial was created by Resolution No. 109, passed by your Honorable Body August 27th and given my approval September 2nd.

Since that time I have endeavored to secure the names of such persons as through their interest and their standing might serve well in this capacity.

I have construed my authority broadly to endeavor to accomplish the purpose of enlisting as large an interest in this project as possible and at the same time have endeavored to create an executive group small enough to function effectively. It is my opinion that the steps being taken by the Federal Authorities will require further cooperation between this Commission and State and National Agencies. To this end I have given a substantial representation to both city and county as agencies very vitally concerned.

The Commission as such is made up as follows:

Dr. Leland D. Baldwin, Professor of History, University of Pittsburgh.

Honorable Herman P. Eberharter, Member of Congress.

Honorable John S. Fisher, President, Pennsylvania Historical Society.

Frank C. Harper, Secretary and Treasurer, Pittsburgh Chamber of Commerce.

Honorable John S. Herron, County Commissioner.

Honorable John J. Kane, President Board of County Commissioners.

Mrs. John E. Nelson, President, Daughters of the American Revolution.

Honorable James L. O'Toole, Jr., President, City Council.

Honorable George Rankin, Jr., County Commissioner.

Frank M. Roessing, Director of Public Works.

Honorable C. D. Scully, Mayor, City of Pittsburgh.

Honorable Ralph H. Smith, Judge, Common Pleas Court.

Herbert Spencer, President, Pennsylvania College for Women.

Fred W. Weir, Member, City Council.

Mrs. William P. Witherow, President Twentieth Century Club.

I have asked Mr. Frank C. Harper to serve as acting Chairman for this Commission.

All members of the Commission will serve without compensation.

Within a few days I shall appoint approximately One Hundred (100) persons as members of an advisory group to serve with the Commission herewith appointed in the development of this project.

Sincerely yours,
CORNELIUS D. SCULLY,
Mayor.

Which was read, received and filed.

Also

No. 279. Communication from Congressman Herman P. Eberharter, inviting the Members of Council to attend a meeting on Saturday, February 12, 1938, in the Court House for the purpose of discussing with county, state and various civic representatives the question of an historical memorial at "The Point."

Which was read, received and filed.

City of Pittsburgh,
Office of the Mayor
February 8, 1938.

President and Members of
The City Council
Gentlemen:

I am returning herewith Bill No. 30, an Ordinance amending Section 2 of Ordinance No. 335, entitled, "An Ordinance regulating the use and operation of vehicles on the streets of the City of Pittsburgh, and providing penalties for the violation thereof", with my signature affixed thereto. Some objection has been raised to this Ordinance.

After giving this much serious thought, I have decided to affirm the best judgment of our Traffic Engineers and our Traffic Planning Commission.

A recent ruling by the City Solicitor prohibits our continuing this plan on an experimental basis. I am firmly convinced, however, that we must be willing to consider this Ordinance as a tentative arrangement which we shall be willing to change should further investi-

gation show that it is unwise public policy.

Sincerely yours,
Cornelius D. Scully,
Mayor

Which was read, received and filed.

The Chair at this time announced the appointment of Mr. Weir as a member of the Board of Trustees of the Carnegie Library, vice Mr. O'Toole, resigned.

President and Members of
The City Council
City-County Building
Pittsburgh, Pennsylvania.

Gentlemen:—

I am returning without my signature ordinance entitled "Bill No. 27".

The reason for my disapproval lies in the possible economies that may be effected through a closer examination of the properties involved and through a possible combination of fire fighting facilities in the district.

As soon as this survey is completed, I shall inform you through the medium of the Department of Public Safety. Meanwhile I must ask that, in the interest of possible economy and efficiency, action on this ordinance be delayed.

Very truly yours,

Cornelius D. Scully,
Mayor.

Which was read.

Also

Bill No. 27. An Ordinance entitled, "An Ordinance appropriating the sum of Eleven Thousand (\$11,000.00) Dollars, from Bond Fund 132, and One Thousand (\$1,000.00) Dollars, from Bond Fund 127, to provide funds for the cost of remodeling and reconstruction of No. 11 Engine House situate at Ninth and Bingham streets in the 17th Ward of the City of Pittsburgh".

In Council, February 7, 1938, bill read, Committee amendments agreed to, rule suspended, read a second and third times and finally passed.

Which was read.

Mr. Anderson moved

That further action upon the communication and bill be postponed for one week.

Which motion prevailed.

Which was read.

Also

Bill No. 27. An Ordinance entitled, "An Ordinance appropriating the sum of Eleven thousand (\$11,000.00) Dollars from Bond Fund 132, and One Thousand (\$1,000.00) Dollars from Bond Fund 127, to provide funds for the cost of remodeling and reconstruction of No. 11 Engine House situate at Ninth and Bingham streets, in the 17th Ward of the City of Pittsburgh".

In Council, February 21, 1938, bill returned without Mayor's approval, and further action postponed for one week.

Which was read.

Also

Bill No. 372. Communication from the Mayor returning without his approval, Bill No. 28, An Ordinance providing for a contract or contracts for remodeling and reconstruction of No. 11 Engine House.

In Council, February 21, 1938, read and further action postponed for one week.

Which was read.

Also

Bill No. 28. An Ordinance entitled, "An Ordinance providing for a contract or contracts for remodeling and reconstruction of No. 11 Engine House, situate at Ninth and Bingham streets, in the 17th Ward of the City of Pittsburgh, in an amount not exceeding Twelve thousand (\$12,000.00) Dollars, and for the payment of the cost thereof".

In Council, February 21, 1938, bill returned without Mayor's approval and further action postponed for one week.

Which was read.

Mr. McArdle arose and said:

Mr. President:—The action taken by the Council on these ordinances is in accordance with the information furnished it by the Department of Public Safety.

If sufficient study of the question has not been made, delay on the matter of providing adequate fire protection for the residents of the South Side should not be laid at the door of Council.

Any delay that is occasioned in providing housing facilities for the fire apparatus or equipment should be blamed on the department.

The only thing I ever heard was that there would be a combination of the two engine houses in a new location, thereby eliminating the two engine houses now located on the South Side. This is a long ways off, and for that reason I think this temporary investment of \$12,000.00 to repair the No. 11 House is proper; it would remedy a long-standing need there. A substantial outlay in money would have to be made for a new place, plus the abandonment of the two existing houses, and anybody having experience with the sale of city real estate knows that is is not sold within a reasonable time.

I would suggest that the Council pass these two bills vetoed by the Mayor and if it should be determined later to go through with the consolidation of the two houses at a time when circumstances warranted it, we can repeal these ordinances. It will take some time to prepare the necessary plans and advertise for bids and award a contract for the repair of No. 11 Engine House, and in the meantime the Mayor and the Director of the Department of Public Safety should proceed with their study of locations and the construction of a combination house.

Mr. Gallagher arose and said:

Mr. President:—I also wish to state that these ordinances were submitted to Council with the recommendation of the Director of the Department of Public Safety. So far as I can see there is need for two engine houses in that neighborhood. Therefore, I agree with what Mr. McArdle has said. If the Mayor does not concur in the department's recommendation, it is no fault of the Council.

Mr. Anderson arose and said:

Mr. President:—It was I who made the motion last week to hold these bills over until today. The Mayor was sick last week and I did not have an opportunity to discuss this matter with him. I am not satisfied with the information furnished Council by the depart-

ment. They first said that the apparatus was located in a house in an alley behind the police station on South 13th Street and later they said they did not know where it was.

I think it is entirely up to the department to handle these affairs. It is not up to Council to say what to do.

It is my thought that the bills should be laid over for consideration at the conclusion of other business before Council, at which time we can have the Mayor present to explain to Council what he has in mind on this subject.

The Mayor perhaps has a good reason for vetoing these bills. Therefore, I suggest that these ordinances be laid on the table and the Clerk ask the Mayor to appear before the Council. Perhaps, the department has agreed with him to consolidate these engine houses.

The Chair said:

Mr. Anderson, do you know whether the Mayor is available?

Mr. Evans said:

Mr. President, I might inform the Council that the Mayor just returned to his office.

Mr. Gallagher said:

Mr. President, I move that these ordinances be made the subject of special consideration at the conclusion of the other business before the meeting. Which motion prevailed.

Hon. Cornelius D. Scully, Mayor, appeared before Council at this time.

The Chair said:

Mayor Scully, the members of Council desire to know whether a plan has been developed for the combination of the two engine houses on the South Side, or whether the Mayor is of the same opinion as the Department of Public Safety with respect to repairing the present house at South Ninth and Bingham streets?

Mayor Scully said:

Mr. President, if you please, the Chief of the Bureau of Fire has had some suggestions to make with respect to this subject after consulting with authorities on the question of adequate fire protection for the South Side.

While I want the building repaired, I do not think a delay of a few weeks longer in order to permit the department and myself to study the question of the consolidation of the two houses at a more available location will be harmful. Also in connection with this study, we will determine the ultimate cost of the purchase of a new site and the construction of the building and what savings, if any, will be effected as the result of these suggestions. I think that we will be able to furnish this information to Council within two weeks.

The Chair said:

Mr. Mayor, is there any reason why the \$12,000.00 now set up should not be authorized at this time?

Mayor Scully said:

The only answer to that question is, that if you make the appropriation at this time, you will not make any haste because I do not think the plans are ready on which to ask for bids. Therefore, an analysis of the situation might disclose the fact that within a short time another form of development should take place. Therefore, I do not think you will waste any time by allowing these bills to remain on the table of Council for another two weeks.

Let it be understood, however, that I have no objection to these bills. It is merely a question of consolidating the two houses upon which I based my veto.

The **Chair** said:

Mr. Anderson, is that the information you desired?

Mr. **Anderson** said:

Yes, sir. If the Mayor agrees with the department and worked this question out, I think their recommendation should be followed.

Mayor **Scully** said:

Mr. President, I may say further that one point in our development of a new location would be to erect the house on a thoroughfare where traffic would not be jammed. There is a possibility of converting the property on Carson street near South Twenty-first street into a good, valuable property for business purposes. The property is situate on a wide thoroughfare, adapted for commercial establishments.

Mr. **Gallagher** arose and said:

Mr. President, the Mayor's explanation is satisfactory to me. However, I want to reiterate that the original recommendation came from the Director of the Department of Public Safety. The only fear I had was the abandonment of one of the houses. The only point the Mayor brought out: the property occupied by No. 12 Engine House on Carson street at Twenty-first street could be developed into a business establishment. On the other hand, the City could purchase the property next to No. 11 Engine House at South Ninth and Bingham street and erect a first-class fire station there, because I think the Ninth street site is the logical location for a fire house. The street is wide.

As I said before, the only question in my mind was that they were going to abandon one of the existing fire stations. If it is the thought of the Mayor and the Department of Public Safety to consolidate the houses to meet the needs of the community, I will have no objection to that.

Mr. **McArdle** arose and said:

Mr. President:—What I want to say is that it will not be a thing you can readily dispose of in the real estate market. This question involves the abandonment of one of these houses, and unless we have a different experience in disposing of this property than we have

had with other city-owned property, it will be a long time on the city's hands. The business people are not apt to purchase this property as speedily as some persons may think.

Speaking on the question of providing adequate fire protection for this section of the city, I take it that the proper city authorities have or will confer with those people having to do with the fixing of insurance rates on properties in the district where the proposal is to abandon an engine house. That question is not going to be determined overnight.

If we take the fire station off Carson street because it is a business street, we will take it off the best street on the South Side for the fire apparatus. It is a particularly wide street and lends itself to getting the apparatus in and out without hindrance to other traffic on the street.

Careful consideration should be given the question of limiting the service to one house. I understand one of these houses now proposed to be abandoned responds to alarms from the downtown section, and to include this apparatus in one larger house might result in bottling it up in a traffic snarl when responding to an alarm in the downtown district.

I am of the opinion still that in order that Council may not have laid upon its shoulders the reason for delay, it ought to pass this legislation so that it will be that far ahead in case the Mayor and the Director decide to abandon the proposal to combine the two houses; although it is my opinion that the two houses should remain in operation.

The **Chair** took up

Bill No. 371. Communication from the Mayor returning without his approval Bill No. 27, An Ordinance appropriating \$11,000.00 from B. F. 132 and \$1,000.00 from B. F. 127, to provide funds for the cost of remodeling and reconstruction of Engine House No. 11.

No. 447.

Pittsburgh, Pa., March 4, 1938.

Finance Committee of Council,

Gentlemen:—

This Department is in receipt of Bill No. 298, an Ordinance carrying into effect the provisions of the Act of Assembly of 1927, relative to sanitary regulations as to restaurants, etc., and your request for an opinion whether, "if by eliminating 'boarding houses' would vitiate the Ordinance."

The omission of the words "boarding houses" from the proposed ordinance would not of course invalidate it, but the exclusion of the words would not save the keepers of boarding houses from conviction and penalties for violations of the provisions of the Act of 1927 and its amendments of 1937.

In the original Act of 1927 public eating places and public drinking places are defined as follows:

"Places where food or drink is served to, or provided for, the public, with or without charge, including, among others, hotels, restaurants, cafes, cafeterias, boarding houses, ice cream saloons," etc.

This definition was retained verbatim in the Amending Act of 1937.

It will thus be seen that the term "boarding house", is particularly included by the provisions of the Act of 1927 and its amendments of 1937. It was, therefore, the evident intention of the Legislature to put boarding houses on the same status as restaurants and other public eating places.

There are no qualifications in the Act of 1927 nor in its amendments of 1937 which could in anywise be construed as exempting boarding houses. So that while the omission of those words from the ordinance would not render it invalid, this exclusion would not render keepers of boarding houses exempt from the requirements of the law.

Very respectfully,
Churchill Mehard,
City Solicitor.

Submitted by:

Hiram Schock,

Assistant City Solicitor.

Which was read, received and filed.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law and were:

Ayes:—Messrs.

Anderson	McArdle
Evans	Weir
Gallagher	Wolk
Garland	O'Toole (Pres't)

Ayes 8. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Bill No. 391. An Ordinance entitled, "An Ordinance signifying the desire of the corporate authorities of the City of Pittsburgh that the indebtedness of the City of Pittsburgh be increased in the amount of One Million and 00/100 Dollars (\$1,000,000.00) for the purpose of acquiring the necessary land and location, and for the constructing, equipping, establishing and furnishing a municipal hospital for the care of patients suffering from infectious, contagious and other diseases, within the City of Pittsburgh, together with all other proper, appropriate and necessary expenses in connection with the establishment and completion thereof, and providing for a public election to be held in the said City for the purpose of obtaining the assent of the electors thereof to such increased indebtedness, and providing for notice of such election".

In Finance Committee. March 8, 1938.

bill read and amended in the second preamble by adding the words "Now, Therefore", and in Section 1 and Section 2 by striking out and by inserting as shown in red, and by striking out the title and by inserting in lieu thereof, "An Ordinance signifying the desire of the corporate authorities of the City of Pittsburgh that the indebtedness of the City of Pittsburgh be increased in the amount of One Million Three Hundred Fifty Thousand and no/100 Dollars (\$1,350,000.00), for the purpose of acquiring the necessary land, and for constructing, equipping, establishing and furnishing a municipal hospital, and auxiliary buildings necessary for the proper functioning of the hospital, within the City of Pittsburgh, for the care of persons suffering from infectious, contagious and other diseases, and for all other proper and necessary expenses in connection therewith; providing for the acquisition and for the construction and equipment of the municipal hospital for infectious, contagious and other diseases by the City of Pittsburgh, alone or jointly with the County of Allegheny; providing for a public election to be held in the said City for the purpose of obtaining the assent of the electors thereof to such increased indebtedness; and providing for notice of such election", and, as amended, ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Anderson moved

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in Committee and agreed to by Council, was read.

Mr. Anderson moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Evans arose and said:

Mr. President:—I want to say for the record that if this bill comes to a vote today I will vote against it, I believe the Council should carefully consider the recommendations of the Director of the Department of Public Health submitted in a communication to Council today. The Director's recommendation as to the cost of a hospital and his personal recommendation for a general hospital should be given additional study. I

am also opposed to this ordinance because it will not provide sufficient money to construct the kind of hospital the department recommends.

Therefore, I move that Bill No. 391 be recommitted to the Committee on Finance for further consideration.

Mr. O'Toole called Mr. Gallagher to the Chair, and taking the floor, said:

Mr. President:—I am very much opposed to the motion to recommit this ordinance to committee for further consideration.

While I have all the respect in the world for the communication just now received from the Director of the Department of Public Health, I am not inclined at all to be swayed by his recommendation. I believe little stock should be given to what is contained in that communication, because the hospital committee which was appointed last May pursuant to a resolution of Council for the purpose of studying hospital needs with the Director and the Council had failed to furnish the information that Council asked for, and I have no reason to believe that continued delay will give us any more information than we now have. This committee had exceeded the scope of the investigation defined for it, and had delved into matters of policy which are matters alone for Council to decide.

The Director has seen fit to include in his report such evidence as favors his contention. He has taken the recommendation of the Commissioner of the Department of Hospitals of the City of New York, who states, not facts, but gives his own conclusion, that a hospital would cost \$7,000.00 per bed. He reports the actual figures of cost in New York and elsewhere, and they are not applicable to cost of hospital construction in our city. I believe you will find that \$4,000.00 per bed is ample, to construct the kind of hospital we propose to take care of our contagious disease patients.

The Director quotes an authority who I imagine is equally competent to Dr. Goldwater, who says that the cost will average anywhere from \$13,000.00 for the Allegheny General Hospital to slightly more than \$3,000.00 for the University of Baltimore hospital—a modern hospital.

The very gentleman he quotes from New York says that the Kings County Hospital cost \$3,355,000, giving no indication that it would go to \$7,000.00 or \$8,000.00 per bed.

The Director gives the cost of constructing the Gallinger Hospital in Baltimore, and there the cost runs slightly over \$3,000.00 per bed.

The contagious disease pavilion, a small hospital consisting of 152 beds, has cost the City of Baltimore, according to Director Alexander's report, something like \$2,083.42 per bed. This is a smaller hospital than we propose building, and the cost per bed is greater.

The hospital which the Commonwealth of Pennsylvania is constructing in Pittsburgh on ground of the University of Pittsburgh, according to the report of Director Alexander, will cost \$4,000.00 per bed.

I also wish to call your attention to something else that we will not be enthusiastic to overlook, and that is, that the construction of this hospital is not urgent, according to the Director. The Director also says that contagious diseases being taken care of at the hospital include such piffling things as mumps, measles, and other things that could be just as well cared for at home. I would ask him whose home? He does not give the authority; he does not name names. The man whose opinion he takes should not be regarded as an authority on this subject. Such "piffling" diseases cannot be taken care of in all homes. They may be taken care of in your home or my home, but not in the homes of all residents of Pittsburgh. This is what happens with children suffering from such "piffling diseases". According to a report issued by the Childrens Hospital 37 cases of "piffling" diseases were taken care of at the hospital from January 1, 1938 to February 28, 1938, and out of these 37 cases 7 children died.

Now, we cannot fool around with this matter any longer. I do not intend risking any further delay pending further information from the Department of Public Health which will not get us any nearer to a sound basis of cost per bed for construction of a contagious disease hospital. There is no question as to the need for a contagious disease hospital, and for that reason I am going to vote against the motion to recommit this bill to committee, and sincerely hope that those who favor this ordinance will vote for it today and let it go to a vote of the people on May 17th.

Mr. McArdle arose and said:

Mr. President:—I agree with the position taken by Mr. O'Toole. This delay to which he has referred and for which Council is in no way responsible was not due in my judgment to a lack of ability to reach a decision upon the question submitted to this committee by the Council, but due entirely to the injection of a question which had no part in the original resolution.

We started here, if I understand our position correctly, to meet what was supposed to be a very urgent need to bring about better conditions in our Municipal Hospital where communicable and transmissible diseases are taken care of.

This delay has been brought about by the Director by the injection of a question which he thinks is a city necessity, namely, the construction of a general hospital, and it was the injection of a matter of policy which clearly is Council's responsibility that caused the delay in the submission of the report of the hospital committee.

I am not willing as one to continue to delay this until such time as the present Director or his successor may convince the present Council or its successor that the municipality ought to go into the enterprise of building a general hospital. That is talking about money, real money, and talking about a policy which is Council's responsibility as the real policy-declaring body of the City that there is need for a general hospital rather than better hospital needs for the treatment of communicable and transmissible diseases—not only a better treatment, but has flaunted in our faces the presence of danger of a holocaust due to a fire in our present institution. Certainly we ought not to be willing to postpone action upon that when we have, as far as I have been able to discover, no reason to compete with the other general hospitals in the City of Pittsburgh. We have had enough said about it to indicate insofar as the City of Pittsburgh has been able to recognize its obligation that there is already in the City of Pittsburgh, under present and prospective economical conditions wholly adequate hospital services in that realm. I am ready to vote for this ordinance because I am of the belief that the money set up is adequate to construct a hospital to house facilities

to render the normal services that are entrusted to the care of the City, and I will allow the other questions that may be developed from time to time to await their orderly consideration by this body.

Mr. Anderson arose and said:

Mr. President:—After reading the report in its entirety I agree with what both gentlemen have said in regard to the need of a contagious disease hospital. I agree that we should have a hospital. There is no man in this Council who is more anxious to have a hospital built than I am. I agree with Mr. O'Toole that this is the proper amount to set up. I will agree further that it is the question of judgment between committees and the head of the Health Department. It is a question of judgment what we should follow. I am not for delaying this bill, but my experience in the past in regard to placing a bond issue before the people at a primary or general election is that it is neglected and we will not get the results desired. I am also interested in a number of improvements that should be taken up and given the proper study. They should be incorporated in a bill of this character if we are going to place them before the people as a bond issue.

I am in favor of the hospital, as I said before, and I will join any member of this Council to put this bond issue before the people, but I think that these other improvements and questions that we must handle before this Council that we cannot complete unless the people support us in a bond issue to the amount, perhaps, of four or five times the amount of money—perhaps eight or nine times the amount of money requested for this one purpose.

We are continually requested by different neighborhoods throughout the City for improvements.

Surely if the Council, and I think that every member of this Council is willing to have these improvements made, if they had the money. It is a question of whether we had the money under our general taxes, or whether we have bond issues.

Certainly that does not hook up with the delay of this bill, but surely we must agree that in our last bond issue it was neglected at the election and it was defeated.

I don't want that to happen with this bill, and I think we will agree that we should have a bond issue for other purposes. I think every member of this Council agrees with that, and there is a partial program made up by the Department of Public Safety, Public Works and Public Health in regard to other improvements, and I will pledge myself here today that I will agree when the program is made up to go into a special election.

I understand this is the last day for passing legislation of this kind if we are going to have it put on the ballot at the primary election on May 17th.

I think the other is a better plan. Surely 60 days should not make much difference, and I think we should do it in the right way.

I am not in a position to criticize, whether the Director is right or wrong. If the Director disagrees with men of his profession and men of other professions—architects and engineers—surely the Council should know more about it; and for that reason, Mr. President, I want the members to bear in mind that I will join with them to pass legislation to have this put before the people as soon as possible, but at the present time the bill should go back to committee.

Mr. Gallagher said:

May I ask Mr. O'Toole to take the Chair?

Mr. O'Toole arose and said:

Mr. President, I shall resume the Chair as soon as I make answer to Mr. Anderson. In answer to the objection of Mr. Anderson that he would like this question incorporated with other items to be voted upon by the people, I am opposed to that plan for several reasons.

When a bond issue is submitted to the people for their action, the burden of proof is upon the people who propose that issue, and because the people are not sufficiently enlightened on the items to be voted upon it gives them an excellent opportunity to defeat the issue.

No matter how sound the Department's theory may be upon the items to be voted upon, there is always debatable items in any general improvement program. No matter how excellent that proposal is, there is always room for argument.

There can be no debate about a new

contagious disease hospital. Therefore, I do not think it is wise to include in the issue debatable questions, and for that reason I oppose Mr. Anderson's suggestion of a general improvement program to be submitted at this time to the people for approval or disapproval. I don't think much press agenting is necessary to have the people approve this bond issue; in fact, I am confident that it does not need any political pressure. I predict this hospital bond question will carry at the polls, 3 to 1, in any election, general or special.

Mr. O'Toole at this time resumed the Chair.

Mr. Gallagher arose and said:

Mr. President:—I seconded the motion to recommit this bill to the committee. This question has been before the Council the last four years, at least since I have been a member.

I made a personal investigation of the buildings at the Municipal Hospital two years ago. There is no doubt that there is need for a new building. One of the buildings that was in a dilapidated condition has been abandoned for hospital purposes.

At the present time the hospital is not being used to its full capacity.

I am not opposed to a municipal hospital, but I seconded the motion to recommit this bill to committee because there is a possibility that the County Commissioners may join with the City in the construction of a joint hospital.

As I see it, there is a lot of agitation to stampede the Council on the question of a municipal hospital. There are a number of vacant hospital buildings in the city which are white elephants on the hands of the owners, and the City has been beseeched to purchase one of these. I do not know whether these vacant hospital buildings would be adaptable for the purposes of the City.

I quite agree with Mr. Anderson that there are a number of vital questions, demands being made on the Council, and I believe when we submit a bond issue to the people, we should include other questions along with a new municipal hospital.

I do not think there is any grave need for a hospital at this time unless we had a catastrophe or an epidemic, and if we had the other private hospitals of the City would be able to take care of the unfortunates.

The condition of the Municipal Hospital has been known to the members of Council for years—at least three to four years, to my knowledge—and I understand there are some empty beds in the hospital.

The Chair said:

If I may be permitted to answer Mr. Gallagher without leaving the Chair, when this recommendation came before Council the question of joint construction and operation by the County was considered.

There is no law which permits the city to construct a general hospital jointly with the county. The only statute on record pertains to joint control.

Mr. Gallagher arose and said:

May I answer that? As I understand that, there can be joint control, but not joint construction. Therefore, a joint agreement could be made that the County would pay so much per day for any patient entering the hospital living outside the city.

Mr. McArdle arose and said:

Mr. President:—Mr. Gallagher made a statement that I think it is important to correct, in which he points out that the dangerous part of the building at the Municipal Hospital is not in use. He has in mind, no doubt, the part of the structure on the grounds that is not in use due to a structural defect, which, if given the proper attention, by the proper administrative officers, could be corrected at a nominal expense to the City.

The part of the hospital which is regarded as dangerous is that part which does not have adequate and safe electrical equipment, and it is that part which is alleged to contribute to a fire which, in turn, might endanger the lives of the patients and perhaps some of the personnel who are rendering service up there. We ought not to let it rest until the unsafe part of the building in which the patients are now housed and cared for is either repaired or replaced by a new hospital.

And the question recurring on the motion, that Bill No. 391 be recommended to the Committee on Finance, the ayes and noes were ordered taken, and being taken, were:

Ayes:—Messrs.

Anderson
Evans

Gallagher

Noes:—Messrs.

No. 2129.

Pittsburgh, Pa.,
December 19, 1938.

E. W. Lindsay,
City Clerk.

Dear Sir:

Replying to your communication of December 14, 1938, in connection with Bill No. 1887, which is an ordinance authorizing the vacation of Janewood way in the 20th Ward of the City of Pittsburgh, and which you state was returned to Council from the Committee on Public Service and Surveys with an affirmative recommendation subject to a stipulation being drawn up by the Law Department for signatures by the officers of the Board of Public Education agreeing to release and discharge the City of Pittsburgh from any and all claims for damages by reason of the vacation of said Janewood way, we advise as follows:

An investigation of this matter discloses that there is on file in the office of F. B. Chalfant, Engineer of Surveys, a stipulation, a copy of which we hand you herewith properly signed by the Secretary of the Board of Public Education pursuant to a resolution of the Board of Public Education adopted at a regular meeting held on November 1, 1938; a certified copy of which is also in the files of the Engineer of Surveys, releasing and discharging the City of Pittsburgh for any and all claims for damages by reason of the opening of the said Janewood way as affecting the property of the School District.

In regard to a stipulation from the School Board agreeing to indemnify the City against any claims which other property owners might make, we advise that we have consulted the School Solicitor and he advises that such a stipulation could not be obtained until the next meeting of the Board, which would be in January, 1939.

However, this Department has examined the plan of the proposed vacation, a copy of which we attach hereto, and it is our opinion that this closing would not affect other property owners in this district sufficiently to uphold a claim for damages inasmuch as access

would still be available to the general system of streets in this district.

Very truly yours,
Wm. Alvah Stewart,
City Solicitor.

Submitted by:

Harry C. Beschel,
Asst. City Solicitor.

Which was read, received and filed.

And the bill as read a second time was agreed to.

Resolution authorizing and directing the City Solicitor to accept the sum of \$150.00 on behalf of the City of Pittsburgh, in lieu of the sum of \$1050.05, and satisfy the record in full at M. L. D. No. 1005 April Term, 1930, against the property of Landview Holding Company on Beechwood boulevard.

Which was read.

Mr. Anderson moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes:—Messrs.

Anderson	Weir
Evans	Wolk
Garland	O'Toole (Pres't)
McArdle	

Ayes 7. Noes none.

And a majority of the votes of Council being in the affirmative, the resolution passed finally.

Also

Bill No. 1644. Resolution authorizing the issuing of a warrant in favor of William C. Benni, in the sum of \$205.00, refunding amount paid for electric wiring permit on May 19, 1938, on account of the work authorized under said permit having been cancelled and relet to the Hale Electric Company.

In Finance Committee, December 20, 1938, read and amended by adding thereto the words "and charge same to Code Account No. 42, Contingent Fund", and as amended, ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Anderson moved

That the amendment of the Finance Committee be agreed to.

Which motion prevailed.

And the resolution, as amended in Committee and agreed to by Council, was read.

Mr. Anderson moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Ayes:—Messrs.

Anderson	Weir
Evans	Wolk
Garland	O'Toole (Pres't)
McArdle	

Ayes 7. Noes none.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

Also

Bill No. 2113. Resolution authorizing the issuing of a warrant in favor of the Home Owners Loan Corporation, in care of J. Frank McKenna, Jr., fee attorney, in the sum of \$46.02, for the purpose of returning the penalty and interest to which the said corporation was entitled under the Tax Abatement Act of May 1, 1935, P. L. 123, and charging same to Code Account No. —.

In Finance Committee, December 20, 1938, read and amended by inserting after the words "Code Account No. —" the figures "41", and as amended,

ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Anderson moved

That the amendment of the Finance Committee be agreed to.

Which motion prevailed.

And the resolution, as amended in Committee and agreed to by Council, was read.

Mr. Anderson moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes:—Messrs.

Anderson	Weir
Evans	Wolk
Garland	O'Toole (Pres't)
McArdle	

Ayes 7. Noes none.

And there being two-thirds of the votes of Council in the affirmative, the resolution passed finally.

Mr. Anderson (for Mr. Demmler) also presented

No. 2157. Report of the Committee on Finance for December 21, 1938, transmitting an Ordinance to Council.

Which was read, received and filed.

Also, with an affirmative recommendation,

Bill No. 2048. An Ordinance entitled, "An Ordinance levying and assessing taxes and water rents for the fiscal year beginning January 1, 1939, and ending December 31, 1939, upon all property subject to taxation within the limits of the City of Pittsburgh."

Which was read.

Mr. Anderson moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Anderson	Weir
Evans	Wolk
McArdle	O'Toole (Pres't)
Ayes 6.	Noes none.

When the name of Mr. Garland was called, he arose and said:

Mr. President:

I vote AYE on the tax levy and NO on the water rents. They are in the same bill. When the ordinance was before the Committee last week I asked for a separation, but this was voted down.

The Chair:

It is the Chair's opinion that a member should either vote for or against the bill, or be recorded as not voting at all. There can be no separation of his vote on the bill.

Mr. Garland:

I want to be recorded as voting Aye for the tax levy and No on the water rents. I know there will be sufficient votes to pass the ordinance.

The Chair:

There is no objection to the gentleman placing his statement on the record. A division of his vote on the bill cannot be recorded. I think the statement on the record that you (Mr. Garland) are voting for the tax levy and against the water rents can stand.

Mr. Garland:

I repeat that I am voting for the tax levy and against the water rents.

The Chair:

Unless the gentleman casts a legal vote, the Chair will declare that he is not voting.

Mr. Garland:

Have it your own way. I want to be recorded as such. The subjects should have been in separate ordinances; one is a tax and the other a charge for a commodity.

The Chair:

The record now stands that you

are not voting for or against the ordinance.

Mr. McArdle arose and said:

Mr. President:—I don't think we ought to allow this to become confused. We are voting on a bill; not on the several contents contained therein. We are voting on a bill, the structure of which has been prepared for many years. I cannot see how there can be a division of the record except that it expresses the opinion of the member, but it cannot be counted as a divided vote—half for one feature and half for the other. The member has a perfect right to vote for or against any bill before the body, and if at any time he votes against a bill, he has the right to point out those features to which he objects. We cannot allow the record to stand that there is a division of a member's vote on this particular bill.

The Chair:

Unless Mr. Garland wishes to cast his vote for or against the bill, the Ayes are six and the Noes none; he being recorded as not voting.

Mr. Garland:

I am standing on my rights. You will have enough votes anyhow.

The Chair:

The record stands: Ayes, six, and one not voting.

Ayes 6. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Evans presented

No. 2158. Report of the Committee on Public Works for December 20, 1938, transmitting an Ordinance to Council.

Which was read, received, and filed.

Also, with an affirmative recommendation,

Bill No. 2104. An Ordinance entitled, "An Ordinance locating the Wilmot Street Bridge and approaches on and over Wilmot street, over and across Juno street, Rollo way, Adrian street, Boundary street, the right-of-way and tracks of the Pittsburgh Junction Railroad Company, property of the Schuylkill Improvement Land Company, and property of the City of Pittsburgh, to connect the Boulevard of the Allies

at its intersection with Parkview avenue with Wilmot road in Schenley Park; laying out and opening the same as a public highway; providing for an aerial easement over property of the Schuylkill Improvement Land Company, the right-of-way and the tracks of the Pittsburgh Junction Railroad Company, and the property of the City of Pittsburgh; providing for adjudication of damages occasioned thereby, and providing further for the payment of the City's share thereof under a Federal Emergency Administration of Public Works Docket".

Which was read.

Mr. Evans moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Anderson	Weir
Evans	Wolk
Garland	O'Toole (Pres't)
McArdle	

Ayes 7. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2070. An Ordinance entitled, "An Ordinance setting aside, annulling and vacating the location of Tuscarora street, from Hastings street to South Linden avenue, in the Fourteenth Ward of the City of Pittsburgh, as located by Ordinance No. 118, approved June 29, 1894, and as said Tuscarora street was laid out and located in a certain plan known as 'Parts of 21st and 22nd Wards Plan of Streets', approved by Common Council November 4, 1872, and by Select Council November 11, 1872, now on file in the Bureau of Engineering, Division of Surveys".

Which was read.

Mr. Wolk moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

The Chair presented

No. 2161.

Pittsburgh, Pa., December 30, 1938.
President and Members,
City Council,
City of Pittsburgh.

Gentlemen:—

This is to certify that appro-

priation Bill No. 2049 as presented to Council is in accordance with the action of the Finance Committee and has been checked against the record of the Clerk of the Finance Committee.

Respectfully yours,

Richard Neff,
Budget Controller.

Attested to:

John Schilpp, Jr.,
Clerk of Finance Committee.

Which was read, received and filed.

Mr. Wolk arose and said:

Mr. President:—I have been a Councilman for but one year. I have given considerable time to the matter of the budget estimates for 1939. However the time allotted for deliberation by the councilmen as a group was far too limited. Exchange of ideas is beneficial. I am convinced that if eliminations and reductions of estimates are to be scientifically made, much more time is required than we have had at our disposal. I would suggest that the members of Council meet from time to time after the first of the year to deliberate further and to make additional cuts where this can be accomplished with safety.

I am further convinced of the wisdom of the motion I made calling upon Department Heads to justify items in their estimates. A frank discussion with Directors and Bureau Heads, I believe, would have resulted in a more scientific budget. I know that to do this properly, our budget making would have been extended beyond the first of the year. To give an illustration of the benefit to be derived by such procedure, I need point to but one case, the Bureau of Water. In this case a frank and thorough discussion took place with the Bureau Head and the items involved were disposed of satisfactorily, although there is great doubt in my mind on one point discussed, and that is the ability to obtain from the Federal Government a grant on a part of the salaries of city employees who divide their time between bond and ordinary work.

I am not going to burden you at this time with a discussion of the financial condition of the city, which I have done during our deliberations. Neither am I going to make a detailed analysis at this time of the completed budget. The merit of some of the reductions and

eliminations are open to question. I do not say this in a spirit of criticism. Honest differences of opinion will always occur.

One point I must emphasize and that is the inadequacy of police protection. I believe we should have complied with the recommendation of the Council of Organizations and other groups by adding at least seventy patrolmen to the police force. I recognize the difficulty of providing the money to pay for this added service to the people, but there are two functions of city government that must be performed adequately under any circumstances. One is to protect the health of the community and the other is to protect the lives and property of its citizens.

Items appear in the budget as contributions to various Veteran Organizations for patriotic celebrations. These were cut in half. I believe they should be continued in the original full amounts. The Veterans have rendered valuable service in war. They are likewise performing a fine community service in peace.

I further believe the contribution to the National Guard should be continued in the original full amount for the coming year. In times of emergency, the one thousand men composing the various units in this city can be of important service to the people of Pittsburgh, and they are ever ready to respond. They did so gallantly in the flood disaster of 1936.

As I have stated before. I hope we will continue our deliberations in the future months, making additional eliminations and reductions wherever they can be made judiciously after consultation with Department Heads.

President O'Toole called Mr. Evans to the Chair and taking the floor said:

Mr. Chairman and Gentlemen— I do not claim for this bill much more than the justification of necessity. In other circumstances a better bill could be drawn, but this bill approaches the best we could have done in the situation that faced us.

It cannot be claimed that all the cuts made in departmental estimates were made scientifically or with uniform wisdom. In some instances they were made arbitrarily—but they were made.

In some instances they may impose extreme difficulties on the heads of de-

partments during 1939. In working out those difficulties the administration must have, and I believe it will have, the wholehearted cooperation of this Council throughout the year.

In this connection, I wish nothing I say on this bill to be considered as in controversy with His Honor, the Mayor,

When members of the same party quarrel publicly, nobody gains except the common enemy. Therefore, I do not now make any answer to the criticism which His Honor feels our work merited I shall, however, continue to do my part to maintain the authority and meet the responsibility of this Council.

The cuts in supply and material accounts will force the most frugal use of the means still available, thus eliminating waste. The curtailment of purchases of new equipment and the denial of added personnel, call for the exercise of efficiency and competency in the use of what we have.

But the bill as written is only a start and we must recognize that further curtailment of expenditures is necessary through 1939.

Personnel has been practically untouched because we could not in the pressure of budget sessions and without essential information effect the reorganizations, reclassifications, changes of method, eliminations and reductions which are necessary.

I suggest to the members of Council that this problem have our immediate and constant attention throughout 1939, so that when the next budget is submitted we will have practically prepared in advance an appropriation bill that accomplishes not only large but intelligent economies.

We have had some discussion of and concern for the city's credit. We must protect that credit not only with those who lend but even more so with those who pay, the citizens of Pittsburgh.

Credit is based not only on assets, but also on intention and performance. In this bill the Council has discharged the easier job, we have established the good intention. We leave to the Mayor and the department heads the more difficult task, a proper performance.

Mr. Anderson arose and said:

Mr. President:—I just wish to say a few words on the ordinances. I wish to state this, that I feel that cuts were made after very careful considera-

tion. It is at least the best thoughts that I have in regard to making such reductions. It was at the demand of the people that must pay to carry on our government. It was the one and only thing that could be done.

I have no quarrel with the Executive Branch of the Government.

It was impossible for the members of Council to go through the different departments to see who are the efficient employees. That is the duty of the Mayor and the heads of the departments. Council has nothing to do with the administration of these offices after the appropriation and salary bills are passed; it has nothing to do with the appointment of the men and women who work for the city.

Surely it should not be their duty to recommend dismissals in different offices. I don't think that can be done, but I say this, that the Council did the only thing possible. They cut down on supplies and materials, and in doing that the departments must spend the money the way it is set up in the appropriation ordinance.

It is my hope that the administration will do that.

I cannot see where the Council by meeting on these different questions from time to time can get at the truth or at the real truth of statements made and opinions expressed by many people in regard to what is commonly known as "dead wood".

We have not followed the recommendations of the Economy and Efficiency Commission except in one or two instances. In one case they referred to the fact that 13 laborers were assigned as clerks in offices doing nothing. That allegation was denied by a man whom I feel a majority of the Council believe made a good witness before the Budget Committee.

These duties belong to the Executive Branch of the Government.

If we have erred in any way, it is only an error of judgment. We have worked for the best interests of the people of Pittsburgh, and I say to you as one of the old members of Council that anything further was impossible to do; and I state honestly that there has never been a budget prepared by Council since I have been a member that

has received as careful and serious consideration as this one.

Mr. McArdle arose and said:

Mr. President:—I want to say that as far as the bills before us are concerned, while they are like every other bill that I helped prepare and voted upon, do not meet wholly on every point with my own point of view, however, I want to say, with all possible emphasis, that I make no apology for the bills as they come before us now and as I expect they will be passed.

I agree with what Mr. Wolk says about the necessity (1st) of more time in considering the budget. Even the compliance with the law will not always give Council all the time that custom has seemed to make necessary in the consideration of an annual budget for the City of Pittsburgh, during which time we give so generously of the time of the Council to get an expression from the taxpayers who care to speak upon it one way or the other. With that thought in mind I cannot be blind to the fact that we cannot give the amount of detailed thought and consideration to the formation of a budget that is presented to us five days after the date that the law says it ought to be passed. From then on we give two weeks' time to the public to express their views on it. Thus Council was confronted with some difficulty to get a real understanding of it because of the shortness of time.

I can only say that the Council has, as I interpret their action, tried to conform to the will of the people of the City of Pittsburgh who did not want any additions to the tax burdens by the way of an increased millage. We have striven, perhaps at the expenses of the maintenance of the highest efficiency in some municipal departments, to conform to the public's wish.

If, during the course of the year, adjustments are necessary, we can, as Mr. Wolk and Mr. O'Toole have expressed themselves, formulate a policy which can be pursued during the twelve months of 1939. I hope an intelligent attempt will be made to meet the problem, which is an extremely difficult one under any circumstances, particularly so, because of the extraordinary stress in which our taxpaying public finds itself and the government in its increas-

ing problem finds itself, so that any adjustments which we make of these conditions will fit in with the circumstances of the day.

I am hopeful that the bills will pass and that they will be promptly approved; and I am hopeful that every one responsible for the administration of the affairs of the government of the City of Pittsburgh will spend their time in the ensuing year to make this budget in its present form, with such adjustments that are made, to meet as fully as possible the needs of our people, and out of it we may come into a position where the Council in the preparation of the next budget will have much more time and much more information at its disposal. It is also my hope that all public officers and employees and taxpayers generally will be brought to a fuller understanding of the difficulties which surround Council in times like this in trying to run the government and run it efficiently and economically; and out of it will come, through that understanding, a further understanding on the part of the people who owe the City of Pittsburgh money and are able to pay, so they will meet their obligations to the City; and when this bill reaches final judgment at the end of the fiscal year, will not be in such bad shape as some people are prone to prophesize for it at the present time.

Mr. Weir arose and said:

Mr. President:—I just want to lend my voice to endorse that part of the remarks of Messrs. Wolk, O'Toole and McArdle with respect to the hastiness in which the budget had to be made.

In all the years I have been a member of Council, this is the first time that the budget was made so hastily.

In years to come I hope more time will be given the members of Council to study and make up the budget, and as Mr. Wolk so aptly said, Council should work on the budget from month to month.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Anderson	O'Toole
Gallagher	Weir
Garland	Wolk
McArdle	
Evans (Pres't Pro tem.)	

Ayes 8. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2148. An Ordinance entitled, "An Ordinance fixing the number of officers and employes of all departments of the City of Pittsburgh, and the rate of compensation thereof".

In Finance Committee, December 28, 1938, bill read and amended by inserting Sections 1 to 94, both inclusive, and as amended, ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Anderson moved

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in Committee and agreed to by Council, was read.

Mr. Anderson moved

A suspension of the rule to allow second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

The Chair presented

No. 2162

Pittsburgh, Pa., December 30, 1938.
President and Members,
City Council,
City of Pittsburgh.

Gentlemen:—

This is to certify that Salary Bill No. 2148 as presented to Council is in accordance with the action of the Finance Committee and has been checked against the record of the Clerk of the Finance Committee.

Respectfully yours,

Richard Neff,

Budget Controller.

Attested to:

John Schlupp, Jr.

Clerk of Finance Committee.

Which was read, received and filed.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Anderson	O'Toole
Gallagher	Weir
Garland	Wolk
McArdle	
Evans (Pres't Pro tem.)	

Ayes 8. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

At this time President O'Toole resumed the chair.

Mr. Wolk, by unanimous consent, presented

No. 2163. RESOLVED, That the City Council favors the enactment of proper legislation effecting an agreement between the City of Pittsburgh and the Baltimore and Ohio Railroad Company in connection with the construction of the River Avenue viaduct, as outlined in the letter of the Director of the Department of Public Works to the Committee on Public Service and Surveys, dated December 27, 1938.

Which was read.

Mr. Wolk moved

The adoption of the resolution.

Which motion prevailed.

The Chair, by unanimous consent, presented

No. 2164. An Ordinance appropriating and setting aside the aggregate amount of \$6,000.00, including engineering and other necessary expenses, for improvements to the public recreation systems of the City, in the Department of Public Works, upon which offers of grants of funds of the Government of the United States have been received, from the proceeds to be derived from the sale of \$2,000,000.00 short-term promissory notes.

Also

No. 2165. An Ordinance appropriating and setting aside the sum

of \$50,000.00 for payment of engineering and other necessary expenses incurred by employees of the Department of Public Works, for the services performed on improvements carried out in connection with the Federal Emergency Administration of Public Works program, from the proceeds to be derived from the sale of \$2,000,000.00 short-term promissory notes.

Also

No. 2166. An Ordinance fixing the minimum rate of wages to be paid laborers and mechanics of the City forces in the Department of Public Works, when required to be employed on Force Account Work in connection with commencement of construction work on improvements to be carried out under projects in the program of the Federal Emergency Administration of Public Works; providing for weekly payment of compensation for such services and making such payments chargeable to and payable from the respective construction accounts established for the several Dockets in the Federal Emergency Administration of Public Works program.

Also

No. 2167. An Ordinance amending Section 1 of Ordinance No. 566, approved December 6, 1938, entitled, "An Ordinance providing for a contract or contracts to be carried out as Federal Emergency Administration of Public Works projects for certain improvements to the public recreation systems of the City of Pittsburgh in the Department of Public Works, and providing for the payment of the costs thereof from funds otherwise appropriated therefor".

Which were severally read and referred to the Committee on Finance.

Mr. Weir moved

That when Council adjourns, it shall adjourn to meet on Monday, January 9, 1939, and that no regular meetings of Council or Committees be held before that date.

Which motion prevailed.

And there being no further business before the meeting, the Chair declared

Council adjourned.

Office of the Mayor
Pittsburgh, Pa., June 8, 1938.
President and Members of
The City Council
City-County Building,
Pittsburgh, Pennsylvania.
Gentlemen:

Herewith find returned disapproved an ordinance regulating the hours of employment of certain employees in the City's service, Bill 674.

The Bill is returned, not so much because I believe its objectives are in themselves undesirable, but because I consider the legislation to be arbitrary, in that it does not take into consid-

eration more than one classification of city employees, and ill considered, in that it is not based on any study of the amount of work to be done and the capacity of employees to accomplish this work under the proposed time schedules.

I have already received a protest against this legislation from one large group of City employees who propose, instead, a five-day working week.

There is no evidence before us as to the comparative desirability, from the standpoint of either the employees or the City, of the shortened work day set up in this measure and a five-day working week, nor do we have before us any evidence of the possibility of transacting the City's business under a shortened work period without an increase in total personnel.

To legislate on such a problem as this without definite and detailed information is, in my opinion, bad management.

I propose, if this argument meets the approval of your Honorable Body, to see that the Department Heads and their subordinates obtain this information in detailed form. Further, we should have the experience of other governmental units for guidance. Then, and then only, should we legislate.

Meanwhile, I believe the interests of the City Government, municipal employees and the taxpayers will be best served by the continuance of the present hour legislation which embodies a 40-hour week, and the adoption of the customary summer schedule.

Sincerely yours,
Cornelius D. Scully,
Mayor.

No. 1089.

Pittsburgh, June 18, 1933.

President and Members,
City Council.

Gentlemen:

In re: Bill No. 983.

In accordance with the motion of the Committee on Finance, "that the Budget Controller furnish a report of the appropriation \$7,000.00 for sealing abandoned mines and the appropriation of \$25,000.00 for replacement and extension of water mains, as part of the total appropriation contained in the above bill, and which appropriations are estimated to carry on the projects to September 1st"—

The project of replacement and extension to water mains has been carried on in conjunction with every governmental relief agency since December, 1933. This project involves the replacement of old lines, inadequate, due to age and corrosion, structural weaknesses, and increased industrial and population uses in the older sections of the City.

The total appropriations of City funds to this work to date are approximately \$466,000.00, and it is estimated by the Department that the project is about 25% complete.

The project for mine sealing under way and contemplated is exclusively for mines within the City limits, and includes closing of mine entries and tunnels in abandoned mines, filling surface sinks, cave holes and fractures, and covering coal seam outcroppings to check and prevent future fires, as well as control of mine drainage.

It also includes treatment of mine fires, of which there are a number not definitely determined, although two specific cases are included in the program.

The work under way and contemplated also includes a number of mines in the Hill district, with reference to the activities of the Housing Authority.

In general, the work also includes the removal of all existing and potential mine hazards to life, limb, property and fires.

Respectfully submitted,

Richard Neff,

Budget Controller.

Which was read, received and filed.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

Mr. Evans also presented

No. 1090.

Pittsburgh, June 18, 1938.
President and Members,
City Council.
Gentlemen:

In re: Bill No. 1009

In accordance with the motion of the Committee on Finance, that the Budget Controller visit the Museum Extension Project, located at 3400 Forbes street, and report to Council the activities carried on through this project—

The entire five-story building at 3400 Forbes street is used for this project, there being 690 people employed in the building of which 98 per cent are on relief.

The project is an educational one in which bookbinding, mimeograph work, sculpture, art, sewing, architecture and drafting are taught.

The models made in the sculptural department are shipped to the various

public schools in Pennsylvania, together with their history and are used for educational purposes.

This project is well supervised and one which provides an education in the various fields as above set out, to those who otherwise could not obtain such knowledge.

Respectfully submitted,

Richard Neff,
Budget Controller.

Mr. Evans moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Wolk arose and said

Mr. President and Members of Council:—

The proposed \$8,000,000.00 bond issue is intended to rehabilitate the City Plant. It involves a program of health, safety, play and happiness for the people of Pittsburgh.

There are six classifications of improvements to be made. Each one of the classifications involves absolutely necessary improvements which the City, as a progressive government, must make if the people of Pittsburgh are to receive the minimum of benefits to which they are entitled. No one can deny that vast improvements must be made in connection with our streets, sewer and drainage systems, water system and bridges. These physical improvements are necessary to maintain the City Plant in a good workable condition. No one can deny that the use of parks and playgrounds bring health and happiness to the community and in the long run, pay for themselves in the prevention of delinquency and crime. Pittsburgh has been woefully neglectful, particularly as to its playground and recreation program. No one can deny that the Leech Farm Tuberculosis Sanatorium

not only requires improvements to adequately take care of the present capacity, but requires additions in order to take care of a long waiting list of patients.

The amount to be spent by the City on each of these classifications, is definitely set forth in the proposal: Streets, etc., \$1,650,000.00; Sewers and Drainage systems, \$2,200,000.00; Bridges, \$825,000.00; Parks and Playgrounds, \$825,000.00; Water system, \$650,000.00; and Leech Farm Tuberculosis Sanatorium, \$350,000.00; a total of \$6,500,000.00.

The money in one classification cannot be used for improvements in any other classification. Further no portion of the \$6,500,000.00 can be used for a project unless the expenditure for the project is made in connection with a grant from the Federal Government. This is a positive legal restriction.

A maximum grant of 45% from the Federal Government would mean that with \$6,500,000.00 as the City's contribution, about \$11,800,000.00 worth of public improvements in the City can be made at a saving of about \$5,300,000.00 to the taxpayers of Pittsburgh. It would be manifestly unwise on the part of the City, not to take advantage of the funds that are to be provided by the Federal Government for the various necessary projects contemplated. If the City fails in this respect, other cities will benefit to the extent that Pittsburgh has neglected its opportunity. We would find ourselves in the very unhappy position of having actually paid for the Federal grants by Federal taxation without having received any benefits.

The balance of the bond issue, to wit: \$1,500,000.00, is to be spent on projects within the six general classifications with or without Federal grants. If grants are obtained, savings in addition to that set forth above, will result. This amount was set forth in this manner so as to carry out a complete program in these classifications, without being too greatly restricted. Flexibility is required. If a project within these classifications cannot or should not be undertaken in conjunction with the Federal grant, or if the time limitation precludes a grant, then this bond money can be spent to carry out the project

without Federal aid. It is impossible to take care of every contingency in advance of the submission of the bond issue to the people. The \$1,500,000.00 will give sufficient leeway, I believe, to make a well rounded program and take care of possible contingencies.

I believe the program of spending to the extent of \$8,000,000.00 is not only required to make necessary improvements to the Plant of the City, but will, in addition, bring great benefits to the people of Pittsburgh. Those who work and labor for salaries and wages will receive employment in the carrying out of these projects. The great portion of the money for materials and equipment will, no doubt, be spent in Pittsburgh and benefit Pittsburgh manufacturers and their employees. All of this will enure to the benefit of our merchants, great and small, because of the increased purchasing power which will result.

By reason of large bond and note debt retirements in the next few years, the issuance of the proposed bonds will not entail a tax increase thereby. Assuming that \$3,000,000.00 of the bonds are sold in 1939, \$3,500,000.00 in 1940, and \$1,500,000.00 in 1941, the bond and note indebtedness of the City by the end of 1941, will be \$51,898,083.34, and at the beginning of 1938, it was \$59,895,000.00, or a reduction of \$7,796,916.66, by the end of 1941. Assuming the interest rate on the bonds will be 2½%, and the bonds will be dated July 1st, of the year in which they are sold, interest and sinking fund requirements for all City bonds and notes for 1940, 1941 and 1942, being the years when the principal installments on each group of bonds sold will first become due, will be, for 1940: \$6,279,101.33; for 1941: \$5,990,791.06; for 1942: \$5,777,094.37; while the requirements for 1938 are \$6,788,760.87; and for 1939: \$7,015,363.88. The increase in requirements for 1939, aside from an interest item of \$37,500.00 is not due to the proposed bond issue but by reason of requirements under present debts of the City. The figures above set forth are based upon the financial statement of the indebtedness of the City and sinking fund and interest requirements, prepared by Doctor James P. Kerr, Controller of the City of Pittsburgh.

It is clear that the City's financial condition will not be impaired because even with the sale of the proposed bond issue, the bonded indebtedness of the City of Pittsburgh, after the spending program will have been completed, will be reduced almost \$7,800,000.00, by the end of the year 1941, if no other bonds are issued, and the sinking fund and interest requirements for the years 1940, 1941 and 1942 will be greatly reduced as compared with 1938 and 1939; and in addition thereto, the City will have a rehabilitated physical plant.

The proposed improvements must be made in any case in the near future. To delay further means that the cost of the improvements to the City will become greater, not only because of the failure of the City to avail itself of Federal grants, but because the City Plant will have depreciated and deteriorated so much more by reason of the delay.

I can sincerely and conscientiously submit this proposed bond issue to the people of Pittsburgh for their favorable action.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Pittsburgh,
June 30, 1938.

President and Members,
City Council.

Gentlemen:

In re: Bill Nos. 1163-1164

With reference to Bill No. 1163, An Ordinance appropriating \$5,000.00 from Bond Fund 126, Public Welfare Bonds 1935, for costs and expenses of Children's activities in Day Camps:

I have consulted the Deputy Controller and he is of the opinion that their Solicitor will advise that expenditures for the above purpose are not properly chargeable to the above bond fund.

I would, therefore, recommend that Council pass finally Bill No. 1164, a Resolution transferring \$5,000.00 from Code Account No. 1553 to Code Account No. 1921, this being an alternative bill serving the same purpose.

Respectfully submitted,

Richard Neff,

Which was read.

Mr. **Wolk** moved

That the request be granted.

Which motion prevailed.

MOTIONS AND RESOLUTIONS

Mr. **Weir** presented

No. 1181. Resolved. That it is the desire of Council, in the construction of the new Municipal Hospital, the Mayor and the Director of the Department of Public Health employ Pittsburgh engineers and architects.

Which was read.

Mr. **Weir** moved

The adoption of the resolution.

Mr. **McArdle** arose and said:

Mr. President:— I am fully in accord with the purposes of the resolution, but it seems to me that if it is the desire of the Council to act, the time will come later when legislation to make it effective will be submitted to the body for action. At that time the members can express themselves upon it.

So far as I know, no appropriation has

been made heretofore for the construction of this hospital until today when the Council passed finally Bill No. 906, which was submitted by the administration. That merely provides the money for the payment of the preliminary expenses for architectural, engineering and other technical services in connection with the preparation of the plans. No one will have any authority to encumber the City in any indebtedness for the building of the hospital.

When the time comes to make the arrangement to carry this out, it will be within the province of the Mayor and the Director of Public Health if the Council adopts legislation to that effect, and that legislation will determine under what terms the architect or firm of architects shall be employed.

While the adoption of this resolution might be all right for the purpose of preliminarily putting ourselves on record, the effective way to do it will be by passing legislation at the proper time authorizing the employment of these technical services.

Mr. **Garland** arose and said:

Mr. President:— It is a question whether Council wants to exercise its prerogative. We can name the architect and engineers. This resolution merely serves notice on the Mayor and the Director of Public Health that when the services of these men are required they shall be selected from the ranks of the technical men who are residents of Pittsburgh.

Mr. **McArdle** arose and said:

Mr. President:— The only danger I see in the resolution is that it implies, and only implies, that the architects and engineers shall be residents of Pittsburgh. It has no binding effect upon the Mayor and the Director of Public Health as to whom they shall select. That determination will be made by the Council when the ordinance is before it. The Council will also determine what restrictions shall be placed on the persons selected to do this work.

Mr. **Wolk** arose and said:

Mr. President:— In order to clarify the resolution, might it not be sufficient to say that only Pittsburgh engineers and architects shall be employed in connection with the construction of the municipal hospital?

Mr. Wolk moved

To amend the resolution by striking out the words "the Mayor and the Director of the Department of Public Health employ Pittsburgh engineers and architects," and by inserting in lieu thereof, "that only Pittsburgh engineers and architects be employed in connection therewith."

Which motion prevailed.

And on the question, "Shall the resolution, as amended, be adopted?"

The motion prevailed.

Mr. McArdle moved

That when Council adjourns, it shall adjourn to meet at the call of the Chair, or by call as otherwise provided in the rules.

Which motion prevailed.

And Council adjourned.

ONE HUNDREDTH COUNCIL

COUNCIL

JAMES L. O'TOOLE, JR. President
EDW. W. LINDSAY City Clerk
JAS. W. PATTERSON Ass't City Clerk

Pittsburgh, Pa.
Thursday July 7, 1938.

Council met pursuant to the following call:

Pittsburgh, Pa.,
July 5, 1938.

Mr. E. W. Lindsay,
City Clerk
City-County Building
Pittsburgh, Pennsylvania

Dear Sir:

Please call a special meeting of the City Council for Thursday, July 7, 1938, at 1:00 P. M. Eastern Standard Time, for the purpose of receiving and acting upon a communication from the Mayor concerning conduct of the City Law Department, and for the transaction of such other business as may come before the meeting.

Sincerely yours,

Cornelius D. Scully,
Mayor.

Which was read, received and filed.

Present:—Messrs.

Evans Weir
Garland O'Toole (Pres't)

McArdle

Absent:—Messrs.

Anderson Gallagher
Demmler Wolk

PRESENTATIONS

The **Chair** presented
No. 1182.

Pittsburgh, Pa., July 7, 1938.

President and Members
The City Council
City of Pittsburgh
Pittsburgh, Pennsylvania.

Gentlemen:—

Herewith find, for your consideration, a draft of resolution calling for an investigation by you of the matter of consent verdicts agreed to by the Law Department.

The implications of recent newspaper articles are extremely grave and it is not necessary to call to your attention the obligation which rests upon us as elected officials to take the necessary steps to protect fully the city's interests. To that end a thorough investigation of the circumstances of each case should be made.

Your favorable action on the resolution and the prompt furtherance of its purpose is urged.

Sincerely yours,

Cornelius D. Scully,
Mayor.

Which was read, received and filed.

Also

No. 1183. WHEREAS, In a communication this day received from the Mayor, the Council has been requested to cause an investigation to be made in the matter of settlement of cases by consent by the law department; and

WHEREAS, Such investigation seems proper to protect the interests of the City; Now, be it

RESOLVED, That Council sit and act under the authority of Section One (1) of the Act of 1903, to undertake an examination into the facts of the several

cases handled from January 1, 1938, to date, in which consent verdicts have been entered; and be it further

RESOLVED, That to facilitate such investigation the President of Council be authorized, as provided in the said act, to subpoena such witnesses and records as may be necessary to deal adequately with all the facts in the premises.

Which was read.

Mr. **Evans** moved

The adoption of the resolution

Mr. **Garland** moved

To amend the resolution by inserting after the words "have been entered" the words "and all other settlements".

Which motion prevailed.

Mr. **McArdle** arose and said

Mr. President: It is my judgment that the resolution should have been much more fully expressive of the purposes of the investigation desired by the Mayor. However, with the amendment just adopted it is broad enough to proceed, with the idea in mind, if it needs broadening, it can be taken care of later. With that in mind, I shall support the resolution as amended, and after that, then, I shall ask the privilege of offering another motion dealing with the subject.

And the question recurring on the adoption of the resolution, as amended, the ayes and noes were ordered taken, and being taken were:

Ayes:—Messrs.

Evans

Weir

Garland

O'Toole (Pres't)

McArdle

Ayes 5. Noes none.

And a majority of the votes of Council being in the affirmative, the motion prevailed.

Mr. **McArdle** moved

That the Mayor be requested to furnish to Council at the earliest possible moment all information which he has dealing with the subject-matter that impelled him to send to council the communication of today and the resolution attached, which has just been adopted, and any other information or reports which are in his possession, which he believes would shed light on the subject-matter, or facilitate the progress of the investigation when entered into.

Which motion prevailed.

The **Chair** said:

What is your suggestion, gentlemen, as to a future meeting of Council or as committees, to organize the investigation referred to in the resolution?

Mr. **McArdle** arose and said:

Mr. President: I think it ought to be fixed at such time as it will be possible for the two members not detained from official business through sickness, to have an opportunity to be in attendance, and with that in mind, I move

That the fixing of the time be left to the Chair.

Which motion prevailed.

The **Chair** said:

The Chair now fixes Tuesday, July 12, 1938, at 1:00 o'clock P. M., (Eastern Standard Time) as the time for a meeting of the Committee on Finance and the Committee on Hearings to organize the investigation referred to in the resolution.

Mr. **McArdle** arose and said:

Mr. President: Before passing upon that subject, I think it would be well to get into the record now a further motion on this subject. I move

That any person or persons having information dealing with the subject-matter of the resolution just adopted, which they desire to place into the hands of Council, do so immediately, and those having information of others who might contribute to the purpose of the investigation and who might require a subpoena to secure their attendance, notify the President of Council, and that he take the necessary steps for the issuance and serving of such subpoenas, as provided by law.

Which motion prevailed.

Mr. **Evans** presented

No 1184. An Ordinance authorizing and directing the Mayor and the Director of the Department of Public Works to carry out and complete Unemployment Relief Projects in conjunction with the Federal Works Progress Administration, and providing for the payment of the City's share of the costs thereof.

No. 1201. Report of the Committee on Finance for July 15, 1938, transmitting sundry ordinances and resolutions to Council.

Which was read, received and filed.

Also

Bill No. 1184. An Ordinance entitled, "An Ordinance authorizing and directing the Mayor and the Director of the Department of Public Works to carry out and complete Unemployment Relief Projects in conjunction with the Federal Works Progress Administration, and providing for the payment of the City's share of the costs thereof."

In Finance Committee, July 15, 1938, bill read and amended in Section 1, by inserting as shown in red, and, as amended, ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Gallagher moved

That the amendments of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in Committee and agreed to by Council, was read.

Mr. Gallagher moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Gallagher

Weir

Garland

Wolk

McArdle

O'Toole (Pres't)

Ayes 6. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also, with an affirmative recommendation,

Bill No. 1171. Resolution authorizing and directing the City Controller to transfer the sum of \$50,000.00 from Code Account No. 1522-1, Garbage and Rubbish Disposal, to Code Account No. 42, Contingent Fund.

Which was read.

Also

Bill No. 1172. An Ordinance entitled, "An Ordinance appropriating the sum of Fifty Thousand (\$50,000.00) Dollars from Code Account No. 42, Contingent Fund, for the purpose of providing funds for the development and continuance of an engineering and economic study and survey for the furtherance of a pure water supply for the City of Pittsburgh."

Which was read.

Also,

Bill No. 1173. An Ordinance entitled, "An Ordinance authorizing and directing the Mayor and the Director of the Department of Public Works to develop and continue an engineering and economic study and survey for the furtherance of a pure water supply for the City of Pittsburgh, the cost of said study and survey not to exceed Fifty Thousand (\$50,000.00) Dollars and for that purpose to employ necessary engineers, technicians, statisticians and clerical assistants, and to pay wages, salaries and other costs incident thereto from such sums as may be appropriated by Council therefor."

Which was read.

Mr. McArdle arose and said:

Mr. President:— What I have to say applies to Bill No. 1173. I moved separate consideration of the other bills for the reason that if Bill No. 1173 is not passed it is not necessary to enact the other two bills.

I am opposed to the passage of this ordinance, providing for an appropriation of \$50,000.00 to carry on what is referred to in the bill, as the development and continuation of an engineering and economic study and survey for the furtherance of a pure water supply for the City of Pittsburgh.

This proposal comes to us with no information back of it except a brief letter from the Mayor and what information there is in the bills themselves. Most of us, perhaps, know that back of this, depending on how the bills and the letter are to be interpreted, it has to do with a proposal to make a study of a new water supply for the City of Pittsburgh and environs from an entirely new source, the cost of which is roughly estimated to be somewhere in the neighborhood of \$70,000,000.

Now, it is my judgment, if we are to go into the problem of investigating the water supply for the City of Pittsburgh, we should do so upon the basis of information from reliable sources, which should come, first and necessarily, I think, from the Department of Public Works which is charged with the administration and operation of our Bureau of Water. They should indicate that the present water supply of the City of Pittsburgh is not adequate in quantity and not satisfactory in quality, or that at a reasonably early date it might cease to meet either of these two requirements.

We have nothing in our record regarding the discussion that is going on in the public press and among private individuals to indicate that there is a single fault either with the adequacy or the character of the water furnished the people of the City of Pittsburgh.

And if we did have such information that led to the suggested necessity of going into a study, it certainly ought to be upon the basis that we were going in to study the water problem and there would be no question or doubt that we were going to study it in its broadest aspect and that it would be couched in language that could not be misconstrued to mean anything else than to first, secure the services of undoubtedly competent water works and sanitary engineers and water works engineers and others whose opinions are proven worthwhile by their past reputation and rec-

ord. And that the work that they would have assigned to them would reach into every phase of this question where there might be found anything of importance to bring us an answer.

I happen to know little about this, but I do know that among men well versed in the problem of water supply for this district and particularly the City of Pittsburgh, there is anything but an approach to unanimity upon the question that anything of importance is to be done with the water supply of the City of Pittsburgh. And insofar as this resolution or ordinance, and the Mayor's letter might be interpreted, to continue what might be referred to as an unofficial inquiry that has been going on, it is certain in my mind that no well-informed person on the question of a water supply for a great community like Pittsburgh would limit it to that particular territory. I happen to be convinced that some of the best-informed persons in this matter believe this proposal is entirely without practicability, to put it mildly. Then deciding, first, that the water supply needs attention, there would be no necessity for going to the extent of spending such a substantial sum as \$70,000,000 in order to correct that. Seventy million dollars, remember, is slightly less than 10 per cent, in excess of our entire bonded indebtedness, which includes outstanding bonds for payment of our present water supply system.

It is intended to ignore that which I am led to believe is the most practical source of a new water supply and the cheapest, and that is the Allegheny watershed itself.

And in addition, men of rather extended understanding, or reputedly so, believe the territory this legislation proposes to study could not possibly offer a permanent water supply for Pittsburgh with protection against drought in a territory from which it draws its supply.

We are doing this at a time when the Federal Government is expending huge sums of money to build dams on the Allegheny watershed—an outstanding value of which is intended to be the improvement of the water supply which extends down to that point, which it might control at the confluence of the Kiski-

mentas and Allegheny rivers, but where it might not control it beyond because of the acid conditions of the Allegheny river. It is at that point where a study of a new water supply ought to begin.

I do not know whether any of these men are right or wrong, but I do know an opinion such as theirs ought not to be ignored.

Council ought not to launch itself upon any program calling for the expenditure of \$50,000.00 upon the information contained in this ordinance or on the basis of the knowledge conveyed to the members of Council by those who advocate this project.

In my experience as a member of Council, I never knew of a proposition of such magnitude being presented with so little preliminary information in support of it.

Let it be remembered that whatever may be done or what has been done with respect to this inquiry, there has never been presented to this body a bit of information as to what has been done or what the results of previous inquiries have been. It does not seem to me that that ought to be treated with any decree of secrecy. If we have an inadequate water supply, we certainly should not approach it with any decree of secrecy, if it is to ultimately involve the expenditure of anything like the sums that have been discussed in the meetings I have taken part and with which I am familiar. And particularly, too, it cannot be ignored, when some of the persons who are informed of what has been done are in possession of the opinion of at least one well-reputed engineer who believes that the best water supply that could be obtainable for Pittsburgh, if an improvement on its own water supply proves needful, could be provided at an expense of perhaps little more than 10 per cent of what we are led to believe is the estimated cost of this project.

With these things back of my mind, I am not going to vote for the passage of an ordinance which gives virtually carte blanche, \$50,000.00 for the purposes set forth in the legislation itself and over which Council has no control and over which it could not satisfactorily exercise control even though Council provided it in the bill itself, because

of previous experience in matters of this kind.

I propose to vote against all three bills and to vote against any substantial appropriation for the purpose of an inquiry into the question of the water supply until we have somebody who is responsible for it, lay before us the reasons which impel them to believe that Pittsburgh ought now to begin the consideration of a new or more adequate water supply, or a better water supply; the reasons for it; the opinions that support it; and what they propose to do with it, and how thorough and comprehensive their reports will be; and further, until I am satisfied that we will not spend \$40,000, \$50,000 or \$100,000 to ultimately find that we will have to look into a different source, even though we are convinced we need a new water supply. I want to know it for additional reasons, because I do not want the impression to go out to the people of Pittsburgh that our water supply is not among the best in the State of Pennsylvania, and for the further reason, since the installation of our present water supply system, it is not among the best water-producing plants of our entire State if not the Nation.

Mr. Wolk arose and said:

Mr. President:— When do we meet in committee again?

The Chair said:

No date has been fixed.

Mr. Wolk said:

The date has not been fixed. Are we holding any hearings outside this investigation?

The Chair said:

The first hearings scheduled are on August 3rd. Because of the large number of papers that have been presented today, unquestionably the committees will meet in the near future.

Mr. Wolk said:

Mr. President:— We have had many informal meetings in connection with this proposed new water supply project. I don't recall whether Mr. McArdle was present; I know Mr. Garland was present.

If there is any question in his mind as to the matters that were discussed

at these informal meetings with the Mayor and the other people, the reports were from reliable sources; as, for example, a report from the Chief Hydraulic Engineer of the Aluminum Company of America was presented.

In view of Mr. McArdle's remarks, I think it would be advisable, since we are going to meet in committee shortly, to recommit these bills and have the Mayor submit all the reports he submitted informally. I think all the members were invited to these informal meetings and discussed these matters fully.

Mr. McArdle arose and said:

Mr. President:— May I be permitted to say for the record, the only conference I attended of which I have knowledge, was one at which the report was shown, discussed and not presented to Council at any subsequent time. I don't recall having been in attendance at any other conference on this subject, nor do I recall having been invited to any others. I am not clear on that though.

Mr. Wolk moved

That Bill Nos. 1171, 1172 and 1173 be recommitted to the Committee on Finance, and that the Mayor be requested to present to the Committee on Finance all the reports and all the information in his possession in connection with these bills.

Which motion prevailed.

AN ORDINANCE—Authorizing the issuance of a warrant in favor of George E. Scaff in the sum of \$165.15 for insurance covering automobile used by City Council for the period from January 1st to December 31, 1937.

WHEREAS, George E. Scaff furnished policies for automobile insurance for the automobile used by Council the premium amounting to \$165.15, the poli-

cies covering the period from January 1st to December 31st, 1937; and

WHEREAS, Under the provisions of the Act of May 23, 1874, known as "The Wallace Act", the City of Pittsburgh is authorized to direct the payment of any claim against the City without previous authority of law where the City has received the benefit of the same; Now, therefore,

Section 1. Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That the Mayor be and he is hereby authorized and directed to issue, and the City Controller to countersign, a warrant in favor of George E. Scaff in the sum of \$165.15 for premium for automobile insurance for the Council car for the period from January 1st to December 31st, 1937, and charge same to Code Account No. 1003, Miscellaneous Service. Office of the City Clerk.

Section 2. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed, so far as the same affects this Ordinance.

No. 42

AN ORDINANCE—Authorizing issuance of warrants in favor of The Pennsylvania Railroad for \$333.39 and in favor of The Pittsburgh and Lake Erie Railroad for \$1,921.11, in payment of work done, materials and services furnished in connection with the widening and regrading of Carson street West in the vicinity of the Ohio Connecting overhead railway.

WHEREAS, The Pennsylvania Railroad placed an inspector on work involving changes to the abutment of the Ohio Connecting Bridge No. 190 and submitted a bill to the City of Pittsburgh for reimbursement for such services in the amount of \$333.39, which

bill has been checked and found correct, said change to the bridge abutment having been done with the permission of the railroad company and as a result thereof, considerable saving in cost to the City obtained from the cost that would have been incurred by an alternative plan, which the City, otherwise, would have been compelled to make effective; and

WHEREAS, The Pittsburgh and Lake Erie Railroad submitted a bill in the amount of \$1,921.11 for changing their transmission and signal wires and cables in the vicinity of the Ohio Connecting Bridge, which bill has been checked and found correct, said changes in their facilities having permitted the City to extend cantilever construction that supports a portion of Carson street West in this vicinity in such manner as to form an encroachment over their right-of-way to a greater extent than is provided for in the agreement that was duly entered into between this railroad and the City some years ago, such action on their part having saved costs that the City would otherwise have been compelled to incur in a sum considerably in excess of the expense entailed in changing said wires and cables; and

WHEREAS, Under the provisions of the Act of May 23, 1874 authority is provided for payment of work done, materials and services furnished for the benefit of the City without previous authority of law, Now, therefore,

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same,* That the Mayor is hereby authorized and directed to issue and the Controller to countersign warrants in favor of The Pennsylvania Railroad for the sum of \$333.39, and The Pittsburgh and Lake Erie Railroad for the sum of \$1,921.11 in payment for work done, materials and services furnished in connection with the widening and changing of grade of Carson street West, in the vicinity of the Ohio Connecting overhead railway, and charge same to Bond Fund 122-19.

No. 109

AN ORDINANCE—Authorizing the elimination of unsafe or insanitary dwellings in the City of Pittsburgh, approving a form of contract with the Housing Authority of the City of Pittsburgh with respect thereto, and authorizing the execution of said contract.

WHEREAS, the Housing Authority of the City of Pittsburgh (herein called the "Authority") proposes to develop and administer a low-rent housing project (herein called the "Project") within the territorial limits of the City of Pittsburgh (herein called the "City"), including approximately 1800 dwellings; and

WHEREAS, in connection with the development of the Project, the Authority desires to eliminate unsafe or insanitary dwellings situated within the territorial limits of the City substantially equal in number to the number of newly constructed dwellings to be provided by the Project; and

WHEREAS, the Authority has requested the City to cooperate with it and assist it in the elimination of such unsafe and insanitary dwellings; and

WHEREAS, there exist in the City unsafe and insanitary dwellings to a greater number than the number of new dwellings to be included in the Project, and it is necessary and desirable that the City should eliminate such unsafe or insanitary dwellings to protect the health, safety and morals of the inhabitants of this City; and

WHEREAS, it is necessary that the present low-income occupants of unsafe or insanitary dwellings be provided with new dwellings at rentals they can afford to pay; and

WHEREAS, the City will directly benefit from the construction of new dwellings for families of low income and from the elimination of unsafe or

insanitary dwellings within the City, NOW, THEREFORE,

Section 1. Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That the City hereby determines that, for the purpose of aiding said Authority in its efforts to eliminate unsafe and insanitary dwellings in the City, the City shall cooperate with the Authority by eliminating some of the unsafe or insanitary dwellings within the territorial limits of the City, equal to or greater than the number of newly-constructed dwellings to be provided by the Project.

Section 2. That the City shall enter into a contract with the Authority substantially in the following form:—

AGREEMENT BETWEEN THE CITY OF PITTSBURGH AND THE HOUSING AUTHORITY OF THE CITY OF PITTSBURGH

1. In consideration of the mutual promises of the City of Pittsburgh, Pennsylvania (herein called the "City"), and the Housing Authority of the City of Pittsburgh (herein called the "Authority"), hereinafter set forth, the City and the Authority agree as follows,

2. The City Agrees to eliminate unsafe or insanitary dwellings of a number equal to or greater than 1800, being the number of new dwellings to be provided in a low-rent housing project (herein called the "Project") to be developed by the Authority, less the number of unsafe or insanitary dwellings eliminated from the site of the Project by the Authority during the development of the Project.

3. The City agrees to eliminate such unsafe or insanitary dwellings within the territorial limits of the City.

4. The City agrees to eliminate such unsafe or insanitary dwellings in one or the other of the following ways, or partly in one of these ways and partly in another:

(a) By demolishing dwellings which are on land acquired by the City by purchase or otherwise, including demolition of such dwellings on land purchased for any public uses; or

(b) By causing the compulsory

demolition, effective closing, repair or improvement of such unsafe or insanitary dwellings; or

(c) By inducing private owners voluntarily to eliminate such dwellings.

5. In computing the number of unsafe or insanitary dwellings eliminated under the terms of this Agreement, there shall be included all unsafe or insanitary dwellings eliminated under this Agreement from the date hereof; provided, however, that all unsafe or insanitary dwellings eliminated by the City prior to the date of this Agreement and prior to April 1, 1938, will be counted as elimination under this Agreement if the Authority is satisfied that such elimination was undertaken in anticipation of the execution of this Agreement.

6. In computing the number of unsafe or insanitary dwellings eliminated under the terms of this Agreement, the remedying of violations of local building codes or ordinances by compulsory action of the City, insofar as it results in the elimination of unsafe or insanitary dwellings, shall be considered as elimination. The voluntary remedying of such violations shall not be considered as elimination.

7. For the purpose of this Agreement, a dwelling shall be considered unsafe or insanitary whenever by reason of dilapidation, faulty construction, lack of ventilation, light or sanitation facilities, or any combination of these factors, it is detrimental to safety, health or morals.

8. The Authority agrees:

(a) To advise the officers in charge of appropriate departments of the City, of the existence of any unsafe or insanitary dwellings in the City, which the Authority finds as a result of its surveys or studies;

(b) To make reports to the City, from time to time, regarding such matters; and

(c) To cooperate with the City in securing the elimination of unsafe or insanitary dwellings required hereunder.

9. The City agrees to cause its officers in charge of appropriate depart-

ments to make reports to the Authority from time to time regarding:

(a) The action taken by the City in the elimination or repair of unsafe or insanitary dwellings hereunder

(b) The dates of such action;

(c) The location of such dwellings; and

(d) The condition of such dwellings which made them unsafe or insanitary.

10. The Authority agrees that it will use its best efforts to develop the Project as rapidly as possible and to operate and maintain such Project for families of low income. The Authority agrees to keep the City fully informed as to the status of the Project.

11. The Authority and the City agree that the elimination undertaken and required hereunder shall be considered as a part of the Project.

12. The City agrees to complete the elimination required hereunder within one year from the date of physical completion of the Project.

IN WITNESS WHEREOF, the City of Pittsburgh, Pennsylvania, and the Housing Authority of the City of Pittsburgh have respectively caused this Agreement to be duly executed in triplicate as of the _____ day of _____, 1938.

No. 110

AN ORDINANCE—To carry into effect in the City of Pittsburgh the provisions of the Act of Assembly of 1927, P. L. 437, to safeguard the public health within the City of Pittsburgh; authorizing the issuance of certain certificates by the Department of Public Health, and providing for the payment of fees and prescribing penalties for violations of this ordinance.

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That on and after the passage of this Ordinance it shall be the duty of the Director of the Department of Public Health, and he is hereby authorized and directed, in accordance with the provisions of the Act of Assembly approved April 17, 1927, P. L. 437, and amendments thereto to require inspections to be made of all public eating places and public drinking places within the City of Pittsburgh at least twice a year or more often if necessary, for the purpose of determining whether the proprietors or managers of said public eating and public drinking places have complied and are complying with the requirements of the aforesaid Act of Assembly and of this Ordinance.*

Section 2. If, after inspection as herein provided, a public eating or drinking place is found to comply with the provisions of this Ordinance and has had the necessary physical examinations made and health certificates filed with the Department of Public Health on forms provided, the said Department shall issue a certificate of compliance to the proprietor of the said eating or drinking place. The Director of Public Health is hereby authorized to charge an inspection fee in the sum of \$5.00 annually, payable when such certificate is issued and such payment will be for the year or any

part thereof. All certificates expire on July 1st of each year and shall not be transferable. All moneys received in payment of the cost of permits shall be paid into the City Treasury.

Section 3. Restaurants, lunch rooms, kitchens and other places where food is prepared or served to the public shall be provided with ample facilities for washing and cleaning all eating and cooking utensils. All dishes and utensils after having been once used shall be thoroughly washed and cleaned in hot water containing soap or other effective cleansing agent so as to remove all visible foreign matter complete. All eating and cooking utensils shall then be thoroughly washed in hot water with soap or alkaline washing powder, followed by rinsing in clean hot water of a temperature of not below 170 degrees Fahrenheit, for at least one minute, followed by draining. Provided that, in lieu of such rinsing in boiling water, such receptacles may be immersed in clean water to which has been added a chlorine disinfectant in such quantity as to yield approximately 100 parts per million of available chlorine (one-half ounce of a solution of chlorinated soda per gallon wash water). The amount of available chlorine in such rinse water at no time shall be less than 60 parts per million, and the water shall be kept clean at all times. Sinks shall be divided into at least two parts near dispensers and in kitchens, and shall be of non-porous material.

Section 4. Dish washing machines approved by the Department of Public Health will be accepted. No glasses, dishes, eating utensils or other receptacle after use by one patron shall be offered to, or permitted to be used by, any other patron without such receptacle having been first thoroughly washed and cleansed by the foregoing method. All chemical sterilizers shall be approved by the Department of Public Health of the City of Pittsburgh. In lieu of the above requirements, dishes, cups and spoons manufactured from wood or paper and used for one service may be permitted. All plumbing and drainage requirements must comply with Ordinance No. 350 of 1936, and Act of Assembly approved June 7, 1901, P. L. 493, as amended.

Section 5. The words "public eating or drinking place" shall mean any place within the City of Pittsburgh where food or drink is served to, or provided for, the public, with or without charge; including, among others, hotels, restaurants, cafes, cafeterias, ice-cream saloons, soda-water or soft drink fountains, and bars or taverns. The word "proprietor" shall mean any person, firm, or corporation conducting or operating, within the City of Pittsburgh, a public eating or drinking place. The word "employee" shall include any cook, waiter, kitchen help, chambermaid, house servant, or other employee of any kind, of or in a public eating or drinking place who, in any manner whatever, handles or comes in contact with any food or drink served to or provided for the public, and any member of the proprietor's family who handles said food or drink. The masculine pronoun shall be interpreted to include the feminine and neuter pronouns.

Food shall mean any substance used or intended to be used for human consumption when the same is prepared for consumption to be consumed upon the premises where sold, which, among other things, shall include all meat, fish, vegetables, cereals and condiments, whether simple, mixed or compounded, and shall include soft drinks, ice cream or ices and confections. The use of all receptacles such as dishes, glasses, cups, saucers, etc., that are chipped or in any way cracked is prohibited.

Section 6. Approved refrigeration must also be provided for the preservation of all perishable foods. The Department of Public Health shall have the right to examine any employee, should there be any doubt concerning his health. Health cards shall be procured by employees every six months. All public eating or drinking places must also comply with the Act of 1927, P. L. 437. Physical examinations shall be made by Registered Physicians. Serological and other laboratory tests may be made at the discretion of the Director of the Department of Public Health, and specimens shall be sent to the Department of Public Health or a laboratory approved by the Department of Public Health for determination. Any violations of sanitary conditions as prescribed in this ordinance, found

by Inspectors of the Bureau of Food Inspection of the Department of Public Health, shall be recorded and notice may be given to the party concerned that abatement must be made within ten days or less.

Section 7. The Department of Public Health, Bureau of Food Inspection of the City of Pittsburgh, is hereby authorized and empowered to enforce the provisions of this ordinance.

Section 8. Any person, association, partnership or corporation which shall operate a public eating or drinking place without obtaining a certificate of compliance as provided in this ordinance, or shall violate any of the other provisions of this ordinance, shall, upon conviction thereof in a summary proceeding before any Alderman or Police Magistrate of the City of Pittsburgh, be sentenced to pay a fine of not less than ten dollars (\$10.00), nor more than fifty dollars (\$50.00), to be paid into said City Treasury, and the cost of prosecution. In default of payment of such fine and costs, all offenders shall be sentenced to be confined in the County Jail for a period of not more than thirty (30) days. Upon conviction for a second like offense, such person or persons, association or associations, co-partnership, corporation or common carrier, shall be fined not less than twenty-five dollars (\$25.00), nor more than one hundred dollars (\$100.00), and costs of prosecution. In default of payment of such fine and costs, all offenders shall be sentenced to be confined in the County Jail for a period of not more than thirty (30) days.

No. 125

AN ORDINANCE—Signifying the desire of the corporate authorities of the City of Pittsburgh that the indebtedness of the City of Pittsburgh be increased in the amount of One Million Three Hundred Fifty Thousand and no/100 Dollars (\$1,350,000.00), for the purpose of acquiring the necessary land, and for constructing, equipping, establishing and furnishing a municipal hospital, and auxiliary buildings necessary for the proper functioning of the hospital, within the City of Pittsburgh, for the care of persons suffering from infectious, contagious and other diseases, and for all other proper and necessary expenses in connection therewith; providing for the acquisition and for the construction and equipment of the municipal hospital for infectious, contagious and other diseases by the City of Pittsburgh, alone or jointly with the County of Allegheny: providing for a public election to be held in the said City for the purpose of obtaining the assent of the electors

thereof to such increased indebtedness; and providing for notice of such election.

WHEREAS, The present contagious disease hospital in the City of Pittsburgh is inadequate for the purposes intended and, in the opinion of Council, it is necessary that a new hospital be constructed, established, equipped and furnished for the purpose of providing hospitalization for persons suffering from infectious, contagious and other diseases within the City of Pittsburgh, which expenditure the City is unable to meet from current revenues; and

WHEREAS, Necessary funds therefor must be obtained by an increase of indebtedness of the said City by the issuance and sale of bonds; Now, Therefore

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That in pursuance of an Act of Assembly of the Commonwealth of Pennsylvania, entitled, "An Act to regulate the manner of increasing the indebtedness of municipalities, to provide for the redemption of the same and to impose penalties for the illegal increase thereof," approved April 20, 1874, and the several amendments and supplements thereof, and all other laws of the Commonwealth relating to the subject-matter of this Ordinance, for the purpose of acquiring necessary land and for constructing, equipping, establishing and furnishing a municipal hospital, and auxiliary buildings necessary for the proper functioning of the hospital, within the City of Pittsburgh, for the care of persons suffering from infectious, contagious and other diseases, and for all other proper and necessary expenses in connection therewith; such acquisition, construction, equipment and furnishing to be effected by the City of Pittsburgh, alone or jointly with the County of Allegheny, the corporate authorities of said City do hereby signify a desire to make an increase of indebtedness of said City, in the amount and for the purpose as set forth in Section 2 hereof.*

Section 2. That for the purpose of obtaining the assent of the electors of the said City to an increase of indebtedness of said City, a proposition shall be submitted at the regular primary election to the said electors as hereinafter provided, reading as follows:

Shall the indebtedness of the City of Pittsburgh be increased in the amount of One Million Three Hundred Fifty Thousand and no/100 Dollars (\$1,350,000.00), for the purpose of providing for the cost of acquiring the necessary land and for the construction, establishment, equipping and furnishing of a municipal hospital and auxiliary buildings necessary for the proper functioning of the hospital, within the City of Pittsburgh, for the care of persons suffering from infectious, contagious and other diseases, and for the purpose of other proper and necessary expenses in connection therewith, by the City of Pittsburgh, alone or jointly with the County of Allegheny?

Section 3. That the said proposition shall be submitted to the electors of the City of Pittsburgh at the regular primary election to be held on Tuesday, the seventeenth (17th) day of May, 1938, at the places, time, and under the same regulations as provided by law for the holding of municipal elections.

Section 4. The Mayor of said City shall by proclamation give notice of said election during at least thirty (30) days by weekly advertisements in the newspapers, not exceeding three in said City, and said notice shall contain a statement of the amount of the last assessed valuation, of the amount of the existing debt, of the amount and percentage of the proposed increase and of the purposes for which the indebtedness is to be increased.

Section 5. The Mayor of said City and all other municipal and County officials and election officers are hereby authorized and directed to do all acts and things which may be necessary for the lawful holdings and conducting of the said election in the manner provided by law, and all expenses occasioned by said election, lawfully payable by said City, shall be payable out of Appropriation No. 42, Contingent Fund.

Section 6. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed, so far as the same affects this Ordinance.

No. 174

A^N ORDINANCE—Authorizing the City of Pittsburgh to cooperate

with the Housing Authority of the City of Pittsburgh by furnishing certain municipal aid for housing projects of said housing authority: Prescribing a form of contract with the housing authority of the City of Pittsburgh with respect thereto, and authorizing the execution of said contract.

WHEREAS, the Housing Authority of the City of Pittsburgh (herein called the "Authority") proposes to develop and administer within the territorial limits of the City of Pittsburgh (herein called the "City") a low-rent housing project, Project Description II-A of which consists of approximately 526 dwelling units, more fully described in "Project Description II-A" filed with the records of the Authority, and Project Description III-A of which consists of approximately 486 dwelling units, more fully described in "Project Description III-A" filed with the records of the Authority, and Project Description IV-A of which consists of approximately 511 dwelling units, more fully described in "Project Description IV A" filed with the records of the Authority, and Project Description V-A of which consists of approximately 371 dwelling units, more fully described in "Project Description V-A" filed with the records of the Authority (said Project Descriptions II-A, III-A, IV-A and V-A of the Project being herein collectively called the "Project"), and said Project includes the elimination of a substantially equal number of unsafe or insanitary dwelling units; and

WHEREAS, the development of the Projects will be financed in part by the issuance of bonds of the Authority maturing over a period of sixty years, and said bonds will be secured in part by the net revenues derived from the operation of the projects but will not be so secured as to confer the power of foreclosure or forfeiture on the holders of said bonds; and

WHEREAS, it is necessary to the public health, safety and welfare of the City that the present low-income occupants of unsafe or insanitary dwellings in the City be provided with safe and sanitary dwellings at rentals they can afford to pay; and

WHEREAS, the City will directly benefit from the construction of new, safe and sanitary dwellings for families

of low income and from the elimination of unsafe or insanitary dwellings within the City: Now, Therefore,

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same,* That the City hereby determines that, for the purpose of aiding said Authority in its efforts to develop the Project and to eliminate unsafe and insanitary dwellings in the City, the City shall cooperate with the Authority by furnishing municipal improvements, services and facilities for the Project and by giving other aid on behalf of the Project, all as more fully provided in the form of agreement set forth in Section 2 hereof.

Section 2. That the City shall enter into an agreement with the Authority substantially in the following form:—

AGREEMENT BETWEEN THE CITY
OF PITTSBURGH AND THE HOUSING
AUTHORITY OF THE CITY OF
PITTSBURGH

WHEREAS, the Housing Authorities Law of the Commonwealth of Pennsylvania declares that the property of a Housing Authority is public property used for essential public and governmental purposes and that such property and an authority shall be exempt from all taxes and special assessments, except school taxes, of a city, a county, the Commonwealth, or any political subdivision thereof, and by virtue of said provision all property of the Housing Authority of the City of Pittsburgh (herein called the "Authority") is therefore exempt from taxation by the City of Pittsburgh (herein called the "City") and by all other political subdivisions (except the Pittsburgh School District) of the Commonwealth of Pennsylvania; and

WHEREAS, the Authority proposes to develop and administer within the territorial limits of the City of Pittsburgh (herein called the "City") a low-rent housing project, Project Description II-A of which consists of approximately 526 dwelling units, more fully described in "Project Description II-A" filed with the records of the Authority, and Project Description III-A of which consists of approximately 486 dwelling units, more fully described in "Project De-

scription III-A" filed with the records of the Authority, and Project Description IV-A of which consists of approximately 511 dwelling units, more fully described in "Project Description IV-A" filed with the records of the Authority, and Project Description V-A of which consists of approximately 371 dwelling units, more fully described in "Project Description V-A" filed with the records of the Authority (said Project Descriptions II-A, III-A, IV-A and V-A of the Project being herein collectively called the "Project"), and said Project includes the elimination of a substantially equal number of unsafe or insanitary dwelling units; and

WHEREAS, the Housing Authorities Law of the Commonwealth of Pennsylvania authorizes the Authority to contract with respect to the improvements, services and facilities to be furnished for the benefit of a low-rent housing project in the City, and the Housing Cooperation Law authorizes the City to contract with respect to municipal aid for the Project;

Now, Therefore, this Agreement Witnesseth, that in consideration of the mutual promises of the City and the Authority hereinafter set forth, the City and the Authority agree as follows:—

1. The City agrees that, during the period commencing with the date of the acquisition of any part of the site or sites for the Project and continuing throughout the period of physical usefulness of the Project for the purpose of providing dwelling accommodations (but in no event less than the number of years during which any of the bonds issued to aid in financing the development of the Project shall remain outstanding) the City will furnish, without cost to the Authority, municipal services and facilities for the Project and the tenants thereof of the same character as those now or hereafter furnished for other dwellings and inhabitants in the City.

2. The City agrees to vacate, on request of the Authority, in accordance with law, all public streets, alleys and roadways within the boundaries of the Project except such streets as the Department of City Planning may recommend and the City of Pittsburgh may

determine to be necessary for arterial traffic.

3. The Authority agrees to dedicate and the City agrees to accept for municipal purposes land to be acquired by the Authority and used for streets and ways within the boundaries of the Project for the purpose of providing ingress thereto and egress therefrom, as the same are now indicated on the plans of the several projects heretofore prepared by the Housing Authority and approved by the Project Advisor of the United States Housing Authority, and the City agrees, without cost to the Authority, to lay out, grade, pave and maintain such streets and ways.

4. The City agrees that without cost to the Authority it will lay out and install sewer and water lines within the dedicated rights of way necessary to service the Project.

5. The City consents to the assignment of this Agreement for the protection of the holders of any bonds issued to aid in financing the development of the Project.

6. This Agreement shall continue in full force and effect so long as the title to the Project is held by the Authority or some other public body or agency of the State.

In Witness Whereof, the City of Pittsburgh, Pennsylvania, and the Housing Authority of the City of Pittsburgh, have respectively caused this Agreement to be duly executed as of the —day of —, 1938.

AN ORDINANCE—To carry into effect in the City of Pittsburgh a supplement to the Act of March 7, 1901, P. L. 20, being the Act of July 1, 1937, P. L. 2629, creating a Department of Lands and Buildings in cities of the second class; and amending and supplementing Ordinance No. 450 approved January 7, 1902, and recorded in Ordinance Book Volume 14, Page 507, to comply with aforesaid Act of Assembly, said Ordinance No. 450 being an Ordinance setting up the departments and bureaus of the City Government in accordance with the aforesaid Act of March 7, 1901.

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That in order to effectuate the Act of July 1, 1937, P. L. 2629, creating a Department of Lands and Buildings in the City of Pittsburgh, Ordinance No. 450, approved January 7, 1902, is hereby amended and supplemented by adding thereto the following sections at the end thereof, to read as follows:*

Department of Lands and Buildings.

Section 52—The Department of Lands and Buildings shall be under the charge, direction, control and administration of one person, who shall be the head

thereof, and whose official title shall be Director of the Department of Lands and Buildings; he shall be appointed by the Mayor by and with the consent of City Council as required by law, and shall possess such qualifications as are now required by law for heads of departments of the City Government and give bond to the City of Pittsburgh in the sum of \$50,000.00.

Section 53—The care, maintenance, repair and alteration, management and supervision of the following city buildings and such other buildings or real estate as may from time to time be placed under the jurisdiction of the Department of Lands and Buildings by resolution or ordinance of City Council, the supervision of contract work in connection with the construction thereof, the supervision of janitors, watchmen and elevator service, and the operating maintenance thereof; and the lease, purchase, and sale of such buildings and real estate shall be under the jurisdiction of the Department of Lands and Buildings.

All buildings and real estate heretofore under the jurisdiction of the Bureau of City Property in the Department of Public Works.

All police stations, fire engine houses and buildings heretofore under the jurisdiction of the Department of Public Safety.

All buildings and real estate heretofore or hereafter acquired by the City by virtue of execution on tax and municipal liens or purchase at judicial sale.

Section 54—The following Bureaus shall be and they hereby are attached to, made part of, and placed under the control, direction, and supervision of the Department of Lands and Buildings:

Bureau of Accounts and Administration.

Section 55—There shall be and there hereby is created a bureau to be known as the Bureau of Accounts and Administration, which shall be attached to, made part of, and placed under the control of the Department of Lands and Buildings. The duty of this Bureau shall be to handle all accounting, clerical work and correspondence of the Department of Lands and Buildings, aforesaid; and to provide and perform all plans, drafting, estimating, and supervision in connection with the alteration or construction of City buildings under the juris-

diction of said Department of Lands and Buildings; Provided, that nothing herein contained shall prevent or prohibit the Mayor and Council, if and when it may seem wise, proper and expedient to them, from employing and paying for the services of other architects or engineers in connection with particular or specific work on City buildings not of a usual or routine character or kind, and to supervise the lease, purchase, and sale of real estate of the City, under the jurisdiction of the Department of Lands and Buildings, including the lease of the wharves and docks of the City, and the collection of all rentals, wharf fees, or other sums due the City from the sale or rental of real estate or rights attached thereto or in connection therewith; Provided, that when and as any such sale or sales shall be contemplated by the Director of the Department of Lands and Buildings, however, and at least ten (10) days before any binding contract shall be signed, such proposed sale or sales, with a description of the property involved therein, shall be submitted to the Director of the Department of Public Works for his approval, and he shall approve the same within ten (10) days, unless, in his opinion, the property involved, or a part thereof is, or reasonably may be, necessary for the carrying out of some City improvement then under way or reasonably contemplated in the future.

Bureau of Repairs.

Section 56—There shall be and there hereby is created a bureau to be known as the Bureau of Repairs which shall be attached to, made part of, and placed under the control of the Department of Lands and Buildings. The duty of this Bureau shall be to provide for and accomplish the repair and alteration of City buildings under the jurisdiction of the Department of Lands and Buildings, not let to independent contractors.

Bureau of Operating Maintenance.

Section 57—There shall be and there hereby is created a bureau to be known as the Bureau of Operating Maintenance which shall be attached to, made part of, and placed under the control of the Department of Lands and Buildings. The duty of this Bureau shall be

to provide and supervise janitors, watchmen, elevator operators, stationary engineers, and generally to conduct the operation and maintenance of City buildings, under the jurisdiction of the Department of Lands and Buildings; Provided, that such supervision shall extend to and such employes shall be provided for the operation and maintenance of City buildings only, and shall in no way overlap or interfere with the operation and maintenance of City facilities, activities or agencies housed therein or maintained or operated in connection therewith.

Section 2. That Section 20 of Ordinance No. 450, approved by the City Recorder on January 7, 1902, recorded in Ordinance Book Volume 14, page 307, creating the Bureau of City Property, be and the same is hereby repealed, and the powers and duties of this Bureau are hereby transferred to the Department of Lands and Buildings.

Section 3. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed so far as the same affects this Ordinance.

AN ORDINANCE—Fixing and defining the new southerly line of Liberty avenue, in the Second and Sixth Wards of the City of Pittsburgh, from a point 120.17 feet west of the westerly line of Twentieth street to Twenty-eighth street; and vacating a portion of Liberty avenue, from a point 120.17 feet west of the westerly line of Twentieth street to a point 49 feet west of the westerly line of Twenty-sixth street, in connection with the contemplated improvements of said street, and providing certain terms and conditions.

WHEREAS, The City of Pittsburgh contemplates on said street between said points, certain future improvements, including the immediate widening and repaving of the vehicular roadway thereof; and

WHEREAS, a portion of Liberty avenue, 12 feet in width, contiguous to the southerly line of Liberty avenue, 60.0 feet in width, formerly known as the southerly 12 foot sidewalk thereof, between a point 120.17 feet west of the

westerly line of Twentieth street and a point 49 feet west of the westerly line of Twenty-sixth street, has not been used for street purposes for upwards of 60 years, but has been occupied and used by The Pennsylvania Railroad Company for railroad purposes, with the knowledge and consent of the municipal authorities of said City; and

WHEREAS, disputes have arisen concerning the lawful title to the said land; and

WHEREAS, it is the purpose of this Ordinance to fix and define the southerly line of Liberty avenue and to determine the legal title to the land in question for all time; Therefore,

Section 1. Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That the new southerly line of Liberty avenue, in the Second and Sixth Wards of the City of Pittsburgh, is hereby fixed and defined as follows, to wit:

Beginning on the dividing line between the former Fifth and Ninth Wards, as the same existed in the year 1861, at a point distant 48 feet south of the existing northerly line of Liberty avenue, said place of beginning being 120.17 feet, more or less, west of the westerly line of Twentieth street produced and being at the easterly terminus of said 12 foot sidewalk heretofore vacated by ordinance enacted December 12, 1861, and recorded in Ordinance Book Volume 2, page 188; thence extending eastwardly, parallel to and 48.0 feet south of the existing northerly line of Liberty avenue to a point 152.28 feet east of the easterly line of Twenty-fourth street produced; thence deflecting $0^{\circ} 45' 10''$ to the right and extending eastwardly 61.12 feet to a point; thence deflecting $89^{\circ} 14' 50''$ to the right and extending southwardly 5.20 feet to a point; thence deflecting $90^{\circ} 00' 00''$ to the left and extending eastwardly, parallel to and 54 feet south of the existing northerly line of Liberty avenue to a point 49.0 feet west of the westerly line of Twenty-sixth street produced; thence deflecting $90^{\circ} 00' 00''$ to the right and extending southwardly 6.0 feet to the existing southerly line of Liberty avenue 60.0 feet in width; thence extending eastwardly, coinciding with the existing

southerly line of Liberty avenue 60.0 feet in width, to a point 81.06 feet west of the westerly line of Twenty-eighth street produced; thence extending eastwardly coinciding with the existing southerly line of Liberty avenue by the arc of a circle deflecting to the right, with a radius of 240.0 feet, a central angle of 16° 34' 20", and a chord deflecting 26° 28' 50" from the preceding course, for an arc distance of 69.41 feet to a point of reverse curve; thence extending eastwardly, coinciding with the existing southerly line of Liberty avenue by the arc of a circle deflecting to the left, with a radius of 121.27 feet and a central angle of 34° 46' 00" for an arc distance of 73.59 feet to a point of tangent, said point of tangent being on the easterly line of Twenty-eighth street produced; thence northwardly, along the said easterly line of Twenty-eighth street produced, 52.50 feet to the existing southerly line of Liberty avenue, 60.0 feet in width.

Section 2. That southerly portion of Liberty avenue, 60.0 feet in width, extending from the dividing line between the former Fifth and Ninth Wards, as the same existed in the year 1861, at a point 120.17 feet, more or less, west of the westerly line of Twentieth street produced, to a point 49 feet west of the westerly line of Twenty-sixth street produced, and lying between the new southerly line of Liberty avenue, as fixed and defined in Section 1 of this ordinance, and the old or existing southerly line of Liberty avenue, 60.0 feet in width, shall be and the same is hereby vacated.

Section 3. The aforesaid vacation and formal abandonment of said portion of Liberty avenue is made upon the condition that the said Pennsylvania Railroad Company, for itself, its successors and assigns, as abutting property owner, shall, by writing filed with the City Controller within sixty (60) days following the enactment and approval of this ordinance, certify its acceptance of the provisions of this ordinance fixing and defining the new southerly line of Liberty avenue, vacating a portion of Liberty avenue, and shall also waive all damages, claims, or demands by reason of the reappropriation for use henceforth of the certain

portion of Liberty avenue for highway purposes as herein set forth.

Section 4. That any Ordinance or part of Ordinance conflicting with the provisions of this Ordinance, be and the same is hereby repealed, so far as the same affects this Ordinance.

No. 210

A N ORDINANCE—Granting unto the McCaskey Estate of Pittsburgh, Pennsylvania the right and privilege to construct, maintain, use and operate a cellar door 4 x 5 feet in the southerly sidewalk of Boulevard of the Allies, in the 1st Ward, Pittsburgh, Pennsylvania, said cellar door entrance being located 308.00 feet westwardly from the westerly line of Wood street.

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same,* That the McCaskey Estate of Pittsburgh, in the 1st Ward of the City of Pittsburgh, is hereby given the right, privilege and authority to construct, maintain, use and operate at its own cost and expense, a cellar door entrance adjoining their property at 220 Boulevard of the Allies, in the 1st Ward, City of Pittsburgh, Pennsylvania, and located as follows to wit:

Beginning at a point on the southerly line of the Boulevard of the Allies 308.00 feet westwardly from the westerly line of Wood street, thence extending westwardly along the south-

erly line of the Boulevard of the Allies 4.00 feet to a point; thence deflecting to the right 90°-0'-00", in northerly direction a distance of 5.00 feet to a point; thence deflecting to the right 90°-0'-00", and in easterly direction a distance of 4.00 feet to a point; thence deflecting to the right 90°-0'-00", and in a southerly direction a distance of 5.00 feet to a point on the southerly line of the Boulevard of the Allies, the place of beginning.

Said cellar door to be constructed according to the provisions of this Ordinance and in accord with the plans identified as proposed door entrance for the McCaskey Estate at 220 Boulevard of the Allies, 1st Ward, City of Pittsburgh, Pennsylvania, said plan being filed in the office of the Division of Public Utilities Bureau of Engineering, Department of Public Works, and known as Accession No. B-464.

Section 2. Prior to the beginning of the construction of said cellar door, the McCaskey Estate shall submit to the Director of the Department of Public Works of the City of Pittsburgh, a complete set of plans in triplicate, showing the location and all details for the construction of the cellar door, and shall be subject to the approval and supervision of the Director of the Department of Public Works.

Section 3. The rights and privileges herein granted shall be subject and subordinate to the rights of the City of Pittsburgh and its powers and supervision of City streets, and also to Ordinances of the City of Pittsburgh relating thereto and to the provisions of any general ordinances, which have been or may hereafter be passed relating to the construction, maintenance and use of cellar door entrances on City streets and compensation for same.

Section 4. The McCaskey Estate shall bear the full cost and expense of the repaving and repair of any street pavement damaged, repair of sewers, water lines and other surface and sub-surface structures, which may be in any way damaged or disturbed by reason of the construction, maintenance, use and operation of said cellar door entrance, all of the work including the repaving or repairing of any portion

of the street damaged, shall be done in the manner and at such times as the Director of the Department of Public Works may order and shall be subject to his approval and supervision.

Section 5. The rights and privileges granted by this Ordinance are granted upon the express condition that the City of Pittsburgh, without liability, reserves the right to cause the removal of the said cellar door entrance upon giving to the McCaskey Estate at least six (6) months' written notice from the proper officers of the City pursuant to a resolution or ordinance of Council to the McCaskey Estate, and that the said McCaskey Estate, when so notified, shall, at or before the expiration of the said six months, remove the said cellar door entrance and replace the street in its original condition at his own expense.

Section 6. The McCaskey Estate shall assume any and all liability and shall save the City of Pittsburgh harmless from and against all damages to persons or property, including the street and sub-surface structures, therein caused by or arising out of the construction, maintenance, use and operation of said cellar door entrance, and it is a condition of this grant that the City of Pittsburgh assumes no liability to either persons or property on account of this grant.

Section 7. The foregoing rights and privileges are granted subject to the conditions that this Ordinance shall become null and void unless within thirty (30) days after its enactment by Council and approval by the Mayor of the City of Pittsburgh, the McCaskey Estate shall file with the proper officers of the City of Pittsburgh their certificate of acceptance, accepting the provisions of this Ordinance.

Section 8. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed, so far as the same affects this Ordinance.

No. 216

AN ORDINANCE—Supplementing Ordinance No. 335, entitled "An Ordinance regulating the use and operation of vehicles on the streets of the City of Pittsburgh, and providing penalties for the violation thereof," approved October 3, 1922, as amended and supplemented, by prescribing regulations relative to the parking of vehicles upon such public streets and highways; providing for the installation, operation, maintenance, supervision, regulation and control of the use of parking meters; defining and providing for the establishment of parking meter zones upon the public streets and highways; providing for the enforcement thereof, and providing penalties for the violation thereof.

Section 1. Be it ordained and enacted by the City of Pittsburgh, in Council assembled and it is hereby ordained and enacted by the authority of the same, That Ordinance No. 335, entitled "An Ordinance regulating the use and operation of vehicles on the streets of the City of Pittsburgh, and providing penalties for the violation thereof," approved October 3, 1922, as amended and supplemented, is hereby further supplemented as hereinafter set forth.

Section 2. That for the purpose of this Ordinance:

(a) The word "vehicle" shall mean any device in, upon or by which any person or property is or may be transported upon a highway, except a device which is operated upon rails or tracks;

(b) The word "street" shall mean any public street, avenue, road, boulevard, highway or other public place located in the City of Pittsburgh and established for the use of vehicles;

(c) The word "operator" shall mean and include every individual who shall operate a vehicle as the owner thereof or as the agent, employee or permittee of the owner.

Section 3. The Mayor and the Director of the Department of Public Safety are hereby authorized and directed to establish immediately and from time to time hereafter, where in their opinion traffic conditions warrant the same, zones to be known as parking meter zones, upon such streets of the City of Pittsburgh as are selected by them for the location of such zones, and therein they shall cause parking meters to be installed, and shall cause parking meter spaces to be designated as hereinafter provided. Parking meter zones may only be established at locations where parking regulations now or hereafter in force limit parking to two hours or a lesser period in accordance with Ordinance No. 335, approved October 3, 1922, and its supplements and amendments thereto; and said parking meters may only be used to aid the enforcement of the applicable regulations as established under said Ordinance No. 335, approved October 3, 1922, as amended and supplemented.

Section 4. Parking meters installed in the parking meter zones established

as provided in Section 3 hereof shall be placed upon the curb immediately adjacent to the individual parking places hereinafter described. Each parking meter shall be placed or set in such manner as to show or display by a signal that the parking space adjacent to such meter is or is not legally in use. Each parking meter shall be installed and set to display upon the deposit of a five-cent coin, or its equivalent in United States currency, therein, a signal indicating legal parking for that period of time conforming to the limit of parking time which has been or may be established for that area or zone of the street upon which said parking meter is installed, and shall continue to operate from the time of the deposit of such coins therein until the expiration of the time fixed as the parking limit for the part of the street upon which said meter is placed. Each meter shall also be arranged that upon the expiration of said legal parking time it will indicate by a mechanical operation and the displaying of proper signal that the lawful parking period has expired.

Section 5. The Mayor and the Director of the Department of Public Safety are hereby instructed to have lines or marking painted or placed upon the curb and/or upon the street adjacent to each parking meter, for the purpose of designating the parking space for which said meter is to be used, and each vehicle parked alongside of or next to any parking meter shall park within the lines or markings so established. It shall be unlawful and a violation of this Ordinance to park any vehicle across any such line or marking, or to park said vehicle in such position that the same shall not be entirely within the area so designated by such lines or markings.

Section 6. When a parking space in any parking meter zone is parallel with the adjacent curb or sidewalk, any vehicle parking in such parking space shall be parked so that the foremost part of such vehicle shall be alongside of and nearest to the parking meter; when a parking space in any parking meter zone is diagonal to the curb or sidewalk, any vehicle parked in such parking space shall be parked

with the foremost part of such vehicle directed at and nearest to such meter.

Section 7. When any vehicle shall be parked in any space alongside of or next to which a parking meter is located, in accordance with the provisions of this Ordinance, the operator of said vehicle shall, upon entering the said parking space, immediately deposit or cause to be deposited a five-cent coin, or its equivalent in United States currency, in such parking meter, and place in operation said meter, and the said parking space may then be lawfully occupied by such vehicle during the period of parking time which has been prescribed for the part of the street on which said parking space is located. If said vehicle shall remain parked in any such parking space beyond the parking time limit fixed for such parking space, the parking meter shall display a sign or signal showing illegal parking, and in that event such vehicle shall be considered as parked overtime and beyond the period of legal parking time, and the parking of a vehicle where any such meter is located shall be a violation of this Ordinance and punished as hereafter set forth.

Section 8. It shall be unlawful for any person to cause, allow, permit or suffer any vehicle to be parked overtime beyond the period of legal parking time established for any parking meter zone as herein described.

Section 9. It shall be unlawful and a violation of the provisions of this Ordinance for any person to deposit or cause to be deposited in a parking meter a five-cent coin, or its equivalent in United States currency for the purpose of increasing or extending the parking time of any vehicle beyond the legal parking time which has been established for the parking space adjacent to which said parking meter is placed.

Section 10. It shall be unlawful to deposit or cause to be deposited in any parking meter any slug, devices or metallic substitutes for any coin of the United States.

Section 11. It shall be unlawful for any person to deface, injure, tamper with, open or wilfully break, destroy or impair the usefulness of any park-

ing meter installed under the provisions of this Ordinance.

Section 12. Violations of Sections 7, 8 and 9 of this Ordinance shall be considered as violations of properly established parking regulations of the City of Pittsburgh. Notice of violations of Sections 7, 8 and 9 of this Ordinance may be given by police officers of the City of Pittsburgh in the form and follow the procedure as provided in Sections 801 and 803 of Ordinance No. 106, approved April 8, 1932, as amended and supplemented, and/or in the form and following the procedure as provided in Sections 4, 5 and 6 of Ordinance No. 335, approved October 3, 1922, as amended and supplemented.

Section 13. The five-cent coins, or equivalent in United States currency, required to be deposited in parking meters as provided herein, are hereby levied and assessed as fees to provide for the proper regulations and control of traffic upon the public streets, and to cover the cost of purchase, supervision, inspection, installation, operation, maintenance, control and use of the parking spaces, and regulating the parking of vehicles in the parking meter zones created hereby. During the trial period and/or until the entire purchase price of each parking meter has been paid, the coins deposited in such meters shall be collected by the duly authorized agents of the Department of Public Safety, or jointly by such agents and the representatives of the company installing such meters. From the fund so created the Director of Public Safety shall remit to the meter company such proportion as the contract of purchase may provide, shall retain from the remainder such proportion as in his judgment may be necessary for maintenance, parts, inspection and operation of such meters, and shall deliver the amount remaining to the City Treasurer for disbursement according to law. At the expiration of the trial period and/or until the entire proportion of each parking meter has been paid, all unencumbered funds in the possession of the Director shall be delivered to the City Treasurer.

Section 14. Every person who violates or fails to comply with any of the provisions of Sections 7, 8 and 9

shall be considered as violating the parking regulations of the City of Pittsburgh and shall be fined as specified in Ordinance No. 465, approved January 5, 1937, as amended and supplemented.

Section 15. Every person who violates or fails to comply with the other provisions of this Ordinance shall be punished by a fine of not exceeding Fifty dollars (\$50.00), or by imprisonment not exceeding thirty (30) days, or by both such fine and imprisonment in the discretion of the Traffic Court Magistrate.

Section 16. If any Section, part of Section, sentence, clause or phrase of this Ordinance shall be held to be unconstitutional or invalid the remaining provisions hereof shall nevertheless remain in full force and effect.

Section 17. After the date the provisions of this Ordinance shall become effective by the installation of parking meters, the same shall govern traffic in the zones as provided above, for a period of six (6) months thereafter, within which time there shall be introduced into Council an Ordinance or Ordinances embodying such locations, or such of them as it may be desired to have continued in force and effect, and such locations as are embodied in such Ordinance or Ordinances shall continue in full force and effect during such time as such Ordinance or Ordinances shall be pending; and provided further, that if no Ordinance embodying such locations, or any of them, shall have been introduced in Council within said period of six (6) months, or if any such Ordinance or Ordinances shall fail of final enactment, then such rules and regulations affecting such locations shall terminate and be no longer in full force and effect.

Section 18. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed, so far as the same affects this Ordinance.

No. 229

AN ORDINANCE—Granting unto Williams and Company, Incorporated, its successors and assigns, the right to construct, maintain and use a standard gage sidetrack on BOWATER STREET, from a point distant 100 feet eastwardly from the easterly line of Allegheny avenue and extending eastwardly, crossing Galveston avenue, 594.95 feet to a point on the southerly line of Bowater street, said proposed side track being for the purpose of conveying materials, etc. to the property of Williams and Company, Incorporated, subject to the terms and conditions herein provided.

Section 1. Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same, That Williams and Company, Incorporated, its successors and assigns, be and they are hereby given the right and authority at their own cost and expense to construct, maintain and use a standard gage sidetrack on Bowater street, from a point distant 100 feet eastwardly from the easterly line of Allegheny avenue, and extending eastwardly, crossing Galveston avenue, 594.95 feet to a point on the southerly side of Bowater street, said proposed sidetrack being for the purpose of conveying materials, etc., to the property of Williams and Company, Incorporated, the center line thereof being located as follows: Beginning at a point distant 100 feet eastwardly from the easterly line of Allegheny avenue, and 6.0 feet southwardly from the northerly line of Bowater street; thence extending along Bowater street eastwardly, parallel to and at a perpendicular distance of 6.0 feet southwardly from the northerly line of Bowater street, for a distance of 469.52 feet to a point of curve; thence extending southeastwardly by the arc of a circle deflecting to the right, with a radius of 210.362 feet and a central angle of 33° 56' 30", for an arc distance of 125.43 feet, to a point on the southerly line of Bowater street, distant 13.42 feet eastwardly from the easterly line of Galveston avenue, said sidetrack at said point to connect with a proposed siding to be installed by The Pennsylvania Railroad Company.

The said sidetrack shall be constructed in accordance with the provisions of this Ordinance, and in accordance with plan hereto attached and identified as Accession No. B-465, Folder "B", in the files of the Division of Public Utilities, Bureau of Engineering, Department of Public Works.

Section 2. The said Company, prior to the beginning of construction of tracks, shall submit to the Director of the Department of Public Works of the City of Pittsburgh a complete set of plans showing location, paving, repaving, sewerage and all details for the construction of said tracks, and the said plans and the construction of the sidetrack shall be subject to the ap-

proval and supervision of the Director of the Department of Public Works.

Section 3. The rights and privileges herein granted shall be subject and subordinate to the rights of the City of Pittsburgh and its powers over City streets, and to the ordinances of the City of Pittsburgh relating thereto, and to the provisions of any general ordinance which may hereafter be passed relating to the construction, maintenance and use of tracks on City streets and compensation for same.

Section 4. The said grantee shall bear the full cost and expense of the repaving and repair of the street pavement damaged, repair of sewers, water lines, and other surface and sub-surface structures which may be in any way damaged or disturbed by reason of the construction, maintenance and use of said tracks. All of the said work, including the repaving of the streets damaged, shall be done in the manner and at such times as the Director may order, and shall be subject to his approval and supervision.

Section 5. The rights and privileges granted by this Ordinance, are granted upon the express condition that the City of Pittsburgh, without liability, reserves the right to cause the removal of said sidetrack upon giving six (6) months' notice through the proper officers, pursuant to a resolution or ordinance of Council, to the said Williams and Company, Incorporated, its successors and assigns, to that effect, and that the said grantee shall, when so notified, at the expiration of the said six (6) months, forthwith, remove the said tracks and replace the streets to their original condition, at its own cost and expense.

Section 6. The said grantee shall assume any liability of the City of Pittsburgh for damages to persons or property, including the streets and sub-surface structures therein, by reason of the construction, maintenance and use of the said tracks, and it is a condition of this grant that the City of Pittsburgh assumes no liability to either persons or property on account of this grant.

Section 7. The foregoing rights and privileges are granted subject to the

following condition, to wit: This Ordinance shall become null and void unless within sixty (60) days after its passage and approval, the Williams and Company, Incorporated, shall file with the City Controller their certificate of acceptance of the provisions thereof, said certificate to be executed by the President and Secretary of the Company, with its corporate seal attached.

Section 8. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed, so far as the same affects this Ordinance.

No. 230

AN ORDINANCE—Authorizing and directing the issue and sale of a short-term promissory note of the City of Pittsburgh, amounting to \$425,000.00 to provide funds to pay \$425,000 of floating indebtedness of the City, including judgments against the city, and claims for damages finally determined against the city in connection with municipal improvements, and providing for the redemption of said promissory note and the payment of interest thereon.

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same,* That the proper officers of the city are hereby authorized and directed to issue and sell a promissory note of the City of Pittsburgh in the principal sum of Four Hundred Twenty-five Thousand Dollars (\$425,000.) to provide funds to pay \$425,000. of the floating indebtedness of the city, including judgments against the city and claims for damages finally determined against the city in connection with municipal improvements. The said promissory note shall be dated as of the 1st day of June, 1938, and shall be payable on the 1st day of June, 1939. Said note shall bear interest at a rate of not less

than one-half ($\frac{1}{2}\%$) per centum per annum and not exceeding two and one-half ($2\frac{1}{2}\%$) per centum per annum. to be determined by the acceptance of a bid submitted in accordance with public advertisement, as hereinafter provided, payable semi-annually during the term of said note from the date thereof, without deduction for any taxes which may be levied thereon or on the debt secured thereby by the Commonwealth of Pennsylvania, except succession or inheritance taxes, pursuant to any present or future law, the payment of which is hereby assumed by the City of Pittsburgh. The principal and interest of said note shall be payable in lawful money of the United States of America at the office of the City Treasurer of said city.

Section 2. The sale of said promissory note shall be advertised once in at least two newspapers of general circulation in the City of Pittsburgh, including the Pittsburgh Legal Journal, which advertisement shall provide that bids for said note will be received at the rates of interest of not less than one-half ($\frac{1}{2}\%$) per centum per annum and not more than two and one-half ($2\frac{1}{2}\%$) per centum per annum, payable semi-annually, and said note shall be sold by the Mayor and by the City Controller not earlier than the third calendar business day following said advertisement, as provided by law, to the highest responsible bidder who shall offer to purchase the same at the lowest interest rate at which a bid or bids are received; provided, however, that the note shall be sold at not less than the face value thereof and accrued interest.

Section 3. There is hereby levied and assessed upon all subjects now by law liable, or hereafter to be made liable, to assessment for taxation for city purposes, a tax for the year 1939 sufficient to pay the said note at maturity, with interest and state tax thereon. There is hereby appropriated out of the general funds of the city a sum sufficient to pay the first installment of interest to be due and payable under the terms of said note. The indebtedness evidenced by said note may be funded at maturity by the issuance of bonds pursuant to law, and in said event the tax herein levied shall thenceforth be inoperative.

Section 4. That the said note shall, by the authority of this ordinance and the Act of Assembly authorizing the same, be entitled to all the rights, privileges and immunities thereof, and shall be free from tax, as aforesaid, and for the payment of the principal thereof and the interest thereon semi-annually as the same shall become payable, the faith, honor, credit and property of the City of Pittsburgh are hereby pledged.

Section 5. That said note shall be executed in the name of the City of Pittsburgh by the Mayor and countersigned by the City Controller and sealed with the corporate seal of the City of Pittsburgh. In case of the absence or disability of either of such officials, or of their refusal to act, the note shall be signed by the city official authorized by law or by resolution of Council to act in his place. The form of the note to be used in pursuance of this ordinance shall be substantially as follows:

No. 249

AN ORDINANCE—Granting unto the Duquesne Brewing Company of Pittsburgh, Pa., its successors and assigns, the right to construct, maintain and use an overhead bridge across South Twenty-second street, and across Mary street, and the right to construct, maintain and use brackets extending three feet six inches over the southerly line of Mary street, all for the purpose of supporting steam beer, electric power, ammonia and other lines and walkways.

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same,* That the Duquesne Brewing Company of Pittsburgh, Pa., its successors and assigns, are granted the right to construct, maintain and use an overhead bridge across South Twenty-second street and across Mary street, and the right to construct, maintain and use brackets extending three feet, six inches over the southerly line of Mary street, all for the purpose of supporting steam, beer, electric power, ammonia and other lines and walkways, subject to the terms and conditions hereinafter stipulated.

BRIDGE OVER SOUTH TWENTY-SECOND STREET.

The southerly line of the said bridge over South Twenty-second street shall begin on the westerly line of South Twenty-second street, 15 feet northwardly from the northerly line of Mary street; thence crossing South Twenty-second street at right angles,

in an easterly direction to the easterly line of South Twenty-second street, for a distance of 60 feet. The width of said bridge and walkway shall be approximately six feet, six inches, and shall be anchored on the wall of the new office building, on the westerly side of South Twenty-second street, and on the wall of the bottling house on the easterly side of South Twenty-second street. No supports of any kind are to be placed in the street area and the clearance of said bridge shall be approximately 25 feet above the curb of South Twenty-second street.

BRIDGE OVER MARY STREET.

The easterly line of the said bridge over Mary street shall begin on the southerly line of Mary street, 88 feet west of the westerly line of South Twenty-second street; thence crossing Mary street at right angles in a northerly direction to the northerly line of Mary street for a distance of 60 feet. The width of said bridge and walkway shall be approximately six feet, six inches, and shall be anchored on the wall of the stock house on the southerly side of Mary street, and supported on the wall of the new office building on the northerly side of Mary street. No supports of any kind are to be placed in the street area, and the clearance line of said bridge shall be approximately 25 feet above the ordinance grade of Mary street.

GENERAL DESIGN.

The above bridges shall be constructed of steel trusses three feet, six inches C-C latticed together to form a box frame and with a three-foot walkway on one side, with a steel railing and plank floor.

STEEL BRACKETS ON MARY STREET.

Eight steel brackets bolted to the steel columns of the stock house along the southerly line of Mary street, from a point about 96 feet west of the westerly line of Mary street, to a point about 188 feet west of the westerly line of Mary street, and extending three feet, six inches, over the southerly line of Mary street, are to be erected in Mary street between the boiler house and the bridge. Said brackets shall be approximately 25 feet above the ordinance grade of Mary street.

Section 2. The said Duquesne Brewing Company of Pittsburgh, Pa., shall remove or cause to be removed all steel poles or other structures supporting existing overhead power, steam, beer, ammonia and other lines crossing Mary street and South Twenty-second street, or within the area of the streets, within thirty (30) days after completion of the above mentioned new lines.

Section 3. The said Duquesne Brewing Company of Pittsburgh, Pa., shall, prior to the construction of said steel brackets and bridges, submit to the Director of the Department of Public Works of the City of Pittsburgh, a complete set of plans in triplicate, showing all details of the construction of said steel brackets and bridges and no work shall be commenced thereon until the said plans have been approved by the Director of Public Works, who shall have the right at all times to inspect and supervise the said construction, operation and maintenance.

Section 4. The rights and privileges herein granted shall be subject and subordinate to the rights of the City of Pittsburgh and its power over City streets, and to the Ordinances of the City of Pittsburgh relating thereto and to the provisions of any general ordinance which may hereafter be passed relating to the construction, maintenance, and use of steel brackets and bridges over City streets, and which may provide for compensation for the use thereof.

Section 5. The rights and privileges granted by this Ordinance are granted upon the express condition that the City of Pittsburgh, without liability, reserves the right to cause the removal of said steel brackets and bridges across Mary street and South Twenty-second street, upon giving six (6) months' notice thereof through the proper officers of the City, pursuant to resolution or Ordinance of Council, and that the said grantee when so notified, shall, at the expiration of the said six (6) months, forthwith, remove the said steel brackets mounted on the steel columns of the stock house and the said bridges, and make the said buildings and streets safe and in good condition.

Section 6. The said grantee shall be responsible for and shall assume any liability whatsoever, either of the said grantee or of the City of Pittsburgh, for damages to persons or property by reason of the construction, maintenance and use of the said steel brackets and bridges over Mary street and South Twenty-second street, and it is a condition of this grant that the City of Pittsburgh assumes no liability to either persons or property on account of this grant.

Section 7. The foregoing rights and privileges are granted subject to the foregoing conditions, and to the further condition that this Ordinance shall be null and void unless within thirty (30) days after its passage and approval the Duquesne Brewing Company of Pittsburgh, Pa., shall file with the City Controller its certificate of acceptance of the provisions thereof, the said certificate to be executed by its proper officers, with its corporate seal attached.

Section 8. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed, so far as the same affects this Ordinance.

No. 1526.

September 10, 1938

The Honorable, The Council
of the City of Pittsburgh.
Gentlemen:

In connection with your request that we advise Your Honorable Body whether Bill No. 1483, "An Ordinance authorizing the elimination of unsafe or insanitary dwellings in the City of Pittsburgh, approving a form of contract with the Housing Authority of the City of Pittsburgh with respect thereto, and authorizing the execution of said contract." is approved as to form and whether it covers the provisions of the old legislation with the exception of a change in the number of dwellings embraced in the project and the number of unsafe dwellings to be demolished, we beg to advise you as follows:

This ordinance is a reenactment of Bill No. 377, which was enacted by Your Honorable Body and approved by the Mayor on March 9, 1938. The only

change effected by Bill No. 1483 is in connection with the number of low-rent dwellings embraced in the housing project, which is changed from 1800 dwellings to 3000 dwellings. Predicated upon this change in the number of dwellings embraced in the housing project, the City agrees to eliminate an equal number of unsafe and insanitary dwellings, the original number of unsafe and insanitary dwellings to be eliminated by the City being 1800, which is now changed to 3000.

The balance of the ordinance is identical with Bill No. 377 and in no manner changes the responsibility of the City. The ordinance was reenacted rather than amended because of the difficulty of amending an ordinance containing so many "Whereas" clauses and of readily identifying the changes.

Very truly yours,
Anne X. Alpern,
First Assistant City
Solicitor.

Which was read, received and filed.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Gallagher	Weir
Garland	Wolk
McArdle	O'Toole (Pres't)

Ayes 6. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 1486. Resolution designating the depositories for the deposit of money of the City of Pittsburgh for construction accounts for public improvements, upon which offers of grant have been received from the Federal Emergency Administration of Public Works, for the year 1938, as follows:—

Allegheny Trust Company

MOTIONS AND RESOLUTIONS

Mr. Gallagher presented

No. 1574. Whereas, The City of Pittsburgh is a party to the Natural Gas Rate case protesting the tariff of The Peoples Natural Gas Company in the City of Pittsburgh now pending before The Pennsylvania Public Utility Commission; and,

Whereas, The said Peoples Natural Gas Company has recently applied to said Commission for approval of its merger and consolidation with The Columbia Natural Gas Company; and,

Whereas, The said merger will affect the future rates of The Peoples Natural Gas Company; Now, Therefore, be it

Resolved, That the City Law Department be directed to oppose said merger of the Natural Gas Companies.

Which was read.

Mr. Gallagher moved

The adoption of the resolution. Which motion prevailed.

The **Chair** presented

No. 1575.

Pittsburgh, Pa.,
September 17, 1938.

President and Members,
The City Council,
City-County Building,
Pittsburgh, Pennsylvania.
Gentlemen:—

Herewith find returned without my approval, Bill No. 1431.

This bill repeals the presently enacted legislation upon which such progress as has already been made on the question of the incinerator is based.

I have signed Bill No. 1432, authorizing the application to the Public Works Administration for a grant on an incinerator, and, to protect the rights of the City in view of the very brief time available, have had the Works Department prepare and file an application upon a design which, in the opinion of this department, would be adequate.

The effect of vetoing Bill No. 1431 will be to preserve the City's right to determine the legality of the proposed award of contract should the Federal grant be not forthcoming.

This will not interfere, as I see it, with your deliberations on the choice of a consultant, nor, should you arrive

at an early agreement from carrying the repealer over my veto.

Very truly yours,
Cornelius D. Scully,
Mayor.

Which was read.

Also

Bill No. 1431. An Ordinance entitled, "An Ordinance repealing Ordinance No. 416, approved November 24, 1936, entitled, 'An Ordinance authorizing and directing the Mayor and the Director of the Department of Public Health to advertise for proposals, and, subject to approval by Committee on Health and Sanitation of City Council, to award a contract or contracts for the construction and/or operation of an incinerator plant or plants and/or for the collection and disposal of garbage and household rubbish within the limits of the City of Pittsburgh, and/or for the disposal at or from designated points of garbage and household rubbish for the term of one or more years and at a fixed annual cost', as amended and supplemented".

In Council, September 6, 1938, bill read, rule suspended, read a second and third times and finally passed.

Which was read.

Mr. Wolk moved

At the conclusion of the business of this meeting that Council recess until Wednesday September 21, 1938, at 12:45 o'clock P. M., (E. S. T.).

Which motion prevailed.

Mr. McArdle moved

That the communication and bill lay over until the recess meeting of September 21, 1938.

Which motion prevailed.

The Chair presented

No. 1576. Whereas, In connec-

tion with the Allegheny County Sesqui-centennial celebration, there will be held on Friday, September 23, 1938, on the rivers, elaborate events consisting of water parades, speed boat races, water pageants, etc.; and,

Whereas, Said events will likely attract a large number of persons to witness them; and,

Whereas, It is desirable, for the accommodation of the public and to prevent traffic congestion on streets in the neighborhood of the rivers, that proper and adequate space be furnished for the public to witness said events; and,

Whereas, A large part of the wharves is customarily devoted to the public parking of automobiles, which parking will seriously interfere with the witnessing of said events; Now Therefore,

Be it Resolved, That the City Treasurer be, and he is hereby authorized and directed to close the Monongahela River Wharf between the Smithfield Street Bridge and The Point, and the Allegheny River Wharf between the Point and the Sixth Street Bridge, to public Parking on Friday, September 23, 1938, between the hours of 7:00 A. M. and 7:00 P. M., Eastern Standard Time.

Which was read.

Mr. Anderson moved

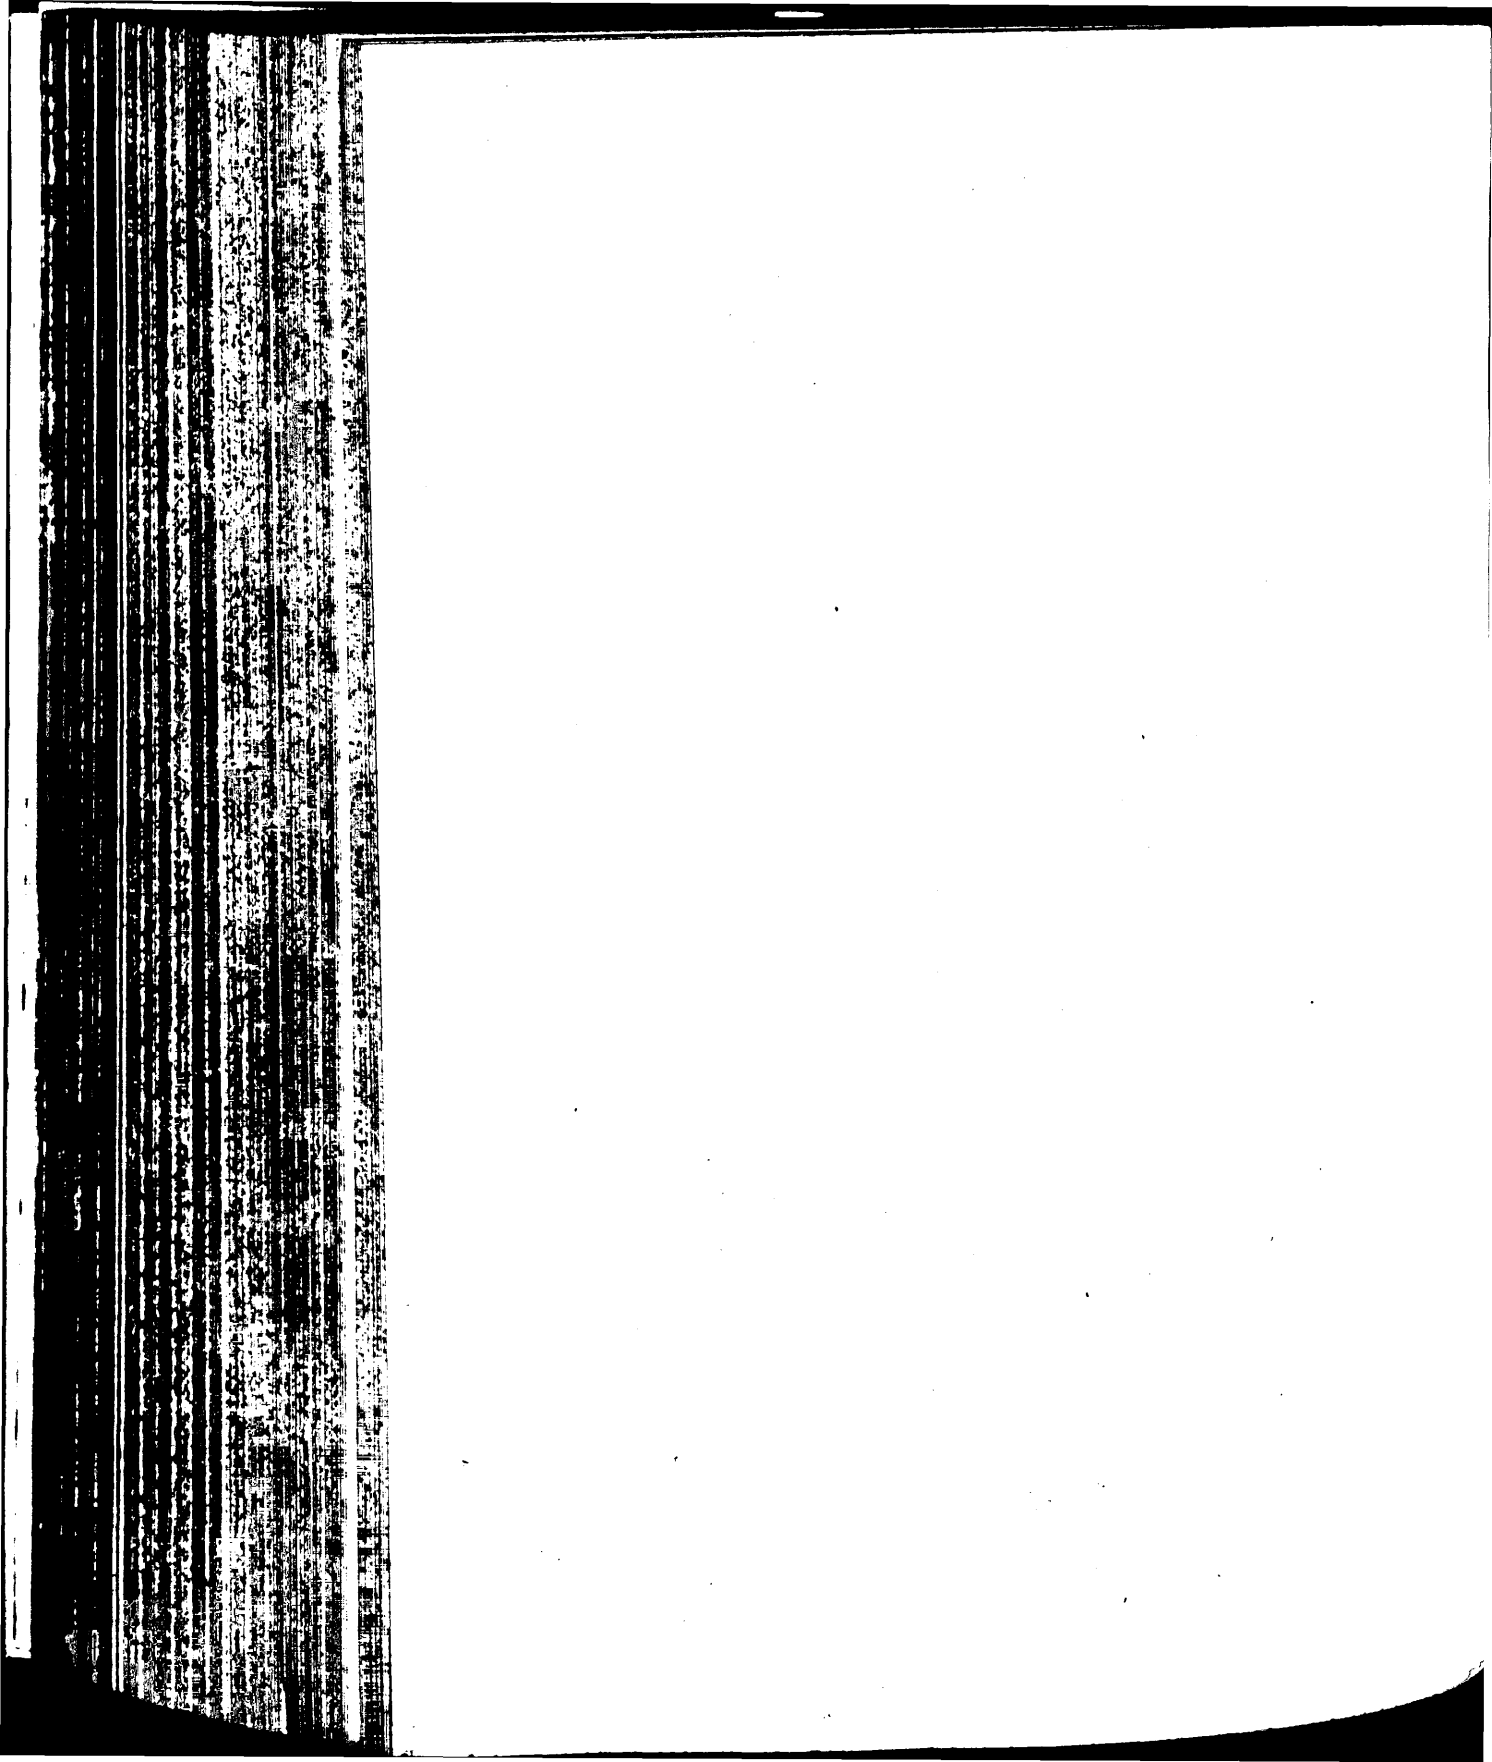

The adoption of the resolution.
Which motion prevailed.

Mr. McArdle asked

That the City Treasurer furnish adequate notice of the closing of the wharf parking on Friday, next.

And there being no further business before the meeting, the Chair declared a recess until Wednesday, September 21, 1938, at 12:45 o'clock P. M., (E. S. T.)

And Council recessed.

The Chair presented

No. 1580.

September 22, 1938.

To the Members of Council of the City of Pittsburgh

Gentlemen:—

Replying to your communication of September 20, with reference to Bill No. 1540, and in which you requested the undersigned, with Utility Engineer John H. Smith, to make an investigation of the contract between the City and the South Pittsburgh Water Company, and to determine if it is possible to enter into negotiations for reduced rates, you are advised as follows:

The contract with the water company is dated February 11, 1929, and was authorized by Ordinance No. 2, approved January 17, 1929, and of record in Ordinance Book Volume 40, Page 636. The contract became effective January 1, 1929 and will terminate December 31, 1938, subject however to the following clause—

"With the right in each party hereto to terminate this agreement at the end of any calendar quarter prior to December 31, 1938, upon not less than ninety days' notice, in writing, served upon the other party hereto, fixing the date of such termination.

"It is further understood and agreed that after December 31, 1938, this agreement may be continued in force for another year and so on from year to year, unless terminated sooner in the manner hereinbefore provided."

During the pendency of this agreement the rates have been reduced three times under pressure: first, by the Public Service Commission, later by Mount Lebanon Township, and last by the City, so that now the return to the water company is approximately \$200,000.00 less annually than it was ten years ago.

During that ten year period the business of the company has grown so that the gross revenue has increased approximately \$50,000.00 a year, of which amount a very substantial part is applicable to capital return.

In August of 1935, the City filed a complaint against the water company before the then Public Service Commission, which case is still pending at No. C. 10890, and in September, 1937 the City requested the present Commission to intervene as a party complainant. It has not as yet indicated its decision, but a conference was held on February 3 of this year between the undersigned and Mr. Smith for the City, and Mr. Kelly and Mr. McShay, respectively attorney and accountant, for the Commission. At that time the information they requested was given by your representatives and the Commission has not yet acted.

Attempts by telephone to contact officials of the water company, with a view to negotiations for reduced rates, resulted in a reference of that matter to

Joseph A. Beck, Esquire, solicitor for the water company, and a letter has been addressed to him requesting a conference to that end.

Very truly yours,

JOSEPH A. LANGFITT, JR.,

Special Assistant City Solicitor.

Which was read, received and filed.

Mr. Gallagher moved

That the Special Assistant City Solicitor be instructed to notify the South Pittsburgh Water Company that the City will terminate its agreement with the Water Company on December 31, 1938.

Mr. McArdle arose and said:

Mr. President:—I want to raise a question as to the adequacy of such a procedure, whether a mere motion of Council will be sufficient to terminate this agreement, or whether the notice will have to be in the form of a regular resolution, which took the procedure of reference to committee and passage by Council and concurrence by Mayor, to make it a binding action on the part of the City of Pittsburgh.

Mr. Gallagher arose and said:

Mr. President:—I don't know what the regular procedure is. My motive is to comply with the provisions in the agreement of giving three months' notice. If we notify them that the agreement is terminated by giving the three months' notice, and if they want to hold a conference with us for the purpose of reducing the rates, the door is still open to them to come before Council. There is a rate case pending before the Public Utility Commission against the South Pittsburgh Water Company, and their determination to reduce rates will have no effect on the case pending before the Public Utility Commission. Whatever the procedure to be followed, the City Solicitor should be notified in time to so notify the Water Company.

The Chair said:

It would occur to me that a resolution passed at this meeting would be sufficient notice to the Water Company of the City's determination to terminate this agreement. Mr. Langfitt, will you come forward?

Mr. Jos. A. Langfitt, Jr., Special Assistant City Solicitor, was present.

The Chair:

Mr. Langfitt, are you able to advise us what is required to give sufficient notice to terminate this agreement or contract?

Mr. Langfitt said:

I feel it will have to be terminated in the same manner in which it was consummated, and that is by an ordinance of Council.

Mr. McArdle said:

Have you a copy of the agreement?

Mr. Langfitt:

Yes, sir.

Mr. Wolk said:

Is there provision in the agreement as set forth in your letter? If the agreement is not terminated 90 days before the end of this year, what measures must be taken as far as extending the agreement for another year? Is that automatic, or must you take some specific action?

Mr. Langfitt:

It is automatically extended from year to year. In my opinion it can be terminated quarterly.

Mr. Wolk:

That is the question I wanted to ask. If it is extended from year to year, and say we extend it to April 1st, can it be terminated by a quarterly notice served January 1st?

Mr. Langfitt:

The present contract provides,

"With the right in each party hereto to terminate this agreement at the end of any calendar quarter prior to December 31, 1938, upon not less than 90 days notice, in writing, served upon the other party hereto, fixing the date of such termination.

"It is further understood and agreed that after December 31, 1938, this agreement may be continued in force for another year and so on, from year to year, unless terminated sooner in the manner hereinbefore provided."

Mr. Wolk:

If the agreement is extended for another year, it can be terminated

as of April 1st by giving notice January 1st?

Mr. Langfitt:

Yes, sir.

Mr. Wolk:

What would be the effect of terminating the agreement this year by giving the Water Company notice this month; what would be the effect on those who are furnished water by the Water Company?

Mr. Langfitt:

There would be no change in the style of billing the consumers for water. Instead of the City paying the bills, the consumers would be billed direct by the Water Company, and pay at their scheduled rates.

Mr. Wolk:

In other words, if the Water Company has no further contract with the City, the people who are now receiving this service would continue to pay the Water Company?

Mr. Langfitt:

And at their rates, the scheduled standard rates. The Water Company can shut them off when they don't pay, whereas the City does not.

Mr. Gallagher said:

Mr. President, I would like to ask Mr. Wolk what difference it makes if we notify them of the termination of the agreement now or wait until January 1st?

Mr. Wolk:

I didn't raise that question. The reason I asked this question is that I had a conference with Mr. Langfitt and I wanted to know the answer to these questions because I was a little disturbed of the situation in case the agreement was terminated. I am not saying we should have a continuation of the contract. I have not made up my mind on that yet. But I was concerned about the situation in which these consumers would be left. In case we terminated this agreement this month, we would find ourselves in this situation that the Company would bill these people directly after the first of the year.

Mr. Langfitt:

That is correct.

Mr. Wolk:

That is the only thing that disturbs me. I want to know if we can still terminate the contract as of April 1st or make arrangements with the Water Company or the Public Utility Commission and bring the matter up before them.

Mr. Gallagher:

I am not so much disturbed that they will change their mode of procedure. We have a case pending before the Public Utility Commission and we gave them notice. Mr. Langfitt has asked for a conference and they have not agreed to come to this conference. I feel sure that when the time comes we can sit down in conference and force them to reduce rates; that we will be able to show that they are charging excessive rates and that we have a right to go before the Public Utility Commission with a case for a reduction in rates. I am trying to save the City some money when making up the annual budget. It runs over \$400,000 a year, and I cannot see any reason why we should pay the South Pittsburgh Water Company these high rates. We ought to get the same consideration as shown large industrial users of water.

The Chair said:

We are only considering what are the legal steps to be taken to finally terminate this agreement. When we talk about terminating this agreement, we must do it in a way that will terminate it, and before we do it, we must clarify the point raised by Mr. Wolk and the Law Department, as to whether, if we fail to terminate it in this quarter or any given quarter, or whether we prolong the agreement a full year, three months' notice must be given by the City of its determination to terminate the agreement later.

Mr. Wolk:

I am not disagreeing with Mr. Gallagher. I am only raising these legal questions, and I believe they should be settled before definite action is taken on the subject.

The Chair:

Don't you believe a resolution

passed at this meeting of Council will be sufficient?

Mr. Langfitt said:

I do.

The Chair:

Mr. Gallagher, I would suggest that, if you are satisfied to change this motion and present a resolution, that is the proper thing to do.

Mr. Gallagher:

I am perfectly satisfied to do it in whatever way is proper.

The Chair:

Unless Mr. Langfitt is satisfied this motion is sufficient, we had better adopt the proper resolution or ordinance to carry out Mr. Gallagher's idea.

Mr. Langfitt:

Mr. President, I do not believe the motion as offered by Mr. Gallagher is sufficient.

The Chair:

Will you dictate the proper resolution to the stenographer?

Mr. Langfitt at this time agreed to dictate the required resolution.

The Chair:

If there are no objections, the resolution as dictated by the Special City Solicitor and written by the stenographer will be made a part of the minutes.

Mr. Gallagher said:

I move that the resolution as dictated by the Special City Solicitor for the termination of this contract be adopted.

Mr. McArdle said:

Before you take action, I would like a moment to look at this. Do I understand this motion is intended to meet the requirements of this agreement as to notice by passage of a resolution today? What further action, Mr. Langfitt, after our action then, is required to terminate this agreement?

Mr. Langfitt said:

Merely the serving of a notice upon the Water Company that the agreement is terminated.

Mr. McArdle:

We are talking about how it shall be terminated. What shall be done, assuming this resolution is passed, what follows that, to consummate fully the City's right to terminate this agreement?

Mr. Langfitt:

Merely notifying the Water Company that you have decided to terminate the agreement is sufficient.

Mr. McArdle:

Doesn't it also require the signature of the Mayor?

Mr. Langfitt:

I don't think so.

Mr. McArdle:

Mr. President, I certainly would think that it would be an error to merely pass a resolution notifying the Water Company of the City's determination to terminate this agreement. I am only talking about what we ought to do to make it effective. This is not an agreement between the City Council and the South Pittsburgh Water Company. It is an agreement between the City of Pittsburgh and the Water Company. The City of Pittsburgh is a party to the agreement and the signatures to the agreement are those of the Mayor and the Director of the Department of Public Works on authority of legal legislative action on the part of the City by which the City legally speaks.

Mr. Langfitt:

That is right.

Mr. McArdle:

We propose to undo that, to take advantage of one of the provisions of this agreement, by the mere action of Council and not by the regular procedure by which Council acts in legislative proceedings. I want to make clear, in order to give legal notice this agreement requires, that there would have to be either an ordinance or resolution introduced in Council today or Monday or whenever it was introduced, to go to the committee for consideration and be reported back and acted upon and signed by the Mayor, or passed over his veto, in order to conform to the provisions of the original agreement ordinance that proper legal notice must be

given to this Company of the City's determination to terminate the contract. If we propose to follow out the legal processes of law in this case, I certainly don't think we ought to get it into such shape that the City will be held liable because of some technical error.

Mr. Langfitt:

If we do nothing, the agreement will terminate.

Mr. Wolk said:

That is the only thing I wanted to bring out. One paragraph of the agreement says that it shall terminate December 31, 1938, with the right in either party to terminate this contract at the end of any calendar quarter upon 90 days' notice, in writing. There is another paragraph. "It is further understood and agreed that after December 31, 1938, this agreement may be continued in force for another year and so on, from year to year, unless terminated sooner in the manner hereinbefore provided." Inasmuch as the word "may" is in that contract, does it terminate the contract?

Mr. Langfitt:

That is a doubtful question.

Mr. Gallagher said:

If we don't take any action at all, as the Special Assistant City Solicitor informs us, the contract is terminated on December 31, 1938.

Mr. Wolk:

The question I raise is this: one paragraph provides for the termination of the contract December 31, 1938. If we do nothing on this agreement, the contract would be ended December 31, 1938. Take this further paragraph. "It is further understood and agreed that after December 31, 1938, this agreement may be continued in force for another year and so on, from year to year, unless terminated sooner in the manner hereinbefore provided." Unless terminated, etc., etc. The question I raise is, how do you extend this agreement for another year?

Mr. Langfitt:

By mutual consent.

Mr. Wolk:

By mutual consent. Does it re-

quire mutual consent? Does the City on its own motion extend the contract by merely notifying the Company of its intent so to do?

Mr. Anderson said:

Mr. President, what effect will it have on the present contract if we just automatically allow it to terminate?

The Chair said:

It will increase the rates of the consumers of the Water Company within the City. They will have to pay the same rates as other consumers of the Water Company.

Mr. Anderson:

If we take other action by ceasing to participate in this agreement any further than this year, what position would we be in with the Public Utility Commission about making a new agreement at a lower rate or a new rate?

Mr. Langfitt said:

Any contract we make would have to have the approval of the Commission.

Mr. Anderson:

I think the Law Department should prepare and submit the proper legislation to Council so that we can have a discussion on it. I think that is the proper question before the Council. Council should look into this as it is an important question.

The Chair said:

If we do anything we must do it before the end of this month. We are going to be here on Wednesday for hearings. If the Law Department, to accomplish this, will introduce the proper legislation Monday, I will call a special meeting of Council for Wednesday.

Mr. Wolk said:

May I suggest further that we have a written opinion on this question, particularly the question of the termination of this contract, or rather the extension of the contract for another year, the manner in which it is extended, and the question, if it is extended, whether it can be terminated within three months.

Mr. McArdle said:

I wanted to ask Mr. Langfitt another question. The right to terminate this agreement from the inception of the agreement, didn't the City have the right to terminate it at any time provided it gave ninety days' notice of its intention so to do?

Mr. Langfitt said:

That is correct.

Mr. McArdle:

Doesn't the agreement further provide if it ran the life of the agreement, which is ten years, that it would go on from year to year subject to that same right of notice to cancel?

Mr. Langfitt:

No, I cannot say it is correct. It is the intention but the wording does not so state.

Mr. McArdle:

I am reading from the language of the ordinance. Whatever it said in the original agreement is also said with respect to this as this is based upon the provisions of the ordinance, unless terminated sooner in the manner hereinbefore provided.

Mr. Langfitt:

The word "may", I would be of the opinion that there would have to be definite action taken.

Mr. McArdle:

In your case, in order to terminate this agreement, all we need to do is to take no action?

Mr. Langfitt:

That is right.

Mr. McArdle:

Then the talk of urgency in serving this notice upon the Water Company is erroneous?

Mr. Langfitt:

That is correct.

Mr. McArdle:

Another question: with respect to your further consideration of whatever report and recommendation you make to us, that this agreement provides two things. It provides (1) that the South Pittsburgh Water Company is to furnish the City with hydrant service, and then it provides for the right

of the City to purchase water wholesale and bill the users at the City rates. Now, I think whatever action is taken we ought to have in mind the preservation of that hydrant service. We ought not to abandon that because the other takes care of itself. We want to know whether the hydrant service is taken care of. The Commission may have the right under its power to force them after a reasonable time to continue that service. We ought not to pass the question up without knowing what the consequence will be before acting on it.

The **Chair** said:

Mr. McArdle and Mr. Langfitt, granting that the conclusion you have reached, that no action is necessary, don't you think it would be the prudent thing, in spite of their automatic termination, to give them a notice?

Mr. **Gallagher** said:

That was my purpose in offering the motion, that the Water Company be notified of our intention to terminate the agreement.

Mr. **Anderson** said:

What effect will that have on the price of water? If we allow this agreement to expire without a new one, what position will we be in with respect to the purchase of water for those citizens living in the City?

Mr. **Garland** said:

If you give them notice, they will come in and plead with Council for a continuation of the contract.

The **Chair** said:

The real answer to Mr. Anderson's question is that the dealings would henceforth be between the users and the South Pittsburgh Water Company, and they would be affected by the rates of the South Pittsburgh Water Company.

Mr. **Anderson** said:

That is the big question in this whole argument. Can this Council allow this agreement to expire and have the people, who are citizens of the City of Pittsburgh, who come under our tax rate, pay a higher rate for water than those who are benefited by the rate that is set by the Council? I don't think we want that. I for one don't. While

I am on my feet, I would like to ask that the Law Department supply Council immediately the rates that are charged by the City, the Borough of Homestead and any other boroughs we supply water to.

Mr. **Langfitt** said:

I have the rates here.

Mr. **Anderson**:

I think we can make some comparison if we take some action on this agreement to show what the city does in selling water to outsiders. My recollection of the agreement that the City has with Homestead is that the rate for water furnished this Borough is very low. It is lower than the South Pittsburgh Water Company charges us. It would be an argument to show the Public Utility Commission and arrive at some rate, a fair rate, to supply us water for the citizens whom they supply. I would not for a moment, Mr. President, agree to allow this agreement to run out and allow the individual who is receiving water from this very company to be charged a rate that is higher than the city rate. Surely they would have no protection at all if we do that, and I am fearful that that is the position we would put these people in if this agreement is terminated. I as one member of Council do not care to do that. So many people get their water from this source.

Mr. **Gallagher** said:

It is not my purpose to force these consumers (who are residents of Pittsburgh) to pay the same rates as outside consumers. I know we are paying the difference between the rates collected by the South Pittsburgh Water Company from outside consumers and those living within the City. I know when we were before the old Public Service Commission, a reduction of \$90,000.00 was made in water rates by the South Pittsburgh Water Company, and the question was left open for the City to return to the Commission for still further reductions. From information I have received, the City of Pittsburgh is paying the South Pittsburgh Water Company excessive rates. That Company is just a subsidiary of the American Water Works Corporation of New York. The large profits from the South

Pittsburgh Water Company go to the owners of the American Waterworks Corporation. I am trying to save the taxpayers of Pittsburgh some money. I don't want to raise the rates of the 19,000 or 20,000 consumers of this Water Company.

Mr. McArdle said:

Just what Mr. Gallagher is trying to do will result if this agreement is terminated. The only thing that saves the consumers of the Company in Pittsburgh is this agreement. The minute we terminate this agreement they will be assessed the higher rate, or the Company rate. I want to ask Mr. Langfitt another question, as to whether the existence of this agreement, its continuation during the life of this contract, is a substantial barrier against a further reduction of those rates by the Public Utility Commission?

Mr. Langfitt said:

Not in any respect.

Mr. McArdle:

Another thing, we must not lose sight of, in our present position as a very substantial contributor to meeting these costs by assuming this difference in these rates, I think we have a stronger urge to battle for a readjustment of the rates, and certainly the City of Pittsburgh ought to be in a little better position than the scattered territory in order to get relief—assuming we didn't get into the picture at all.

Mr. Langfitt:

That is the reason why we asked the Public Service Commission to intervene to avoid the expense of very high-priced engineers, accountants, etc.

Mr. McArdle:

Let me ask another question. It has been injected into our discussions here many times for many years. The question: has the Law Department really reached a definite decision as to whether the City does have the right under whatever the present state of facts are, to go into this territory within the City limits and furnish water, wholly independent of the South Pittsburgh Water Company, or any other water company?

Mr. Langfitt:

I cannot give you that opinion right now. We have a right to take over the plant.

Mr. McArdle:

I am thinking more about whether we have the right to go into any of this territory and lay any of our own lines and serve our own territory with water.

Mr. Garland said:

It is a matter of public policy to lay parallel lines.

Mr. Langfitt:

I would like to study that a little further. Take their lines—

Mr. McArdle said:

Take nothing. Merely to go in and serve these people with our own supply.

Mr. Anderson said:

Would you agree that that condition may confront us if we go through with this proposition. It will be necessary for the individual to make an agreement. The Public Utility Commission is on record now for a reduction in utility rates, including water service; and in fixing a new rate to be charged by the South Pittsburgh Water Company, they would arrive at a rate that is both fair and equitable to the consumer as well as the Company. And I am sure that it would be no higher than the rate we charge the people of Pittsburgh. We are facing that situation by taking action on this in this way. Therefore, I think we ought not to take action on this agreement. The Law Department ought to look into that question and bring it back to Council, even if we must serve notice by the end of this month.

Mr. Gallagher:

As far as the Water Company wanting to make agreements with individuals, these consumers are delinquent in their city water bills, some of them not paying at all.

The Chair said:

The Law Department advises that no action is necessary; that the agreement is automatically terminated on December 31, 1938. Within this three

months' period, probably some conclusion can be reached whereby the City's rights will be conserved. I think that is all Mr. Gallagher has in mind.

Mr. Anderson said:

If you allow this agreement to go by the board, is it the opinion of the Law Department that we can go in and make the same agreement, or the individuals will have to make agreements?

The Chair said:

It appears that as long as the Water Company is furnishing water, the Water Company will be in here for a new agreement.

Mr. Wolk said:

Mr. President, I thoroughly agree with the Chair, if I thought that this matter could be adjusted in the three months' period. In other words, the rates could be adjusted by the Public Utility Commission. That is the reason why I asked these legal questions. Are we going to put ourselves in the position of forcing these residents in these districts served by the South Pittsburgh Water Company to do business direct with the South Pittsburgh Water Company instead of through the City of Pittsburgh? That is the main point I have in mind in having these legal questions discussed here. Therefore, I would like to be absolutely certain that if the agreement is extended for another year, or can be extended, and our right to terminate upon ninety days' notice exists, then it would guide me in making a decision in this matter. I am concerned, like Mr. Anderson, of the conditions that will arise after the first of the year. I don't want to be criticized by the people in this district for providing

water service for the rest of the citizens of Pittsburgh at a lower rate than we are able to furnish it to them. That is my only reason for raising these questions. I think it is up to the Law Department to advise us definitely, and if we want to take action before the first of the month, we can do so. We ought to be advised of our legal position, so that there will be no question of terminating this contract this month, if it is the wish of Council that it be terminated.

Mr. Garland moved

That the Department of Law prepare the necessary resolution or ordinance, which in their judgment is necessary, for presentation to Council on Monday, that it be considered in Committee on Tuesday, and passed before the 30th day of September, 1938, so that the three months' notice may be given the South Pittsburgh Water Company, provided it is the wish of a majority of Council to terminate the agreement.

The Chair said:

There is a previous motion before the body. Will Mr. Gallagher withdraw his motion?

Mr. Gallagher said:

I will withdraw my motion. Mr. President.

The Chair said:

The question is on the motion of Mr. Garland, that the Department of Law be requested to introduce in Council on Monday next the necessary legislation required to terminate this contract at the end of the year.

Which motion prevailed.

And there being no further business before the meeting, the **Chair** declared Council adjourned.
